Michal's Moral Dilemma Jonathan Y. Rowe, 2011-06-21 Michal's Moral Dilemma proposes that attention should be paid to the moral goods that feature in the text, before arguing that the family, a central feature of Old Testament morality, should be understood as a set of practices rather than an institution. Jonathan Rowe discusses the use of models of social action to comprehend the social world of the Bible, and suggests a modified version of Bakhtin's theory of heteroglossic voices can help readers appreciate how authors present a moral vision by approving some characters' actions whilst undermining others. The discussion of Michal's moral dilemma adduces anthropological theories and ethnographic data concerning violence, lying, and the relationship between fathers and daughters. Given that the conflicts of moral goods are resolved by characters choosing to act in a certain way, Rowe enquires after the author's assessment of each character's moral choices, arguing that Michal's loyalty to David and deception of Saul was counter-cultural. By approving of her choice the author affirms the importance of loyalty to the Davidic dynasty.

Competition Policy for Small Market Economies Michal S. GAL, Michal S Gal, 2009-06-30 Michal Gal's thorough analysis shows the effects of market size on competition policy, ranging from rules of thumb to more general policy prescriptions, such as goals and remedial tools. Competition policy in small economies is becoming increasingly important, since the number of small jurisdictions adopting such policy is rapidly growing. Gal's focus extends beyond domestic competition policy to the evaluation of the current trend toward the worldwide harmonization of policies.

The Comfort Crisis Michael Easter, 2021-05-11 "If you've been looking for something different to level up your health, fitness, and personal growth, this is it."—Melissa Urban, Whole30 CEO and New York Times bestselling author of *The Book of Boundaries* "Michael Easter's genius is that he puts data around the edges of what we intuitively believe. His work has inspired many to change their lives for the better."—Dr. Peter Attia, #1 New York Times bestselling author of *Outlive* Discover the evolutionary mind and body benefits of living at the edges of your comfort zone and reconnecting with the wild—from the author of *Scarcity Brain*, coming in September! In many ways, we're more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the leading cause of many our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter's journey to understand our evolutionary need to be challenged takes him to meet the NBA's top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where an Oxford economist and Buddhist leader are showing the world what death can teach us about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity while taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day hunting expedition to experience the

rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that will dramatically improve our health and happiness, and perhaps even help us understand what it means to be human. The Comfort Crisis is a bold call to break out of your comfort zone and explore the wild within yourself.

Conceiving Agency Michal S. Raucher,2020-09-01 *Conceiving Agency: Reproductive Authority among Haredi Women* explores the ways Haredi Jewish women make decisions about their reproductive lives. Although they must contend with interference from doctors, rabbis, and the Israeli government, Haredi women find space for—and insist on—autonomy from them when they make decisions regarding the use of contraceptives, prenatal testing, fetal ultrasounds, and other reproductive practices. Drawing on their experiences of pregnancy, knowledge of cultural norms of reproduction, and theological beliefs, Raucher shows that Haredi women assert that they are in the best position to make decisions about reproduction. *Conceiving Agency* puts forward a new view of Haredi women acting in ways that challenge male authority and the structural hierarchies of their conservative religious tradition. Raucher asserts that Haredi women's reproductive agency is a demonstration of women's commitment to Haredi life and culture as well as an indication of how they define religious ethics.

Telling Queen Michal's Story David J. A. Clines,Tamara Cohn Eskenazi,1991-01-01 This book, an anthology of previously published writing about Michal together with some new and original essays, is something of an experiment. Its purpose is to provide readers with raw materials for developing their own reading of the Michal story. It does not offer a unified portrait of this biblical character, but rather invites readers to form their own assessment interactively with these readings of the Michal story. At the same time, this book presents some systematic guidance for coping with these divergent interpretations of the complex and tantalizing figure of Michal.
