Collective Wisdom Katerina Cizek, William Uricchio, 2022-11-01 How to co-create—and why: the emergence of media co-creation as a concept and as a practice grounded in equity and justice. Co-creation is everywhere: It's how the internet was built; it generated massive prehistoric rock carvings; it powered the development of vaccines for COVID-19 in record time. Co-creation offers alternatives to the idea of the solitary author privileged by top-down media. But co-creation is easy to miss, as individuals often take credit for—and profit from—collective forms of authorship, erasing whole cultures and narratives as they do so. Collective Wisdom offers the first guide to co-creation as a concept and as a practice, tracing co-creation in a media-making that ranges from collaborative journalism to human–AI partnerships. Why co-create—and why now? The many coauthors, drawing on a remarkable array of professional and personal experience, focus on the radical, sustained practices of co-creating media within communities and with social movements. They explore the urgent need for co-creation across disciplines and organization, and the latest methods for collaborating with nonhuman systems in biology and technology. The idea of “collective intelligence” is not new, and has been applied to such disparate phenomena as decision making by consensus and hived insects. Collective wisdom goes further. With conceptual explanation and practical examples, this book shows that co-creation only becomes wise when it is grounded in equity and justice. With Coauthors Juanita Anderson, Maria Agui Carter, Detroit Narrative Agency, Thomas Allen Harris, Maori Karmael Holmes, Richard Lachman, Louis Massiah, Cara Mertes, Sara Rafsky, Michèle Stephenson, Amelia Winger-Bearskin, and Sarah Wolozin

A Pilgrimage in Japan Joan D. Stamm, 2018-05-25 Kannon, the Bodhisattva of Compassion, is the one who “hears the cries of the world” and vows to “assist anyone in distress.” As the author embarks on the pilgrimage route that extends from the Japan Sea to the Pacific Ocean, through the ancient city of Kyoto and the modern city of Osaka, and to the many mountain tops in between, she allows the special characteristics and sacred presence of each place to bring forth relevant Buddhist teaching; letting go of attachment, contemplating impermanence, engaging in right livelihood, being of service, and other teachings found in classic Buddhism. The dharma, or doctrines of Universal Truth, intertwines with rich descriptions of mountain hikes, remote temples, modern Shugendo practices, sacred icons and the author's spiritual insights.

The Gaybo Revolution Finola Doyle O'Neill, 2017-08-30 It is no exaggeration to call Gay Byrne a colossus of the Irish broadcasting scene. Throughout the latter half of the twentieth century, as host of both the Late Late Show and the Gay Byrne Show, he played a seminal role in the shift in Irish society and culture from the Church-dominated fearful state of the early 1960s to the modern multicultural Ireland we live in today. The Gaybo Revolution examines the significance of Gay Byrne's influence on this maturation of Irish society, while simultaneously highlighting the centrality of the talk show genre in Irish life. Equally reviled and revered, Byrne has been referred to as the great window-opener and a media lay priest. But his influence in single-channel Ireland is undeniable. Using letters to the editor, media articles, recent studies of Irish culture, quotes from Byrne himself and a re-examination of the original broadcasts, The Gaybo Revolution explores how Byrne and his talk shows, on both radio and television, provided a forum for popular debate and acted as catalysts for change in Irish life. It analyses and discusses the impact on Irish society of such controversies as Church denunciations of the Late Late Show, the Brian Trevisky affair, the development of the Irish Women's Liberation Movement, the Ann Lovett letters, and the seminal interviews with Annie Murphy, Pádraig Flynn and Terry Keane. In the final section of the book, the modern history of the Late Late Show, the development of Irish TV and radio talk shows in the post-Byrne era and the contrasting nature of TV talk shows in the UK and US are explored. The Gaybo Revolution will appeal to all those who wish to understand the evolution of Irish society and culture in the late twentieth century and the substantial impact of Irish media on this change.

Celebrity and New Media Stephanie Patrick, 2022-05-04 This book looks back to the early days of new and social media, to examine the potential threat that such technologies and platforms posed to the mainstream corporate media's gatekeeping, and its ability to exploit, humiliate, and even violate famous women. Drawing on her own experiences working as part of this gatekeeping system, Stephanie Patrick argues that, in order to combat this threat, the mainstream media doubled down on gendered narratives of meritocracy that legitimized certain (male) celebrities over others. Using a range of case studies spanning old media sites and new, including Disney, Playboy, and reality television, this book demonstrates that sexual exploitation and violation could be considered constitutive of female celebrity, rather than a side effect. Patrick's case studies include some of America's most (in)famous celebrities, including Miley Cyrus, Lindsay Lohan, Anna Nicole Smith, Paris Hilton, and Donald Trump, urging readers to question their assumptions about these figures and their public trajectories. This nuanced exploration of patriarchal capitalism and women's ongoing sexual exploitation by the media will be an important reference for scholars and students of digital and new media, journalism, celebrity studies, and gender studies.

