ONCE UPON A CRIME P.J. Brackston, 2015-07-15 From New York Times bestselling author P.J. Brackston comes the prequel to Gretel and the Case of the Missing Frog Prints, the new novel in the rollicking series featuring Gretel, all grown up and working as a private investigator in 18th century Bavaria. Gretel (yes, that Gretel) is now 35, very large, still living with her brother Hans, and working as a private investigator. The small, sleepy town of Gesternstadt is shaken to its pretty foundations when the workshop of the local cart maker is burnt to the ground, and a body is discovered in the ashes. It is Gretel who notices that the cadaver is missing a finger. At first she does not see this as significant, as her mind is fully focused on a new case. Not that she wouldn't far rather be investigating an intriguing murder, but her client is willing to pay over the odds, so she must content herself with trying to trace three missing cats. It is not until she is further into her investigations that she realizes the two events are inextricably and dangerously connected, and that the mystery of the missing cats will lead her into perilous situations and frightening company. Very soon Gretel finds herself accused of kidnapping Princess Charlotte, twice locked up in the cells at the Summer Schloss, repelling the advances of an amorous troll, strapped to a rack in Herr Schmerz's torture chamber, and fleeing a murder charge. With dubious help from her brother (whose scant wits are habitually addled by drink), she must prove her innocence, solve the puzzle of the unidentified corpse, and find the stolen cats before they meet a grisly end.

THE MOBILE KING RD King, Mobile Marketing Is Currently The Global Number 1 Way To Advertise Yourself And Your Products! But How The Heck Do You Do It Right To Get More Money, More Buyers, And More Attention? Recent studies by Nielsen mobile indicate 97% of people with a mobile/cellphone will read an SMS (text) message within 15 minutes of receiving it; 84% will respond within 1 hour. Now given the fact that globally 6 billion people are estimated to have access to a mobile phone and 97% of them are reading the texts virtually right away - do you start to build a picture of why this is the most preferred form of marketing today? Look at how many people you can target and with the very low price of a text (with some companies or contracts it's free!) - so you are basically getting a free regular ad campaign.
