No Domain Mark Eglinton, 2021-12-28 “John McAfee is an American original—bold, brilliant, unpredictable. Characters like him came from a different era—not the woke, soy boy, non-confrontational culture of modern high tech. You meet McAfee head on in No Domain—in his raw energy and spit-in-your-eye cussedness. Buy this book, read this book, and understand—could anything, even John McAfee, kill John McAfee?” —Stephen K. Bannon, White House Chief Strategist, Host: War Room Delete everything you think you know about tech pioneer John McAfee, whose antivirus software operates on millions of computers around the world. Uninstall any impressions you have of the man depicted in the news, the man in disguise and on the run in Central America, even the man who reinvented himself as the Libertarian Party’s candidate in the 2016 presidential election. Move these images to your brain’s trash file. The real John McAfee is far more complex. Drawn from hours of conversations between Mark Eglinton and John McAfee in 2019—while he was hiding in an undisclosed location—No Domain: The John McAfee Tapes provides startling insight into the extraordinary life of one of America’s genuine renegades. McAfee shares his life story like it’s his last will and testament, providing revelatory details on the abusive father who shot himself when John was a young boy; the life-changing LSD overdose in St Louis, during which he was nearly convinced by voices in his head to try to kill his first wife and daughter; the unexpected government clearance that led to him working on CIA dark programs; the combined affinity for mathematics and hallucinogens that informed the hedonistic nature of his software company in Silicon

Valley; the attempt to find a quiet life in Belize only to become a pariah in the eyes of the local militia, from whom he'd later flee, having been framed for the murder of his neighbor; and the subsequent years on the run in the US, evading a cast of pursuers, including the Sinaloa Cartel, while burying bags of money and valuables in marked locations around the Southwest, before fleeing the country on his yacht. John McAfee has lived a life that defies description. This larger-than-life biography documents it all.

No Domain Mark Eglinton,2021-10-26 An exhilarating and uncensored account of the maverick tech titan's wild life, a breakneck journey from Silicon Valley to prison in Barcelona. To Make a Difference Scott Walker, 2014 Over the span of the last three centuries, the ancestors of James T. McAfee, Jr., relentlessly sought for a life that could make a difference. Toward the middle of the seventeenth century, the McAfees left conflict-torn Scotland, and migrated to Ireland. Once in Ireland, extreme hunger and poverty gave them urgent reason to risk voyage across the violent North Atlantic to the New World. Undeterred, they trekked from Delaware to Virginia, pioneered west into the unknown bluegrass of Kentucky alongside Daniel Boone, and finally, at the turn of the twentieth century, this weary clan settled next to the Mississippi River in the rich, alluvial soil of Western Tennessee. A propitious moment had arrived. Success requires the relentless yearning and courage of countless generations for a family to reach a culminating moment of great contribution and distinction. With the birth of James T. McAfee, Jr., in 1939, such fulfillment coalesced. Over the span of the next six decades, Jim McAfee emerges as a significant leader within the

healthcare industry, as well as a generous and visionary contributor to higher education. Drawing on family memoirs and a cache of personal interviews, Scott Walker recounts the career of Jim McAfee, and the impact of his life on Belmont University, Mercer University, and Union University.
