Developing Services for the Wireless Internet Maurizio Morisio, Marco Torchiano, 2007-10-16 Developing Services for the Wireless Internet offers state-of-the-art technological knowledge and practical know-how to practitioners – project managers, software architects and designers, process engineers and quality assurance workers. The book supports the developers of services and applications for mobile phones, PDAs and smart phones. This new emerging domain is characterized by a very fast pace of change in the underlying technology, exposing products and applications to a constant risk of obsolescence. The relative youth of this field means that knowledge is comparatively limited. The book identifies an approach to mitigate the above risks by focusing on: The development process, the underlying technology and its effects on connectivity, and software architectures. It provides an essential tool kit for all working in this field.

Where Kingship Descended from Heaven Deborah Bekken, Karen L. Wilson, 2023-04-10 From 1923 to 1933, the Chicago Field Museum and the University of Oxford conducted archaeological excavations at the site of Kish, located on the floodplain of the Euphrates River in modern Iraq approximately 80 kilometers south of Baghdad. Over the course of ten years of work, the expedition explored seventeen different mounds both inside and outside the ancient boundaries of Kish. The finds were divided at the end of each season, with the Iraq Museum retaining half of the objects and any one-of-a-kind items and the two excavating institutions splitting the remainder. Beginning in 2004, the Field Museum undertook a reevaluation of its Kish holdings. To highlight new research and insights into the material culture from Kish and our understanding of the importance of the site to Mesopotamian archaeology, the Field Museum held a symposium in 2008 that brought together an international group of scholars who presented papers on various aspects of the ancient city. This volume, which grew out of that symposium, presents a wide array of studies on the excavated material remains from Kish, including cuneiform texts, animal figurines, human remains, lithics, figural stucco wall decorations, and more.

From Constantine to Charlemagne Neil Christie, 2006 This book offers an overview of the archaeological and structural evidence for one of the most vital periods of Italian history, spanning the late Roman and early medieval periods. The chronological scope covers the adoption of Christianity and the emergence of Rome as the seat of Western Christendom, the break-up of the Roman west in the face of internal decay and the settlement of non-Romans and Germanic groups, the impact of Germanic and Byzantine rule on Italy until the rise of Charlemagne and of a Papal State in the later eighth century. Presenting a detailed review and analysis of recent discoveries by archaeologists, historians, art historians, numismatists and architectural historians, Neil Christie identifies the changes brought about by the Church in town and country, the level of change within Italy under Rome before and after occupation by Ostrogoths, Byzantines and Lombards, and reviews wider changes in urbanism, rural exploitation and defence. The emphasis is on human settlement on its varied levels - town, country, fort, refuge - and the assessment of how these evolved and the changes that impacted on them. this fascinating and dynamic period of European history.

The Delectable Negro Vincent Woodard, Dwight McBride, Justin A Joyce, E. Patrick Johnson, 2014-06-27 Winner of the 2015 LGBT Studies Award presented by the Lambda Literary Foundation Unearths connections between homoeroticism, cannibalism, and cultures of consumption in the context of American literature and US slave culture that has largely been ignored until now Scholars of US and transatlantic slavery have largely ignored or dismissed accusations that Black Americans were cannibalized. Vincent Woodard takes the enslaved person's claims of human consumption seriously, focusing on both the literal starvation of the slave and the tropes of cannibalism on the part of the slaveholder, and further draws attention to the ways in which Blacks experienced their consumption as a fundamentally homoerotic occurrence. The Delectable Negro explores these connections between homoeroticism, cannibalism, and cultures of consumption in the context of American literature and US slave culture. Utilizing many staples of African American literature and culture, such as the slave narratives of Olaudah Equiano, Harriet Jacobs, and Frederick Douglass, as well as other less circulated materials like James L. Smith's slave narrative, runaway slave advertisements, and numerous articles from Black newspapers published in the nineteenth century, Woodard traces the racial assumptions, political aspirations, gender codes, and philosophical frameworks that dictated both European and white American arousal towards Black males and hunger for Black male flesh. Woodard uses these texts to unpack how slaves struggled not only against social consumption, but also against endemic mechanisms of starvation and hunger designed to break them. He concludes with an examination of the controversial chain gang oral sex scene in Toni Morrison's *Beloved*, suggesting that even at the end of the twentieth and beginning of the twenty-first century, we are still at a loss for language with which to describe Black male hunger within a plantation culture of consumption.

Ponzimonium How Scam Artists Are Ripping Off America (Black and White) Commodity Futures Commodity Futures Trading Commission, 2015-01-07 In December of 2008, the world learned that legendary investment guru Bernard Madoff made-off with an estimated \$50 billion in what was called the Mother of all Ponzi Schemes. Ponzi schemes, named after Charles Ponzi, are scams in which early investors are given supposed returns paid through funds provided by later investors. Typically, an investment is made and then some profits are paid out, prompting the investor to assume that his or her money has increased in value. In actuality, the perpetrators of these schemes-Ponzi, Madoff, or the others described in this book-take the money for themselves. The legal term for this kind of taking is misappropriation. As new investors enter the fraud, supposed returns are offered continually to initial investors, and many times are accompanied by fake account statements. This continues until new money stops flowing in and the investors want their money back. During the 2008 economic downturn, people needed their money back at the same time that there were no new investors. Many house of cards scams have fallen and the perpetrators of the swindles have been caught. Charles Ponzi ran these types of scams in the U.S. until he was deported to Italy, his birth-place, in 1934 as an undesirable alien.

