**Strangers From The Sky** Margaret Wander Bonanno,2006-08-01 The planets Earth and Vulcan experience a mysterious first contact in this fascinating Star Trek novel featuring the crew of the U.S.S. Enterprise. Years before the formal first contact between Earth and another planet's inhabitants, a Vulcan space vessel crash landed in the South Pacific, forcing humanity to decide whether to offer the hand of friendship, or the fist of war. Complicating matters is a second visitation: a group of people from two hundred years in the future, who serve on a starship called Enterprise. Discover the astonishing truth about this heretofore unknown first contact and the nightmares that plague Admiral James T. Kirk. Dreams of his dead comrades, of his earliest days aboard the U.S.S. Enterprise, and of a forgotten past in which he somehow changed the course of history and destroyed the Federation before it began.

Prophecy in the New Millennium Dr Suzanne Newcombe,Ms Sarah Harvey,2013-05-28 Secular and spiritual prophets of doom abound in the information-rich twenty-first century - as they have for millennia. But there has yet to be worldwide floods, meteor impact, global computer failure, obvious alien contact, or direct intervention from God to end the world as we know it. Considering the frequency with which prophecy apparently fails, why do prophecies continue to be made, and what social functions do they serve? This volume gives a concise, but comprehensive, overview of the rich diversity of prophecy, its role in major world religions as well as in new religions and alternative spiritualities, its social dynamics and its impact on individuals' lives. Academic analyses are complimented with contextualized primary source testimonies of those who live and have lived within a prophetic framework. The book argues that the key to understanding the more dramatic, apocalyptic and millenarian aspects of prophecy is in appreciating prophecy's more mundane manifestations and its role in providing meaning and motivation in everyday life.

**The House with a Thousand Stories** Aruni Kashyap, 2019-11-20 It is 2002 and young Pablo, a city boy who has mostly lived a sheltered and privileged life in Guwahati, is visiting his ancestral village for his aunt's wedding. This is his second time in Mayong, in rural Assam, since 1998, when he had come for a few days to attend his father's best friend's funeral. As the wedding preparations gather pace, Pablo is amused as well as disturbed by squabbling aunts, dying grandmothers, cousins planning to elope for love and hysterical gossips. And on this heady theatre of tradition and modernity hovers the sinister shadow of insurgency and the army's brutal measures to quell militancy.

*Physical-Chemical Treatment of Water and Wastewater* A. P. Sincero, G. A. Sincero, 2002-07-31 The books currently available on this subject contain some elements of physical-chemical treatment of water and wastewater but fall short of giving comprehensive and authoritative coverage. They contain some equations that are not substantiated, offering empirical data based on assumptions that are therefore difficult to comprehend. This text brings together the information previously scattered in several books and adds the knowledge from the author's lectures on wastewater engineering. *Physical-Chemical Treatment of Water and Wastewater* is not only descriptive but is also analytical in nature. The work covers the physical unit operations and unit processes utilized in the treatment of water and wastewater. Its organization is designed to match the major processes and its approach is mathematical. The authors stress the description and derivation of processes and process parameters in mathematical terms, which can then be generalized into diverse empirical situations. Each chapter includes design equations, definitions of symbols, a glossary of terms, and worked examples. One author is an environmental engineer and a professor for over 12 years and the other has been in the practice of environmental engineering for more than 20 years. They offer a sound analytical mathematical foundation and description of processes. *Physical-Chemical Treatment of Water and Wastewater* fills a niche as the only dedicated textbook in the area of physical and chemical methods, providing an analytical approach applicable to a range of empirical situations

**On the Art of the N\_ Drama** Zeami,1984-02-21 This annotated translation is the first systematic rendering into any Western language of the nine major treatises on the art of the Japanese No theater by Zeami Motokivo (1363-1443). Zeami, who transformed the No from a country entertainment into a vehicle for profound theatrical and philosophical experience, was a brilliant actor himself, and his treatises touch on every aspect of the theater of his time. His theories, mixing philosophical and practical insights, often seem strikingly contemporary. Since their discovery early in this century. these secret treatises have been considered among the most valuable and representative documents in the history of Japanese aesthetics. They discuss subjects from the art of the playwright to the reciprocal nature of the relationship between performer and audience.

**Preaching and Worship** Thomas H Troeger,2003-08-01 The Preaching and Its Partners series, edited by Paul Scott Wilson, explores the interaction of preaching and other theological disciplines in a way that will help preachers and students of preaching to fully integrate the sermon into the life of the church and the range of Christian scholarship. It is not enough to say that preaching must be relevant to the culture or that worship should reflect culturally relevant forms. We must find the ways that the preaching and worship of the church can transform and correct the culture. At the same

time, we must be sensitive to the ways that the culture can make the gospel message and the practice of preaching and worship more relevant than ever. At times, culture needs to correct the ways that preaching and worship occur, to make them more faithful to the communication of God's message in this day and age. Troeger examines how culture means an involvement of all the senses. Preaching the word is more than just saying words. It is all the sights, sounds, and movements that reach the worshipers and how those sights and sounds and movements are perceived. On the basis of a fully embodied theology of worship and preaching, Troeger explores how worship and preaching involve our whole bodies and the nuances of contemporary culture to create meaning for ourselves.

The Long Shadow of Informality Franziska Ohnsorge, Shu Yu, 2022-02-09 A large percentage of workers and firms operate in the informal economy, outside the line of sight of governments in emerging market and developing economies. This may hold back the recovery in these economies from the deep recessions caused by the COVID-19 pandemic--unless governments adopt a broad set of policies to address the challenges of widespread informality. This study is the first comprehensive analysis of the extent of informality and its implications for a durable economic recovery and for long-term development. It finds that pervasive informality is associated with significantly weaker economic outcomes--including lower government resources to combat recessions, lower per capita incomes, greater poverty, less financial development, and weaker investment and productivity.

Countering Terrorism in East Africa Lauren Ploch, 2011-03 The U.S. government has implemented a range of programs to counter violent extremist threats in East Africa in response to Al Qaeda's bombing of the U.S. embassies in Tanzania and Kenya in 1998 and subsequent transnational terrorist activity in the region. These programs include regional and bilateral efforts, both military and civilian. The programs seek to build regional intelligence, military, law enforcement, and judicial capacities; strengthen aviation, port, and border security; stem the flow of terrorist financing; and counter the spread of extremist ideologies. Contents of this report: Overview; The Transnational Terrorist Threat in East Africa; The U.S. Response; Regional Programs; Bilateral Programs. Map and tables. A print on demand report.
