Maxim-Ize Your Life Frank A. Clem,2003-09 There are times in our lives that we feel imprisoned. This book is a guide to help the people of God overcome life's adversities, life's prisons. See, I was losing my home, my husband was incarcerated, my children were living in other parts of the country, and the dog and I were home alone. Poor little me! You know we love pity parties. Often we stay in our prisons, that is, prisons of self-pity, fear, anger, jealousy, abuse, etc., because we have an improper focus. We place value on the wrong things and people. When we get to these points in our lives, we should follow the blueprint in Psalms 91 to find solace in our times of despair.

*Come West and See: Stories* Maxim Loskutoff,2018-05-08 An NPR Best Book of 2018 Devastating...Grows increasingly bizarre and haunting until it’s left an indelible mark. —Janet Maslin, New York Times In an isolated region of Idaho, Montana, and eastern Oregon, an armed occupation of a wildlife refuge escalates into civil war. Against this backdrop, Maxim Loskutoff shatters the myths of the West: a lonesome trapper falls in love with a bear; a newly married woman hatches a plot to murder a tree; and an unemployed millworker joins a militia after returning home. Written with “blade-sharp prose” (Electric Literature), the twelve stories in this debut collection expose the simmering rage and resentments of small-town America “with extraordinary eloquence and compassion” (National Book Review).

The Imperial Network in Ancient China Maxim Korolkov,2021-11-18 This book examines the emergence of imperial state in East Asia during the period ca. 400 BCE–200 CE as a network-based process, showing how the geography of early interregional contacts south of the Yangzi River informed the directions of Sinitic state expansion. Drawing from an extensive collection of sources including transmitted textual records, archaeological evidence, excavated legal manuscripts, and archival documents from Liye, this book demonstrates the breadth of human and material resources available to the empire builders of an early imperial network throughout southern East Asia – from institutions and infrastructures, to the relationships that facilitated circulation. This network is shown to have been essential to the consolidation of Sinitic imperial rule in the sub-tropical zone south of the Yangzi against formidable environmental, epidemiological, and logistical odds. This is also the first study to explore how the interplay between an imperial network and alternative frameworks of long-distance interaction in ancient East Asia shaped the political-economic trajectory of the Sinitic world and its involvement in Eurasian globalization. Contributing to debates around imperial state formation, the applicability of world-system models and the comparative study of empires, The Imperial Network in Ancient China will be of significant interest to students and scholars of East Asian studies, archaeology and history.
