A Swan's Sweet Song J. Arlene Culiner, 2015-01-23 The instant Sherry and Carston meet, there's desire and fascination in the air...but they're complete opposites. Smart-talking Sherry fought her way up from poverty to stardom as a country music singer. Now, she's ever in the limelight, ever surrounded by clamoring fans, male admirers, and paparazzi, and her spangled cowboy boots carry her all across the country, from one brightly lit stage to the next. A renowned but reclusive playwright, Carston cherishes his freedom, the silence of his home in the woods, and his solitary country walks. Any long-term commitment is obviously out of the question: how about a quick and passionate fling? But when their names are linked in the scandal press, Sherry's plans to become an actress are revealed. Is their budding relationship doomed?

Materials Experience Jakki Dehn, 2013-10-24 This chapter will describe an investigation initiated in 1994 into the sustainable development of materials and the design process and show how this led eventually to the natural development of a physical, sustainable materials resource. It will consider the value of materials that are often thrown away and look at the creative potential of these new, less non-renewable, resource hungry materials. Interviews with designers, manufacturers, retail outlets and government from Europe, Asia and the USA form the basis of case studies. These highlight the importance of interdisciplinary collaboration and the designers' involvement in developing markets for these materials, showing how unexpected outcomes have sustained industries and their supporting communities. With the library as an influential resource, it will look at the impact that these new materials are having on the next generation of designers.

**Materials Experience** Elvin Karana, Owain Pedgley, Valentina Rognoli, 2013-10-24 There currently exists an abundance of materials selection advice for designers suited to solving technical product requirements. In contrast, a stark gap can be found in current literature that articulates the very real personal, social, cultural and economic connections between materials and the design of the material world. In *Materials Experience: fundamentals of materials and design*, thirty-four of the leading academicians and experts, alongside 8 professional designers, have come together for the first time to offer their expertise and insights on a number of topics common to materials and product design. The result is a very readable and varied panorama on the world of materials and product design as it currently stands. Contributions by many of the most prominent materials experts and designers in the field today, with a foreword by Mike Ashby. The book is organized into 4 main themes: sustainability, user interaction, technology and selection. Between chapters, you will find the results of interviews conducted with internationally known designers. These 'designer perspectives' will provide a 'time out' from the academic articles, with emphasis placed on fascinating insights, product examples and visuals.

**Design for Sustainable Change** Anne Chick, Paul Mickleton, 2017-09-07 *Design for Sustainable Change* explores how design thinking and design-led entrepreneurship can address the issue of sustainability. It discusses the ways in which design thinking is evolving and being applied to a much wider spectrum of social and environmental issues, beyond its traditional professional territory. The result is designers themselves evolving, and developing

greater design mindfulness in relation to what they do and how they do it. This book looks at design thinking as a methodology which, by its nature, considers issues of sustainability, but which does not necessarily seek to define itself in those terms. It explores the gradual extension of this methodology into the larger marketplace and the commercial and social implications of such an extension.

**The Papers of Alexander Hamilton** Alexander Hamilton,1975 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence.

*Sunsets Etc.* Mark Binmore,2019-11-15 'Fate always seems to pull the strings, I turned and you were gone. While standing in the darkened wings, the music box played on.' Before being rewarded with the calm he craves, he is forced to endure the relative evils of life. After decades spent in what many called 'the spotlight' James withdrew from acting and turned towards a quieter, more contemplative, more settled way of life. He both dreaded and yearned for a change from the preceding numerous years of 'continual motion'. Seeking a place of his own, he found it in a secluded house in London surrounded by trees, a garden and numerous rooms where he would sit, with his thoughts and wait. During this period James would write eloquently of the struggles he faced – the changing face of the house and the garden; the awful fear that he had made a frightful error; the recollections he tried to erase, but couldn't, and a return to what he knew best. We capture him in creating a real home, a sanctuary of simplicity and quiet ease where, perhaps for a time, he could bring his memories back to life.
