David Sines, Sharon Aldridge-Bent, Agnes Fanning, Penny Farrelly, Kate Potter, Jane Wright

ECG Interpretation for Everyone Fred M. Kusumoto,Pam Bernath,2012-02-13 This is a book for any care provider - from advanced students and nurses to residents and even specialists - who needs to master the interpretation of ECGs, especially while on the spot at the point of care. This easy-to-use, visual guide takes a novel approach, foregrounding the visual clues or keys that readers can learn to recognize in ECGs and thus make rapid decisions about next steps at the point of care. The comparatively minimal text focuses on must-know information about the underlying cause of ECG abnormalities. This title is also available as a mobile App from MedHand Mobile Libraries. **Essential Neonatal Medicine, Includes Desktop Edition** Sunil Sinha,Lawrence Miall,Luke Jardine,2012-09-17 Essential Neonatal Medicine combines the depth and breadth of a textbook with the clarity and efficiency of a learning consolidator. Providing a solid reference for trainee doctors, neonatal nurses and midwives, this full colour edition has been extensively updated with a range of new illustrations, clinical tips, cross-references to Wiley title Nursing the Neonate (2010, 9781405149747), and end-of-chapter summaries for quick study or revision. Essential Neonatal Medicine is ideal for all trainee health professionals experiencing neonatology for the first time and looking for a readable and

comprehensive resource to support them. It is now accompanied by the enhanced Wiley Desktop Edition (the interactive digital version of the book featuring downloadable text and images, highlighting and note-taking facilities, book-marking, cross-referencing, in-text searching, and linking to references and glossary terms), and a companion website at [www.essentialneonatalmed.com](http://www.essentialneonatalmed.com) featuring figures from the book to download in PowerPoint, further reading, and self-test questions for each chapter.

**Returning to Work in Anaesthesia** Emma Plunkett, Emily Johnson, Anna Pierson, 2016-10-20 Winner of the First Prize in Anaesthesia at the 2017 British Medical Association Book Awards! With the increasing frequency of breaks from practice, the importance of proper preparation and guidance for doctors returning to work has recently been recognised by the Royal College of Anaesthetists. This is the first dedicated resource to support anaesthetists returning to work after a significant break, and is designed to complement the growing range of regional and national return to work courses by gathering relevant information and advice into one easily accessible reference source. Divided into three parts, specific to different stages in the return to work process, this book offers information and advice about the practicalities of returning to work, 120 clinical scenarios to refresh the reader's knowledge, and useful guidelines and checklists for the first days and weeks back, forming a vital practical resource for anaesthetists in this situation and those supporting them.

*Smart Resources in Ophthalmology* Parul Ichhpujani, Sahil Thakur, 2018-06-06 This book provides information on how to extract the most from mobile applications and easily adapt and integrate them into daily practice. Today mobile applications that can optimize patient flow, help in examinations, perform

anterior/posterior segment imaging, offer differential diagnosis and therapeutic options and even serve as patient drug reminders and counselors are easily available. Most of them have been developed by individuals and as a result lack marketing, even though they are free to download and use. Ophthalmology has always been at the forefront of medicine when it comes to adopting the latest developments — be they lasers, off-label anti-VEGF drugs or biocompatible implants. Mobile phones and tablets have infiltrated our private and professional lives and they are here to stay. As such, this book explores the endless possibilities that mobile computing offers, and introduces the vista of opportunities for providing better care, one download at a time. As part of the series “Current Practices in Ophthalmology” this volume is intended for residents and fellows in-training, as well as general and specialist ophthalmologists.

ABC of Prehospital Emergency Medicine Tim Nutbeam, Matthew Boylan, Caroline Leech, Clare Bosanko, 2023-05-15 In the newly revised second edition of ABC of Prehospital Emergency Medicine, a team of experienced prehospital practitioners deliver a comprehensive up-to-date guide to the rapidly evolving field of prehospital emergency medicine.
