*How to Become a Top Consultant* Ron Tepper,1985-09-25 Ten of today's top consultants explain why and how they left the 9-to-5 grind behind, built new careers, and became the best in their field! Become a Top Consultant How the Experts Do it What does it take to build a successful consulting practice? Ron Tepper asked ten consultants in a diverse range of fields and found the formula to be a winning blend of skills, specialized knowledge, strategy, and technique. Now, Tepper shows you how to build a consulting practice of your own simply by following the examples of these ten experts in engineering, data processing, government, accounting, management, sales, real estate, and law. Become A Top Consultant takes you step by step through writing and submitting superior proposals, marketing your consulting services, setting fees, billing, getting help, even moonlighting. You'll learn the basic concepts, practices, specialized skills and consulting requirements for each different field. Best of all, you'll identify easily with the consultants--you'll meet an accountant and a sales trainer, a civil engineer, a football player-turned-headhunter/personnel accountant, an investment advisor who never finished college, and a former real estate salesman who's now a phenomenally successful attorney. They're all top consultants, from all walks of life--the best in the business. And they all started out where you are today. Become A Top Consultant--it's like having a live panel of consulting experts at your service, eager to help you launch your consulting career.

*Millard Fillmore* Heidi M.D. Elston,2009-01-01 The United States president preserves, protects, and defends the U.S. Constitution. Each president's term influences events in America and around the world for years to come. This biography introduces young readers to the life of Millard Fillmore, beginning with his childhood in Cayuga County, New York. Information about Fillmore's early career as a lawyer is discussed. In addition, his family and personal life, as well as his retirement years in New York as a representative of the Buffalo Board of Trade, the first chancellor of the University of Buffalo, founder and president of the Buffalo Historical Society, and founder of the Buffalo Club is highlighted. Easy-to-read text details Fillmore's political career as a New York legislator, a U.S. congressman, chairman of the House Ways and Means Committee, New York state comptroller, and vice president. Finally, students will explore key events from Whig president Fillmore's administration, including the Compromise of 1850, which included the Fugitive Slave Act. Beautiful graphics showcase the primary source documents and photographs. A timeline, fast facts, and sidebars help put essential information at students' fingertips. In addition, a quick-reference chart provides easy access to facts about every U.S. president. Checkerboard Library is an imprint of ABDO Publishing Company.

**Environmental Statistics with S-PLUS** Steven P. Millard,Nagaraj K. Neerchal,2000-09-21 A clear, comprehensive treatment of the subject, Environmental Statistics with S-PLUS surveys the vast array of statistical methods used to collect and analyze environmental data. The book explains what these methods are, how to use them, and where to find references to them. In addition, it provides insight into what to think about before you collect environmental data, how to collect the data, and how to make sense of it after collection. A unique and powerful feature of the book is its integration with the commercially available software package S-Plus and the add-on modules EnvironmentalStats for S-PLUS, S+SpatialStats, and S-PLUS for ArcView. The book presents data sets to explain statistical methods, and then shows how to implement these methods by providing the commands for and the results from the software. This survey of statistical methods, definitions, and concepts helps you collect and effectively analyze data for environmental pollution problems. Using the S-PLUS software in conjunction with this text will no doubt increase understanding of the methods.

*Becoming a Can-Do Leader* Frank Satterthwaite,Jamie Millard,2016-11-02 Manage without giving up the work you love and discover the leader within. Conventional management thinking says that to manage effectively you must delegate. It implies that managers fall into a dangerous trap when they continue to perform tasks they love from a previous role. And it says that to not “let go” is to give in to a controlling tendency that robs staff of development opportunities. But not everyone agrees. Today’s increasingly knowledge-driven, cost-competitive work world is changing the way management gets done. More and more, people in management roles are becoming can-do leaders who must continue to practice their specialty while managing and developing the skills of others. But this group has had few guidelines to follow—until now. In *Becoming a Can-Do Leader*, executive coaches Frank Satterthwaite and Jamie Millard say it’s time that management thinking catches up with reality. Their extensive experience training and coaching player-managers at all levels has shown that successful managers both delegate and do. Whether you’re trying to survive your first promotion or coaching executives who yearn to keep up with their field, essential guidelines for can-do leadership are inside this book. You’ll find workplace examples that ring true, as well as unique strategies and tools that both help you identify your values and provide insight into your natural leadership style. Don’t let your knowledge and skills decline by stepping completely out of the professional picture. It’s time to get productively and selectively involved in the work, enabling you to manage more effectively and keep up with important advances in your field—all while developing and leading your team to success. Discover how to work strategically with staff while continuing to grow expertise in your profession. That’s can-do leadership.
