Anna Dressed in Blood Kendare Blake, 2011-08-30 From Kendare Blake, the #1 New York Times bestselling author of Three Dark Crowns, a beautiful and haunting ghost story Cas Lowood has inherited an unusual vocation: He kills the dead. So did his father before him, until he was gruesomely murdered by a ghost he sought to kill. Now, armed with his father's mysterious and deadly athame, Cas travels the country with his kitchen-witch mother and their spirit-sniffing cat. Together they follow legends and local lore, trying to keep up with the murderous dead—keeping pesky things like the future and friends at bay. When they arrive in a new town in search of a ghost the locals call Anna Dressed in Blood, Cas doesn't expect anything outside of the ordinary: track, hunt, kill. What he finds instead is a girl entangled in curses and rage, a ghost like he's never faced before. She still wears the dress she wore on the day of her brutal murder in 1958: once white, now stained red and dripping with blood. Since her death, Anna has killed any and every person who has dared to step into the deserted Victorian she used to call home. But she, for whatever reason, spares Cas's life. Kendare Blake's Anna Dressed in Blood is a 2011 Kirkus Best Teen Books of the Year title. One of NPR's Top 5 Young Adult Novels of 2011. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Activating the Past Andrew Apter, Lauren Derby, 2009-12-14 Activating the Past explores critical historical events and transformations associated with embodied memories in the Black Atlantic world. The assembled case-studies

disclose hidden historical references to local and regional encounters with Atlantic modernity, focusing on religious festivals that represent political and economic relationships in “fetishized” forms of power and value. Although memories of the slave trade are rarely acknowledged in West Africa and the Americas, they have retreated, so to speak, within ritual associations as restricted, repressed, even secret histories that are activated during public festivals and through different styles of spirit possession. In West Africa, our focus on selected port cities along the coast extends into the hinterlands, where slave raiding occurred but is poorly documented and rarely acknowledged. In the Caribbean, regional contrasts between coastal and hinterland communities relate figures of the jíbaro, the indio and the caboclo to their ritual representations in Santería, Vodou, and Candomblé. Highlighting the spatial association of memories with shrines and the ritual “condensation” of regional geographies, we locate local spirits and domestic terrains within co-extensive Atlantic horizons. The volume brings together leading scholars of the African Diaspora who not only explore these ritual archives for significant echoes of the past, but also illuminate a subaltern historiography embedded within Atlantic cultural systems.

Communities of Belief Robin Briggs, 1989 This book is about attitudes and behavior in early modern France, dealing particularly with the conflicts related to social and intellectual changes, and with the tensions between the elite and the common people. Topics discussed include witchcraft, popular belief and superstition, confession, the family, Church and State, and popular revolt. Briggs combines the methods of social history and of *histoire de mentalités* to produce an in-depth analysis of the changes and tensions which mark this period as one of vital development in all these areas. The book offers a lively critique of some current interpretations of seventeenth-century France, which have been the subject of much recent controversy.
