What Makes a Bully? Jacqueline Yvonne Smart, Ed.D., 2016-09-09 Back Page I cry every day before and after school because I have been a victim of bullying for most of my life. I had the misconception that once I reached middle school that I would be free from being [a] victim. Wow! Was I wrong [!] I am now a 7th grader and the torture continues. I suffered in silence until I met Ms. Smart; I feel some level of comfort because she let us know that she does not tolerate bullying in her classroom. Like many others I tried to commit suicide by jumping out of a window of a three-story building. I am also a cutter. I want to live but how? –Seventh-grade student Unfortunately, stories like that of this middle school student are all too common. The social pressures of bullying can lead to intolerable unpleasantness for some students. Bullying in schools is a growing concern in the United States. Bullying causes many problems, not only for the victim, but also for the bully. Students desire a safe haven at home and school; however, problems with bullies lead to insecurity in the victim and make home and school feel more like a prison than the safe haven they are supposed to be. Bullying via the Internet or cyberbullying is steadily increasing. A bully can harass someone via text, email or hurtful comments on a social network site. This has led to a whole new breed of bullying. A bully no longer has to be face to face. He/she can now say harmful things about a person through the Internet for others to read and comment. No matter how it is looked at, bullying is wrong. It's never okay. It's never cool. It never makes one person look better than another because they are bullying someone. This book offer strategies as to what to do if one should find themselves as a victim of bullying behavior as well as if you happen to be the bully. Also covered are tips for parents, teachers and community members.

Cutting School Noliwe Rooks, 2020-03-03 2018 Zora Neale Hurston/Richard Wright Legacy Award (Nonfiction) Finalist A timely indictment of the corporate takeover of education and the privatization—and profitability—of separate and unequal schools, published at a critical time in the dismantling of public education in America An astounding look at America's segregated school system, weaving together historical dynamics of race, class, and growing inequality into one concise and commanding story. *Cutting School* puts our schools at the center of the fight for a new commons. —Naomi Klein, author of *No Is Not Enough* and *This Changes Everything* Public schools are among America's greatest achievements in modern history, yet from the earliest days of tax-supported education—today a sector with an estimated budget of over half a billion dollars—there have been intractable tensions tied to race and poverty. Now, in an era characterized by levels of school segregation the country has not seen since the mid-twentieth century, cultural critic and American studies professor Noliwe Rooks provides a trenchant analysis of our separate and unequal schools and argues that profiting from our nation's failure to provide a high-quality education to all children has become a very big business. *Cutting School* deftly traces the financing of segregated education in America, from reconstruction through *Brown v. Board of Education* up to the current controversies around school choice, teacher quality, the school-to-prison pipeline, and more, to elucidate the course we are on today: the wholesale privatization of our schools. Rooks's incisive critique breaks down the fraught landscape of segrenomics, showing how experimental solutions to the so-called achievement gaps—including charters, vouchers, and cyber schools—rely on, profit from, and ultimately exacerbate disturbingly high levels of racial and economic segregation under the guise of providing equal opportunity. Rooks chronicles the making and unmaking of public education and the disastrous impact of funneling public dollars to private for-profit and nonprofit operations. As the infrastructure crumbles, a number of major U.S. cities are poised to permanently dismantle their public school systems—the very foundation of our multicultural democracy. Yet Rooks finds hope and promise in the inspired individuals and powerful movements fighting to save urban schools. A comprehensive, compelling account of what's

truly at stake in the relentless push to deregulate and privatize, Cutting School is a cri de coeur for all of us to resist educational apartheid in America.
