Supporting Behavior for School Success Kathleen Lynne Lane, Holly Mariah Menzies, Robin Parks Ennis, Wendy Peia Oakes, 2015-06-23 Designed for busy teachers and other school-based professionals, this book presents step-by-step guidelines for implementing seven highly effective strategies to improve classroom management and instructional delivery. These key low-intensity strategies are grounded in the principles of positive behavior intervention and support (PBIS), and are easy to integrate into routine teaching practice. Chapters discuss exactly how to use each strategy to decrease disruptive behavior and enhance student engagement and achievement. Checklists for success are provided, together with concise reviews of the evidence base and ways to measure outcomes. Illustrative case examples span the full K-12 grade range. Reproducible intervention tools can be downloaded and printed in a convenient 8 1/2 x 11 size. See also *Managing Challenging Behaviors in Schools*, by Kathleen Lynn Lane et al., which shows how these key strategies fit into a broader framework of prevention and intervention.

Golden Justin Zorn, Leigh Marz, 2022-05-17 Silence isn't just the absence of noise. It's a presence that brings us energy, clarity, and deeper connection. Justin Zorn and Leigh Marz take us on an unlikely journey—from the West Wing

of the White House to San Quentin's death row; from Ivy League brain research laboratories to underground psychedelic circles; from the temperate rainforests of Olympic National Park to the main stage at a heavy metal festival—to explore the meaning of silence and the art of finding it in any situation. Golden reveals how to go beyond the ordinary rules and tools of mindfulness. It's a field guide for navigating the noise of the modern world—not just the noise in our ears but also on our screens and in our heads. Drawing on lessons from neuroscience, business, spirituality, politics, and the arts, Marz and Zorn explore why auditory, informational, and internal silence is essential for physical health, mental clarity, ecological sustainability, and vibrant community. With vital lessons for individuals, families, workplaces, and whole societies, Golden is an engaging and unexpected rethinking of the meaning of quiet. Marz and Zorn make the bold and convincing argument that we can repair our world by reclaiming the presence of silence in our lives.

Smallholders and family farms in Armenia Food and Agriculture Organization of the United Nations ,2020-09-01 The background for conducting country studies on the challenges, needs and constraints of smallholders and family farms in seven countries has been a wish to further strengthen the Regional Initiative and develop the initiative towards a stronger programmatic approach at both the regional and country levels. To provide support to smallholders and family farms, there has been a need to develop a better understanding and knowledge platform of the main challenges, needs and constraints of smallholders and family farms in the specific country context. Even though many of the challenges are the same throughout the region, there are still significant variations among the countries; it is important to recognize and understand these variations when designing support to smallholders and family farms in each specific country. It has been the objectives of the country studies first to analyze the development trend and current state of smallholders and family farms in the specific country, second to study the current political priorities and policies affecting smallholders and family farms, and finally, based on the conclusions made, to provide recommendations, mainly at the policy level, on how to further support the development of commercial family farms and at the same time

ensure in general inclusive growth, improved rural livelihood for women and men and the reduction of rural poverty for all. It is hoped that each country study will not only be relevant for FAO but also for governments, donors and other international organizations when formulating policy and preparing programmes.
