The Great War Letters of Roland Mountfort Roland Mountford,2009 Between 1914 and 1918, Roland Mountfort served in the ranks with the Royal Fusiliers (10th and 25th Battalions) on the Western Front. He was a shrewd and highly literate observer of military life and his letters provide an excellent record of a young man's experiences in the Army during the Great War. This title features his letters.

The Love Story in Shakespearean Comedy Anthony J. Lewis,2021-10-21 In this fascinating study, Anthony J. Lewis argues that it is the hero himself, rejecting a woman he apprehends as a threat, who is love's own worst enemy. Drawing upon classical and Renaissance drama, iconography, and a wide range of traditional and feminist criticism, Lewis demonstrates that in Shakespeare the actions and reactions of hero and heroine are contingent upon social setting—father-son relations, patriarchal restrictions on women, and cultural assumptions about gender-appropriate behavior. This compelling analysis shows how Shakespeare deepened the familiar love stores he inherited from New Comedy and Greek romance. Beginning with a penetrating analysis of the hero's contradictory response to sexual attraction, Lewis's discussion traces the heroine's reaction to abandonment and slander, and the lover's subsequent parallel descents into versions of bastardy and death. In arguing that comedy's happy ending is the product of the gender role reversals brought on by their evolving relationship itself, Lewis shows in meticulous detail how sexual stereotypes influence attitudes and restrict behavior. This perceptive discussion of male response to family and of female response to rejection will appeal to Shakespeare scholars and students, as well as to the theater community. Lewis's persuasive argument, that Shakespeare's heroes and heroines are, from the first, three-dimensional figures far removed from the stock types of Plautus, Terence, and his continental sources, will prove a valuable contribution to the ongoing feminist reappraisal of Shakespeare.

Commentaries on European Contract Laws Nils Jansen,Reinhard Zimmermann,2018-07-12 The book provides rule-by-rule commentaries on European contract law (general contract law, consumer contract law, the law of sale and related services), dealing with its modern manifestations as well as its historical and comparative foundations. After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades, and for an assessment of the current situation. In particular, the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law. The present book adopts a broad perspective and an integrative approach. All relevant reference texts (from the CISG to the Draft Common European Sales Law) are critically examined and compared with each other. As far as the *acquis commun* (ie the traditional private law as laid down in the national codifications) is concerned, the Principles of European Contract Law have been chosen as a point of departure. The rules contained in that document have, however, been complemented with some chapters, sections, and individual provisions drawn from other sources, primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law. In addition, the book ties the discussion concerning the reference

texts back to the pertinent historical and comparative background; and it thus investigates whether, and to what extent, these texts can be taken to be genuinely European in nature, ie to constitute a manifestation of a common core of European contract law. Where this is not the case, the question is asked whether, and for what reasons, they should be seen as points of departure for the further development of European contract law.
