Diversity Programming for Digital Youth Jamie Campbell Naidoo, 2014-06-24

Combining information about outreach to diverse populations, selection of culturally diverse children's print and digital media, and library programming, this book is the tool librarians need to promote cultural understanding through engaging children's programs designed for today's culturally diverse youth. Today's children live in a culturally diverse and constantly changing digital world. New digital media is created every day but librarians and other educators need help in evaluating cultural content in digital apps, determining whether they send appropriate social messages to children, and learning how to use them in library programs that promote cultural competence. *Diversity Programming for Digital Youth: Promoting Cultural Competence in the Children's Library* provides just the help that is needed. This resource is the only one to examine the role of culturally diverse digital media and how it can be used with children's books to promote cultural competence in the library. It provides annotated lists of digital media paired with culturally diverse literature to offer librarians and educators a springboard for creating enriching, engaging, and culturally relevant programs for children from diverse backgrounds. The sample digital storytime programs celebrating diverse cultures will benefit busy librarians looking for ways to engage reluctant readers in library storytimes.

Factory Communications Architecture Technology Corpor, 2014-06-28 Please

note this is a Short Discount publication. Factory communications as a subject and a technology depend on area networks, whether local (LAN) or wide (WAN). Therefore, a large portion of this report covers such networking. In addition, Factory Communications covers the range of factory automation devices, including PCs, PLCs, I/O devices, and software. Data exchange and cabling are other aspects of factory communications that are covered in this report.

The Road To Mecca Muhammad Asad, 1954 Part travelogue, part autobiography, The Road to Mecca is the compelling story of a Western journalist and adventurer who converted to Islam in the early twentieth century. A spiritual and literary counterpart of Wilfred Thesiger and a contemporary of T. E. Lawrence (Lawrence of Arabia), Muhammad Asad journeyed around the Middle East, Afghanistan and India. This is an account of Asad's adventures in Arabia, his inner awakening, and his relationships with nomads and royalty alike, set in the wake of the First World War. It can be read on many levels: as a eulogy to a lost world, and as the poignant account of a man's search for meaning. It is also a love story, defying convention and steeped in loss. With its evocative descriptions and profound insights on the Islamic world, The Road to Mecca is a work of immense value today.

Captivology Ben Parr, 2015-03-03 The former editor of Mashable and cofounder of DominateFund examines the psychological phenomena that captivate our attention—and how we can leverage them to draw and retain attention for our

ideas, work, companies, and more. Whether you're an artist or a salesperson, a teacher or an engineer, a marketer or a parent—putting the spotlight on your ideas, insights, projects and products requires a deep understanding of the science of attention. In *Captivology*, award-winning journalist and entrepreneur Ben Parr explains how and why the mind pays attention to some events or people—and not others—and presents seven captivation triggers—techniques guaranteed to help you capture and retain the attention of friends, colleagues, customers, fans, and even strangers. Parr combines the latest research on attention with interviews with more than fifty scientists and visionaries—Facebook's Sheryl Sandberg, film director Steven Soderbergh, LinkedIn CEO Jeff Weiner, magician Jon Armstrong, New York Times bestselling author Susan Cain, Nintendo's Shigeru Miyamoto, founder of Reddit Alexis Ohanian, and more—who have successfully brought their ideas, projects, companies, and products to the forefront of cultural consciousness. The result is an insightful and practical book that will change how you assign jobs to your kids or staff, craft a multi-million dollar ad campaign, deliver your next presentation, attract users to your product, or convince the world to support your cause.

The Impact of 9/11 on Business and Economics M. Morgan, 2009-08-31 The Impact of 9/11 on Business and Economics is the second volume of the six-volume series *The Day that Changed Everything?* edited by Matthew J. Morgan. The series brings together from a broad spectrum of disciplines the leading

thinkers of our time to reflect on one of the most significant events of our time.

The Hajj F. E. Peters, 2021-02-09 Among the duties God imposes upon every Muslim capable of doing so is a pilgrimage to the holy places in and around Mecca in Arabia. Not only is it a religious ritual filled with blessings for the millions who make the journey annually, but it is also a social, political, and commercial experience that for centuries has set in motion a flood of travelers across the world's continents. Whatever its outcome--spiritual enrichment, cultural exchange, financial gain or ruin--the road to Mecca has long been an exhilarating human adventure. By collecting the firsthand accounts of these travelers and shaping their experiences into a richly detailed narrative, F. E. Peters here provides an unparalleled literary history of the central ritual of Islam from its remote pre-Islamic origins to the end of the Hashimite Kingdom of the Hijaz in 1926.

