*Wall Street Women* Melissa S. Fisher,2012-06-19 Wall Street Women tells the story of the first generation of women to establish themselves as professionals on Wall Street. Since these women, who began their careers in the 1960s, faced blatant discrimination and barriers to advancement, they created formal and informal associations to bolster one another's careers. In this important historical ethnography, Melissa S. Fisher draws on fieldwork, archival research, and extensive interviews with a very successful cohort of first-generation Wall Street women. She describes their professional and political associations, most notably the Financial Women's Association of New York City and the Women's Campaign Fund, a bipartisan group formed to promote the election of pro-choice women. Fisher charts the evolution of the women's careers, the growth of their political and economic clout, changes in their perspectives and the cultural climate on Wall Street, and their experiences of the 2008 financial collapse. While most of the pioneering subjects of Wall Street Women did not participate in the women's movement as it was happening in the 1960s and 1970s, Fisher argues that they did produce a market feminism which aligned liberal feminist ideals about meritocracy and gender equity with the logic of the market.

Peak Japan Brad Glosserman,2019-04-01 The post-Cold War era has been difficult for Japan. A country once heralded for evolving a superior form of capitalism and seemingly ready to surpass the United States as the world's largest economy lost its way in the early 1990s. The bursting of the bubble in 1991 ushered in a period of political and economic uncertainty that has lasted for over two decades. There were hopes that the triple catastrophe of March 11, 2011—a massive earthquake, tsunami, and accident at the Fukushima Daiichi nuclear power plant—would break Japan out of its torpor and spur the country to embrace change that would restart the growth and optimism of the go-go years. But several years later, Japan is still waiting for needed transformation, and Brad Glosserman concludes that the fact that even disaster has not spurred radical enough reform reveals something about Japan's political system and Japanese society. Glosserman explains why Japan has not and will not change, concluding that Japanese horizons are shrinking and that the Japanese public has given up the bold ambitions of previous generations and its current leadership. This is a critical insight into contemporary Japan and one that should shape our thinking about this vital country.

Television Style Jeremy G. Butler,2013-05-13 Style matters. Television relies on style—setting, lighting, videography, editing, and so on—to set moods, hail viewers, construct meanings, build narratives, sell products, and shape information. Yet, to date, style has been the most understudied aspect of the medium. In this book, Jeremy G. Butler examines the meanings behind television's stylistic conventions. *Television Style* dissects how style signifies and what significance it has had in specific television contexts. Using hundreds of frame captures from television programs, *Television Style* dares to look closely at television. *Miami Vice*, *ER*, soap operas, sitcoms, and commercials, among other prototypical television texts, are deconstructed in an attempt to understand how style functions in television. *Television Style* also assays the state of style during an era of media convergence and the ostensible demise of network television. This book is a much needed introduction to television

style, and essential reading at a moment when the medium is undergoing radical transformation, perhaps even a stylistic renaissance. Discover additional examples and resources on the companion website: [www.tvstylebook.com](http://www.tvstylebook.com).

**Emerging Issues in Global Marketing** James Agarwal, Terry Wu, 2018-03-28 This book examines emerging theories, frameworks, and applications of global marketing for the 21st century. It highlights how global marketing is changing in a globalized and digital economy that is fast increasing in complexity and uncertainty. The traditional approach to global marketing is no longer sufficient to address the emerging issues in global markets. Global companies need to challenge traditional assumptions in global marketing in an era of shifting political, cultural, economic, and technological changes. They need to take a fresh look at the contemporary threats and opportunities in markets, institutions, and technology and how they affect entry and expansion strategies through careful re-calibration of the marketing-mix. This book offers new insights for global marketing that addresses these issues. This book should be an ideal resource to both academic scholars and reflective practitioners globally such as CEOs and chief marketing officers as well as government officials and policy makers interested in formulating strategies/policies for global marketing activities in the face of a globalized and digitized economy. This well-crafted research volume is an excellent addition to the growing literature on new trends in international marketing. The authors present the latest insight on the impact of phenomena such as cross-border e-commerce and digital markets, and they discuss new tools for political risk assessment, international branding and more broadly the reconfiguring of marketing-mix strategies – A powerful reminder that the new global market remains a rugged landscape. – Alain Verbeke, McCaig Research Chair in Management and Editor-in-Chief Journal of International Business Studies, University of Calgary, Canada. Emerging trends in institutions, markets, and societies, along with new technological advances, are redefining the scope and strategy in global marketing. Professors Agarwal and Wu have assembled a remarkable collection of cutting-edge topics and issues that capture the shifting paradigm and contemporary developments in the global marketing field. This is an informative and timely resource that makes a valuable contribution, useful for both scholars and business practitioners of global marketing. – Constantine S. Katsikeas, Arnold Ziff Endowed Research Chair in Marketing & International Management, Editor-in-Chief Journal of International Marketing, University of Leeds, UK. This book presents new and cutting-edge thinking at a time when the traditional views of international marketing need to be scrapped. Convergence forces are creating new opportunities as well as threats on a daily basis, and marketing practitioners as well as scholars must be forewarned as well as forearmed on how to deal with these changes. The real growth is coming from the emerging nations, and the theories that provided sufficient insights ten years ago have been completely outmoded by the ever-accelerating rate of innovation and technological change as well as the pressures to address the needs of all of the firm's relevant stakeholders. The strategic insights provided here are absolutely invaluable. Don't miss an opportunity to read this book!! – John B. Ford, Professor of Marketing & International Business, Eminent Scholar & Haislip-Rohrer Fellow, Editor-in-Chief, Journal of Advertising Research, Old Dominion University, USA.
