The Sociology of Childhood and Youth in Canada Xiaobei Chen, Rebecca Raby, Patrizia Albanese, 2017-12-12 The sociology of childhood and youth has sparked international interest in recent years, and yet a reader highlighting Canadian work in this field has been long overdue. Filling this gap in the literature, *The Sociology of Childhood and Youth in Canada* brings together cutting-edge Canadian scholarship in this important and growing discipline. Thought-provoking and timely, this edited collection explores a breadth of essential topics, including research on and with children and youth, the social construction of childhood and youth, intersecting identities, and citizenship, rights, and social engagement. With a focus on social justice, the contributing authors critically examine various sites of inequality in the lives of children and young people, such as gender, sexuality, colonialism, race, class, and disability. Encouraging further development of Canadian scholarship in the sociology of childhood and youth, this unique collection ensures that young people's voices are heard by involving them in the research process. Pedagogical supports—including learning objectives, study questions, suggested research assignments, and a comprehensive glossary—make this volume an invaluable resource for students of childhood and youth studies in Canada.

They Flew Carlos M. N. Eire, 2023-09-26 An award-winning historian's examination of impossible events at the dawn of modernity and of their enduring significance Accounts of seemingly impossible phenomena abounded in the early modern era--tales of levitation, bilocation, and witchcraft--even as skepticism, atheism, and empirical science were starting to supplant religious belief in the paranormal. In this book, Carlos Eire explores how a culture increasingly devoted to scientific thinking grappled with events deemed impossible by its leading intellectuals. Eire observes how levitating saints and flying witches were as essential a component of early modern life as the religious turmoil of the age, and as much a part of history as Newton's scientific discoveries. Relying on an array of firsthand accounts, and focusing on exceptionally impossible cases involving levitation, bilocation, witchcraft, and demonic possession, Eire challenges established assumptions about the redrawing of boundaries between the natural and supernatural that marked the transition to modernity. Using as his case studies stories about St. Teresa of Avila, St. Joseph of Cupertino, the Venerable María de Ágreda, and three disgraced nuns, Eire challenges readers to imagine a world animated by a different understanding of reality and of the supernatural's relationship with the natural world. The questions he explores--such as why and how impossibility is determined by cultural contexts, and whether there is more to reality than meets the eye or can be observed by science--have resonance and lessons for our time.

Neither Led Nor Driven Brian L. Moore, Michele A. Johnson, 2004 An examination of the cultural evolution of the Jamaican people after the explosive uprising at Morant Bay in 1865. For the first time, the specific methods used by British imperial legislators to inculcate order, control and identity in the local society are described and analysed. The authors compellingly and convincingly demonstrate that Great Britain deliberately built a new society in Jamaica founded on principles of Victorian Christian morality and British Imperial ideology. This resulted in a sustained attack on everything that was perceived to be

of African origin and the glorification of Christian piety, Victorian mores, and a Eurocentric idealized family life and social hierarchies. This well-written and meticulously researched book will be invaluable for students of the period and those interested in Jamaican history and/or imperial history

City on a Hilltop Sara Yael Hirschhorn, 2017-05-22 Since Israel's 1967 war, more than 60,000 Jewish-Americans have settled in the occupied territories, transforming politics and sometimes committing shocking acts of terrorism. Yet little is known about why they chose to live at the center of the Israeli-Palestinian conflict. Sara Yael Hirschhorn unsettles stereotypes about these liberal idealists.

The Man Who Could Fly Michael Grosso, 2015-12-14 St. Joseph of Cupertino began having mystical visions at the age of seven, but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind's power over his body—he was able to levitate. Throughout his priesthood St. Joseph became famous for frequent levitations that were observed on hundreds of occasions and by thousands of witnesses, including many skeptics. Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy. Grosso draws upon contemporary explorations into cognition, the relationship between the human mind and body, and the scientifically recorded effects of meditation and other transcendent practices to reveal the implications of St. Joseph's experiences and abilities.

What Do Mormons Really Believe? John Ankerberg, John Weldon, 2002-01-01 Mormons say they are Christians, but are their claims true? Are the differences minimal? Authors Ankerberg and Weldon go beyond the seeming similarities to look candidly at the Mormon teachings that are clearly incompatible with orthodox Christianity, asking questions such as: -- Was God ever a man? -- Were Jesus and Lucifer brothers? -- Is Scripture still being written? -- Are we saved by what we do? -- Are there levels of heavenly glory? In clarifying the meanings of terms Mormons use and their views on the Bible, Ankerberg and Weldon reveal the chasm between Mormonism and traditional Christianity. This clear, well-written guide equips readers to use the truths of God's Word to defend the faith.