The Longest Journey Eric Tagliacozzo,2013-04-25 The pilgrimage to Mecca, or Hajj, has been a yearly phenomenon of great importance in Muslim lands for well over one thousand years. Each year, millions of pilgrims from throughout the Dar al-Islam, or Islamic world, stretching from Morocco east to Indonesia, make the trip to Mecca as one of the five pillars of their faith. By the end of the nineteenth century, and the beginning of the twentieth, fully half of all pilgrims making the journey in any given year could come from Southeast Asia. The Longest Journey, spanning eleven modern nation-states and seven centuries, is the first book to offer a history of the Hajj from one of Islam's largest and most important regions.

Guests of God Robert Bianchi,2008-03-25 Each year, about two million pilgrims from over 100 countries converge on the Islamic holy city of Mecca for the hajj. While the hajj is first and foremost a religious festival, it is also very much a political event. No government can resist the temptation to manipulate the hajj for political and economic gain. Every large Muslim state has developed a comprehensive hajj policy and a powerful bureaucracy to

enforce it. The Muslim world's leading multinational organization, the Organization of the Islamic Conference, has established the first international regime explicitly devoted to pilgrimage. Yet, Robert Bianchi argues, no secular or religious authority - national or international - can really control the hajj. State-sponsored pilgrimage management consistently backfires, giving government opponents valuable ammunition and allowing them to manipulate the symbols and controversies of the hajj to their own ends. Bianchi has been researching the hajj for over ten years and draws on interviews with and data from hajj directors in five Muslim countries (Pakistan, Malaysia, Turkey, Indonesia, and Nigeria), statistics from Saudi Arabian hajj authorities, as well as his personal experience as a pilgrim. The result is the most complete picture of the hajj available anywhere, and a wide-ranging work on Islam, politics, and power.

Women and the Transmission of Religious Knowledge in Islam Asma

Sayeed, 2013-08-06 Asma Sayeed's book explores the history of women as religious scholars from the first decades of Islam through the early Ottoman period. Focusing on women's engagement with hadīth, this book analyzes dramatic chronological patterns in women's hadīth participation in terms of developments in Muslim social, intellectual and legal history. It challenges two opposing views: that Muslim women have been historically marginalized in religious education, and alternately that they have been consistently empowered thanks to early role models such as 'Ā'isha bint Abī Bakr, the wife

of the Prophet Muhammad. This book is a must-read for those interested in the history of Muslim women as well as in debates about their rights in the modern world. The intersections of this history with topics in Muslim education, the development of Sunnī orthodoxies, Islamic law and hadīth studies make this work an important contribution to Muslim social and intellectual history of the early and classical eras.

A Season in Mecca Abdellah Hammoudi, 2006 Moroccan scholar Abdellah Hammoudi takes a pilgrimage to Mecca to observe the Hajj as an anthropologist and as an ordinary pilgrim, and to write about it for both Muslims and non-Muslims. Here is his intimate, intense, and detailed account.

Secret Trades, Porous Borders Eric Tagliacozzo, 2008-10-01 Over the course of the half century from 1865 to 1915, the British and Dutch delineated colonial spheres, in the process creating new frontiers. This book analyzes the development of these frontiers in Insular Southeast Asia as well as the accompanying smuggling activities of the opium traders, currency runners, and human traffickers who pierced such newly drawn borders with growing success. The book presents a history of the evolution of this 3000-km frontier, and then inquires into the smuggling of contraband: who smuggled and why, what routes were favored, and how effectively the British and Dutch were able to enforce their economic, moral, and political will. Examining the history of states and smugglers playing off one another within a hidden but powerful economy of forbidden cargoes, the book also offers new insights into the

modern political economies of Southeast Asia.

iMuslims Gary R. Bunt, 2009-04-30 Exploring the increasing impact of the Internet on Muslims around the world, this book sheds new light on the nature of contemporary Islamic discourse, identity, and community. The Internet has profoundly shaped how both Muslims and non-Muslims perceive Islam and how Islamic societies and networks are evolving and shifting in the twenty-first century, says Gary Bunt. While Islamic society has deep historical patterns of global exchange, the Internet has transformed how many Muslims practice the duties and rituals of Islam. A place of religious instruction may exist solely in the virtual world, for example, or a community may gather only online. Drawing on more than a decade of online research, Bunt shows how social-networking sites, blogs, and other cyber-Islamic environments have exposed Muslims to new influences outside the traditional spheres of Islamic knowledge and authority. Furthermore, the Internet has dramatically influenced forms of Islamic activism and radicalization, including jihad-oriented campaigns by networks such as al-Qaeda. By surveying the broad spectrum of approaches used to present dimensions of Islamic social, spiritual, and political life on the Internet, iMuslims encourages diverse understandings of online Islam and of Islam generally.
