Science-fiction Everett Franklin Bleiler, Richard Bleiler, 1998 *Complementing Science-Fiction: The Early Years*, which surveys science-fiction published in book form from its beginnings through 1930, the present volume covers all the science-fiction printed in the genre magazines--*Amazing*, *Astounding*, and *Wonder*, along with offshoots and minor magazines--from 1926 through 1936. This is the first time this historically important literary phenomenon, which stands behind the enormous modern development of science-fiction, has been studied thoroughly and accurately. The heart of the book is a series of descriptions of all 1,835 stories published during this period, plus bibliographic information. Supplementing this are many useful features: detailed histories of each of the magazines, an issue by issue roster of contents, a technical analysis of the art work, brief authors' biographies, poetry and letter indexes, a theme and motif index of approximately 30,000 entries, and general indexes. *Science-Fiction: The Gernsback Years* is not only indispensable for reference librarians, collectors, readers, and scholars interested in science-fiction, it is also of importance to the study of popular culture during the Great Depression in the United States. Most of its data, which are largely based on rare and almost unobtainable sources, are not available elsewhere.

*The Boston Composers Project* Boston Area Music Libraries, 1983 The bibliography lists nearly 5,000

compositions by 200 composers of jazz and art music, indicating where scores or realizations can be purchased, rented, or borrowed, and which Boston area libraries have them in their collections.

**The Art of the Song Recital** Shirlee

Emmons, Stanley Sonntag, 2001-11-15 Since its original publication, the Emmons-Sonntag text has continually stood out as the definitive work on the song recital. The book presents imaginative advice and practical techniques for producing successful recitals and kindling audience excitement. Every aspect of the recital is covered, from building programs and the use of acting skills to the relationship between the singer and the accompanist. Singers of all levels and backgrounds will benefit from the authors vast experience in the performance of song recitals as a singer/accompanist team. The comprehensive repertoire lists, now organized by voice and instrumentation as well as by composer, appeal to both students and professional musicians. Readers will agree that the authors have met their goal of providing extensive, throughgoing, and definitive insights into the attributes that can render the song recital at once a great art and a magnificent entertainment.

A History of Twentieth-Century Music in a Theoretic-Analytical Context Elliott Antokoletz, 2014-03-14 A History of Twentieth-Century Music in a Theoretic-Analytical Context is an integrated account of the genres and concepts of twentieth-century art music, organized topically according to aesthetic, stylistic, technical, and geographic categories, and set within the larger political, social, economic, and

cultural framework. While the organization is topical, it is historical within that framework. Musical issues interwoven with political, cultural, and social conditions have had a significant impact on the course of twentieth-century musical tendencies and styles. The goal of this book is to provide a theoretic-analytical basis that will appeal to those instructors who want to incorporate into student learning an analysis of the musical works that have reflected cultural influences on the major musical phenomena of the twentieth century. Focusing on the wide variety of theoretical issues spawned by twentieth-century music, *A History of Twentieth-Century Music in a Theoretic-Analytical Context* reflects the theoretical/analytical essence of musical structure and design.

**Flute Music by Women Composers** H Alais

Boenke, 1988-10-19 For the flutist wishing to perform music composed by women, this annotated catalog will come as a most welcome addition to the numerous flute bibliographies now available. Boenke has spent four years gleaning all possible sources to come up with several hundred listings of composers from three centuries and 40 different countries. When the information is available, she lists publisher and the OCLC system record number after the routinely listed title and instrumentation. In addition to the alphabetical listing are indexes for instrumentation, title, publisher, and composer. A short list of sources is heavy on LC and NUC catalogs as well as the several standard sources on women in music. This volume could serve as an example for instrument-

specific music bibliographies. For flutists it is priceless. Choice This book, an alphabetical listing of flute music by women composers, provides ready access to flute music that is published or available in manuscript form. Unlike any previous handbook of the flute repertoire, it is devoted entirely to the works of women, the vast majority of whom are not mentioned in the standard catalogs of flute literature. A carefully compiled study, the volume examines the quantity, variety, and scope of women's work in this genre and includes composers from more than forty countries, spanning three centuries. It contains works for solo flute, duets, flute and piano, concertos, woodwind quintets, other chamber ensembles, or any work that employs soloistic use of the flute. It also provides biographical information on the composers, publishers, availability of works, and annotations on the works themselves. All compositions are indexed by title and by instrumentation, and publishers and contemporary composers are listed with current addresses, to facilitate the ordering of music. The first published volume of its kind, this unusual work will draw attention to valuable and unknown repertoire in this genre and provide the opportunity for women's works to be heard more often. It will be useful in all university music libraries and conservatories, and it will be a valuable resource for professional flutists, teachers of flute, and researcher in women's studies.

**Zemlinsky** Antony Beaumont,2000 Following his English edition of Alma Mahler-Werfel's Diaries 1898-1902, Antony Beaumont presents both the first comprehensive biography of the composer and conductor Alexander Zemlinsky (1871-1942) and a

critical assessment of his works. Zemlinsky--all hail to you! wrote the young Alma. All hail to you and your art. When she first met him, Zemlinsky was the most promising Viennese composer of his generation. In 1901, when Alma abruptly ended their passionate love affair in order to marry Gustav Mahler, the crisis served to transform Zemlinsky's talent into mastery. Only long after his death, however, did his music begin to receive its due. Zemlinsky was central to the musical life of Vienna and Central Europe, and this brilliant biography illuminates a social and cultural milieu that disappeared forever with the triumph of Hitler's Reich. Beaumont details the composer's early years as a protégé of Brahms and Mahler, his complex friendship with his brother-in-law Arnold Schoenberg, the influence of his teaching on the boy-prodigy Erich Korngold, his kindly and helpful attitude toward the hypersensitive Anton Webern, and his heartfelt friendship with Alban Berg. Zemlinsky was one of the leading conductors of the interwar period, considered by both Schoenberg and Stravinsky the finest they had ever heard. Beaumont charts Zemlinsky's career from Vienna to Berlin, St. Petersburg, and Prague, providing insight into his Catholic-Sephardic background and investigating his keen interest in esoteric aspects of music, including color symbolism and numerology. The author's analyses of Zemlinsky's major scores are accessible and fully contextualized.