Black Star Ramla M. Bandele, 2010-10-01 This book describes how the first African American mass political organization was able to gain support from throughout the African diaspora to finance the Black Star Line, a black merchant marine that would form the basis of an enclave economy after World War I. Ramla M. Bandele explores the concept of diaspora itself and how it has been applied to the study of émigré and other ethnic networks. In characterizing the historical and political context of the Black Star Line, Bandele analyzes the international political economy during 1919-25 and considers the black politics of the era, focusing particularly on Marcus Garvey's Universal Negro Improvement Association for its creation of the Black Star Line. She offers an in-depth case study of the Black Star Line as an instance of

the African diaspora attempting to link communities and carry out a transnational political and economic project. Arguing that ethnic networks can be legitimate actors in international politics and economics, Bandele also suggests, however, that activists in any given diaspora do not always function as a unit.

Hierarchy, Commerce and Fraud in Bourbon Spanish America Ruth Hill,2005 Using *El lazarillo de ciegos caminantes* (the Guide for Blind Rovers by Alonso Carrio de Lavandera, the best known work of the era) as a jumping off point for a sprawling discussion of 18th-century Spanish America, Ruth Hill argues for a richer, more nuanced understanding of the relationship between Spain and its western colonies. Armed with primary sources including literature, maps, census data, letters, and diaries, Hill reveals a rich world of intrigue and artifice, where identity is surprisingly fluid and always in question. More importantly, Hill crafts a complex argument for reassessing our understanding of race and class distinctions at the time, with enormous implications for how we view conceptions of race and class today.

The African American Electorate Hanes Walton Jr,Sherman Puckett,Donald R Deskins Jr,2012-07-20 This pioneering work brings together for the first time in a single reference work all of the extant, fugitive, and recently discovered registration data on African American voters from Colonial America to the present. It features election returns for African American presidential, senatorial, congressional, and gubernatorial candidates over time. Rich, insightful narrative explains the data and traces the history of the laws dealing with the enfranchisement and disenfranchisement of African Americans. Topics covered include: - The contributions of statistical pioneers including Monroe Work, W.E.B. DuBois and Ralph Bunche - African American organizations, like the NAACP and National Equal Rights League (NERL) - Pioneering African American officeholders, including the few before the Civil War - Four influxes of African American voters: Reconstruction (Southern African American men), the Fifteenth Amendment (African American men across the country), the Nineteenth Amendment (African American female voters in 1920 election), and the Voting Rights Act of 1965 - The historical development of disenfranchisement in the South and the statistical impact of the tools of disenfranchisement: literacy clauses, poll taxes, and grandfather clauses. The African-American Electorate features more than 300 tables, 150 figures, and 50 maps, many of which have been created exclusively for this work using demographic, voter registration, election return, and racial precinct data that have never been collected and assembled for the public. An appendix includes popular and electoral voting data for African-American presidential, congressional, and gubernatorial candidates, and a comprehensive bibliography indicates major topic areas and eras concerning the African-American electorate. The African American Electorate offers students and researchers the opportunity, for the first time, to explore the relationship between voters and political candidates, identify critical variables, and situate African Americans' voting behavior and political phenomena in the context of America's political history.

Pan-African Chronology III Everett Jenkins, Jr.,2011-02-14 This third volume of the Pan-African Chronology set covers 1914 through 1929, a time of two seminal events: World War I and the Black Awakening. In World War I, people of African descent fought for both sides, earning distinction on the battlefields of France as well as in the jungles and deserts of Africa. The Black Awakening, a period from 1919 through 1929, marked the dawning of global awareness of the contributions of African people to the culture of the world. The book is arranged by year and events of each year are grouped by region. It also has two special biographical divisions for W.E.B. DuBois and Marcus Garvey.

Archeologia Medievale, XII, 1985 ,1986-01-01 «Archeologia Medievale» pubblica contributi originali riguardanti l'archeologia postclassica, la storia della cultura materiale in età pre-industriale e le scienze applicate nella forma di saggi e studi originali; relazioni preliminari di scavo; contributi critici su libri, articoli, ritrovamenti, ecc. Vengono pubblicati sia testi in italiano che in altre lingue.

La ceramica altomedievale in Italia. Atti del V Congresso di Archeologia Medievale, Roma, CNR, 26-27 novembre 2001. Stella Uggeri Patitucci,2004-12-07 Al tema della Ceramica Altomedievale in Italia è dedicato il V Congresso di Archeologia Medievale, che si è svolto – come i precedenti – a Roma nella sede del Consiglio Nazionale delle Ricerche nei giorni 26 e 27 Novembre 2001 e del quale il presente volume raccoglie gli Atti, costituiti da 23 contributi di alta qualità scientifica. Il congresso si è proposto di presentare dei bilanci regionali di sintesi e degli aggiornamenti puntuali sulle ceramiche in uso in Italia nell'altomedio e specificamente nel periodo compreso tra l'VIII e l'XI secolo, da un lato quindi escludendo gli estremi esiti tardoantichi di VI-VII secolo e dall'altro arrestandosi al momento in cui appaiono quelle innovazioni tecniche che aprono una nuova epoca nella storia della ceramica italiana. Se ne è ricavato un primo sguardo globale sull'argomento, un originale panorama della situazione degli studi, basato su rigorosi scavi stratigrafici, classificazioni accurate e raffinate analisi archeometriche dei materiali, e attento alla totalità dei tipi ceramici presenti nei diversi contesti e periodi. Pur tra tante differenze, sono emerse alcune realtà consolidate e alcune linee di tendenza convergenti.