Fire in the Heart Mark R. Warren, 2010-09-02 Fire in the Heart uncovers the dynamic processes through which some white Americans become activists for racial justice. The book reports powerful accounts of the development of racial awareness drawn from in-depth interviews with fifty white activists in the fields of community organizing, education, and criminal justice reform. Drawing extensively on the rich interview material, Mark Warren shows how white Americans can develop a commitment to racial justice, not just because it is the right thing to do, but because they embrace the cause as their own. Contrary to much contemporary thinking on racial issues focused on altruism or interests, Warren finds that cognitive and rational processes alone do little to move whites to action. Rather, the motivation to take and sustain action for racial justice is profoundly moral and relational. Warren shows how white activists come to find common cause with people of color when their core values are engaged, as they build relationships with people of color that lead to caring, and when they develop a vision of a racially just future that they understand to benefit everyone--themselves, other whites, and people of color. Warren also considers the complex dynamics and dilemmas white people face in working in multiracial organizations committed to systemic change in America's racial order, and provides a deeper understanding and appreciation of the role that white people can play in efforts to promote racial justice. The first study of its kind, Fire in the Heart brings to light the perspectives of white people who are working day-to-day to build not a post-racial America but the foundations for a truly multiracial America rooted in a caring, human community with equity and justice at its core.

The Arts of Transitional Justice Peter D. Rush, Olivera Simić, 2013-09-25 □□The Art of Transitional Justice examines the relationship between transitional justice and the practices of art associated with it. Art, which includes theater, literature, photography, and film, has been integral to the understanding of the issues faced in situations of transitional justice as well as other issues arising out of conflict and mass atrocity. The chapters in this volume take up this understanding and its demands of transitional justice in situations in several countries: Afghanistan, Serbia, Srebrenica, Rwanda, Northern Ireland, Cambodia, as well as the experiences of resulting diasporic communities. In doing so, it brings to bear the insights from scholars, civil society groups, and art practitioners, as well as interdisciplinary collaborations.

The Reception of John Chrysostom in Early Modern Europe Sam Kennerley, 2022-12-31 The Reception of John Chrysostom in Early Modern Europe explores when, how, why, and by whom one of the most influential Fathers of the Greek Church was translated and read during a particularly significant period in the reception of his works. This was the period between the first Neo-Latin translation of Chrysostom in 1417 and the final volume of Fronton du Duc's Greek-Latin edition in 1624, years in which readers and translators from Renaissance Italy, the Byzantine Empire, and the Basel, Paris, and Rome of a newly-confessionalised Europe found in Chrysostom everything from a guide to Latin oratory, to a model interpreter of Paul. By drawing on evidence that ranges from Greek manuscripts to conciliar acts, this book contextualises the hundreds of translations and editions of Chrysostom that were produced in Europe between 1417 and 1624, while demonstrating the lasting impact of these works on scholarship about this Church Father today.

Living the Mystery Mark Patrick Hederman, 2019-07-17 Life is a mystery quite beyond the comprehension of our normal ways of understanding. Having lived as a Benedictine monk for over fifty years, Mark Patrick Hederman has learned how to engage with mystery. Here, he explains how to bring a new sense of the sacred into your life. Despite clamorous reports to the contrary, he argues that religion is alive and well in our world. Those who say that secularization has taken over are imposing their own 'dogmas' on an unsuspecting and gullible public. In this fascinating book he contends that most of us are religious and can't help it: being human means being 'religious', otherwise we would die of despair. The idea that science and religion are opposing forces is false, but he maintains that the arts are the only way we can convey the sacred to today's world. A mytho-poetic language could provide a 'middle voice, ' a 'third language' that bridges that gap between science and religion in our society

Mistrial Mark Geragos, Pat Harris, Patrick Harris, 2013-10 A searing manifesto on the ills of the criminal justice system from two of America's most prominent defense attorneys.

The Advent of Peace Mary Grey, 2011-09-22 A major theme in the Gospels is 'peace'; indeed Jesus proclaimed: 'Peace I leave with you; my peace I give to you'. Yet when we look at the world, peace can seem an elusive dream.

Mary Grey looks at how the Advent story encourages forgiveness and reconciliation, both essential for peace, and how the Gospels can be key tools to help Christians work towards peace. She ties the Advent story in with current situations in the UK and in the Middle East and the book has both a personal and a global outlook. The book will make ideal reading for Advent and Christmas, either on your own or in a group. It is sure to challenge you to ask 'how can I help to make peace a reality for all God's children?'
