Pulp Culture Frank M. Robinson, Lawrence

Davidson, 1998 Pulp fiction's lurid adventures were vividly reflected on the magazines' eye-catching covers. Hard-boiled dames, bizarre monsters, dicks and 'tecs, sinister villains, and muscled warriors all appeared each month to tempt readers out of their hard-earned dimes. This gorgeous full-color compilation features hundreds of the genre's most thrilling covers and includes an index. Taken collectively, they provide a dazzling panorama of some 60 years of illustration and social commentary.

How to Launch a Magazine in this Digital Age

Mary Hogarth, 2013-12-19 Lively and engaging, *How to Launch a Magazine in this Digital Age* adopts a practical guide for students and inexperienced editors, detailing the process of setting up and launching a new publication -- be it digital, print or a combination of both. Using case studies, theoretical/critical insights, and tests/exercises, this is the first how-to to embrace digital technologies, including a companion website with additional support with podcasts, web links, forums and timed live author chats. The key to the text's success is its ability to encompass the complete process. It begins with the initial idea and follows the process through to developing a business plan as well as setting an editorial strategy to achieve and maintain an audience in a digital age -- where traditional print formats face an uncertain future. It includes checklists and realistic timescales for producing a digital/print magazine, for both the working professional and the student in the classroom setting.

The World of Zines Mike Gunderloy, Cari Goldberg

Janice, 1992 Such modern technology as desktop publishing allows people with diverse passions to share their views through small magazines--or zines. This handy guide to

zines includes a 400-entry directory, a history of zine publishing, and more. The ultimate creative resource for both readers and publishers alike.

Assemble Artifacts Short Story Magazine: Fall 2022 (Issue #3) various authors, Artifacts Magazine, 2022-12-13 Assemble Artifacts A short story magazine that assembles a thrilling new mix of stories from genres including horror, science-fiction, comedy, and suspense. Buried at the heart of every story in the magazine is a unique artifact, an object that has inspired our storytellers to create a big idea, an irresistible question, a new immersive world, or a sense of wonder. Unearth your next great read with Assemble Artifacts. "Losing Time" by Sydney Paige Guerrero It's all too good to be true when a woman receives a Filipino anting-anting charm that allows her to re-do moments she regrets and fixates on correcting her mistakes with the love of her life. "Support Group for the Formerly Possessed" by J. Preston Witt A support group for the formerly possessed must put their trauma aside to band together and face a demon that threatens to undo their years of therapy. "Stuck with You" by Elizabeth Davis On the brink of divorce, a couple finds themselves magically stuck together, forcing them closer than they have been in years. "Killer Queen" by Lindz McLeod After failing at love, a man partakes in a program to build his dream partner. Only she's too perfect, so he turns his attention to "normal" women, with unexpected consequences. "Sundowning" by Matt Marinovich When a passing comet elicits bizarre behavior among the residents of a nursing home, a down-on-her-luck woman realizes this is not the job she was looking for ... "Intellectual Property" by Whit Brayton Begging the question, do we truly own our identity? An investigator finds himself on the trail of a reclusive genius who has created sentient replicas of the

world's most famous actress.

Biohackers Magazine Issue 7 Biohackers Magazine , In
a world that demands so much of us in every area of our
lives, it can be easy to completely immerse ourselves in one
subject of our life as we work to improve it exponentially.
Although improvement is certainly a goal in all areas of
life, we must remember that it can be a detriment if not
done in a responsible way. Focusing all our time and
attention on one particular element, although highly
productive, also comes with a high loss: namely, the
neglect and decay that comes to our other life
goals/necessities. This type of growth attracts many
followers because of the seemingly fast-track results and
elevated effectiveness. However, it is not sustainable.
Growth must be a gradual process, involving all areas of
life on the upward spiral towards our self-optimization.
Spiritual, Physical, Mental, Emotional, and all the other
subjects must each be regarded as important in order to
grow in the healthiest way possible. The word we are
looking for here is 'Balance'. After all of the progression
and benefits, the biohacking and self-improvement
industries bring us, we must remember not to lose

ourselves in one area and forget about the other factors life calls us to maintain. The learning process is not just about knowing a lot about a little area. It also knows a little about a lot of areas. By becoming a student to everything life throws at us, we open our minds to form new connections and associations, thus allowing our brains to think more creatively and constructively. By absorbing information from the various subjects, we can train our brain to even share these sometimes complicated ideas and vast biohacks into a language that more of the common world can understand and use effectively. Albert Einstein once said, "Genius is making complex ideas simple, not making simple ideas complex." So, keep an open mind about biohacks for all parts of life. Something you think is dull or ineffective may come of some use to you later if you at least acknowledge the basic information and don't completely harden your mind. Of course, ask questions and do your own research, but never write anything off just because of your initial instinctual judgment. To change, we have to be open to change, and to be open to change, we have to see every experience of our life as a learning process. When we live by this approach and focus on changing ourselves in a positive, sustainable way that encompasses all the factors of our life, we are truly walking the path towards greatness and self-optimization.

Literary Experiments in Magazine Publishing THOMAS
LLOYD. VRANKEN, 2021-06-30 As the nineteenth century
came to an end, a number of voices within the British and
American magazine industries pushed back against
serialisation as the dominant publication mode,
experimenting instead with less conventional magazine
formats. This book explores these formats, focusing (in
particular) on the ways in which the periodical press first
published *The Adventures of Huckleberry Finn*, *The Picture
of Dorian Gray*, and *The Return of Sherlock Holmes*. What
led magazines to publish excerpts from a forthcoming
book, or an entire novel in a single issue, or a
discontinuous short-story series? How did these
experimental modes affect the act of reading? Drawing on
a range of archival and other primary sources, *Literary
Experiments in Magazine Publishing: Beyond Serialization*
addresses these and other questions.
