The Organized Songwriter Simon Hawkins,2020-11-06 Time is short. Ridiculously short. As songwriters, there are a million things that try to take us away from our precious time doing what we love doing - the beautiful craft of songwriting. The Organized Songwriter - How to Create Space to Write Your Best Songs offers fresh insights to help you be more productive. Just like a pro.Whether we realize it or not, many songwriters have this problem: Not enough time and space. Do any of these scenarios sound familiar?- You try to sit down to write a cool song but there are a million other things happening around you - family, friends, the dog, and a million other important things that need doing. Somehow you never seem to have the chance to do your best work as a songwriter.- You are an incredibly creative person, awash in a sea of paperwork filled with great songs. But you're drowning. And when you need your best ideas, they are lost.- You want to be a prolific songwriter but, just when you get the inspiration to write, there's not enough time to finish anything.- You have plenty of ideas, but you're lost when it comes to picking the right tools to write like a pro.- You have lots of material to take into a co-write, but when you look for a specific idea or lyric in your hook book you just can't find it. The opportunity to write your best ideas is lost.- You worry that life is moving way too fast for you to make an impact as a songwriter. If any of these describe you, you're in good company! Implementing a digital first sale doctrine: Comparative study of the E.U. and the U.S.A. Girish Agarwal,2015-01-01 Consumption of copyright materials such as, books, music, games, has changed dramatically in the internet age. We no more consume them as tangible goods. Instead we consume them as digital goods, which have characteristics different from tangible goods. The first sale doctrine in copyright law has been applied to tangible copyright goods since it was codified in the United States of America's Copyright Act of 1909. But due to the difference in the method of consumption of copyright goods, it is hard to apply the doctrine to digital ones. The question whether it should be applied to digital goods gained prominence when Redigi, a second hand market place for digital copyright goods, was sued by Capitol Records Inc. for infringing its copyright. Is it appropriate to abrogate the doctrine when it comes to digital goods or whether the doctrine should be applied irrespective of the method of consumption, takes centre stage. There are divergent views to this debate. In the European Union, after the UsedSoft case, the view is generally more favourable towards the application of the doctrine to digital goods, whereas, in the United States of America the view is more restrictive. But what copyright needs is a harmony between the divergent views, more favourably towards the views of the European Union, since, there have been technological advancements that do replicate the transfer of tangible goods in the digital domain. The doctrine of first sale is necessary in copyright law, irrespective of the method of consumption, as it tends to achieve a dual purpose. The first is public benefit. This it achieves by allowing more people to have access to literature and art. The second is economic benefit. It increases the overall economic activity by creating a market for second hand goods. But what should be kept in mind is that digital goods do have characteristics that make them easy to copy and distribute, which increases piracy. But should the answer to the problem lie in abrogating the doctrine for digital goods or in technology itself, there will be a problem. This is because once the doctrine has been abrogated, it will be almost impossible to reintroduce it, if and when technology should change and there rises a need for the doctrine. But if you let the doctrine be as it is and let technology accommodate the doctrine then it is much safer.
