Smart Economy in Smart Cities T. M. Vinod Kumar, 2016-08-25 The present book highlights studies that show how smart cities promote urban economic development. The book surveys the state of the art of Smart City Economic Development through a literature survey. The book uses 13 in depth city research case studies in 10 countries such as the North America, Europe, Africa and Asia to explain how a smart economy changes the urban spatial system and vice versa. This book focuses on exploratory city studies in different countries, which investigate how urban spatial systems adapt to the specific needs of smart urban economy. The theory of smart city economic development is not yet entirely understood and applied in metropolitan regional plans. Smart urban economies are largely the result of the influence of ICT applications on all aspects of urban economy, which in turn changes the land-use system. It points out that the dynamics of smart city GDP creation takes 'different paths,' which need further empirical study, hypothesis testing and mathematical modelling. Although there are hypotheses on how smart cities generate wealth and social benefits for nations, there are no significant empirical studies available on how they generate urban economic development through urban spatial adaptation. This book with 13 cities research studies is one attempt to fill in the gap in knowledge base.

The Unknown God Martin P. Starr,2003-11-01 The first documentary study of Aleister Crowley's contemporary followers in North America, told through the life of their de facto leader, Wilfred Talbot Smith (1885-1957). Smith ('Frater 132'), the unacknowledged offspring of a prominent English family, emigrated to Canada where he encountered Charles Stansfeld Jones ('Frater Achad'), and through him, the works of Aleister Crowley ('Baphomet' and 'Therion'). Although Crowley and Smith met only once, their twenty year correspondence proved to be a major link to the few and the faithful attracted to Crowley's work in the USA and Canada. THE UNKNOWN GOD is a fascinating and complex human story, intimately interwoven with the lives of most of Crowley's American disciples including C F Russell, Jane Wolfe, Max R Schneider, Jack Parsons, Louis T Culling, Frederic Mellinger and Grady L McMurtry as well as occult teachers like H Spencer Lewis (AMORC), Paul Foster Case (BOTA), and Wayne Walker (OM), Hollywood actors such as John Carradine and even the founder of the Mattachine Society, Harry Hay. Students of 19th and 20th century esoteric movements, including the Hermetic Order of the Golden Dawn, the Theosophical Society and the Crowleyan Orders, will find THE UNKNOWN GOD worth reading.

Refractive Africa Will Alexander,2021-11-02 Finalist for the Pulitzer Prize Winner of the California Book Award in Poetry Three kinetically distilled long poems by the singular American poet who “transfigures ‘thought’ into a weave of lexical magic” (Philip Lamantia) “The poet is endemic with life itself,” Will Alexander once said, and in this searing pas de trois, *Refractive Africa: Ballet of the Forgotten*, he has exemplified this vital candescence with a transpersonal amplification worthy of the Cambrian explosion. “This being the ballet of the forgotten,” he writes as diasporic witness, “of refracted boundary points as venom.” The volume’s opening poem pays homage to the innovative Nigerian-Yoruban author Amos Tutuola; it ends with an encomium to the modernist Malagasy poet Jean-Joseph Rabearivelo—two writers whose luminous art suffered “colonial wrath through refraction.” A tribute to the Congo forms the bridge and brisé vole of the book: the Congo as “charged aural colony” and “primal interconnection,” a “subliminal psychic force” with a colonial and postcolonial history dominated by the Occident. Will Alexander’s improvisatory cosmicity pushes poetic language to the point of most resistance—incantatory and swirling with magical laterality and recovery.

A Dadgad Christmas Doug Young,2013-06 A DADGAD Christmas is a collection of twenty-one arrangements of Christmas favorites for solo fingerstyle guitar, all in DADGAD tuning - a popular alternate tuning for guitar. The book is divided into two sections: Gig Book - a set of short, easy to play arrangements, and then Performance Arrangements - a collection of more complex performance-ready arrangements. The first part of the book, the Gig Book, contains arrangements that are easy enough for beginner, but that are also meant to act as templates for your own arrangements. With a bit of practice you should be able to pull out these arrangements whenever you are asked to play a Christmas song and read the music, elaborating on the basic arrangements simply by adding your own variations within the basic structure. The second half of the book, Performance Arrangements, features longer, more complete arrangements of nine tunes, perfect for performances in any setting - with friends and family, in church, or in a concert. The book sold through Amazon does not include a CD, you can get the CD in several different ways. You can download the tracks completely free but from the author's website, or if it's easier, you can purchase the tracks from iTunes. Finally, if you prefer a physical CD, you can get one, with a jewel case from Amazon.
