The Blood of Lambs Kamal Saleem, 2009-04-07 The Blood of Lambs reveals the true inside story of the making and mind-set of a Muslim terrorist. Though his ties with terrorism were severed more than twenty years ago, it was not until 9/11, when radical Muslims rained terror on American shores, that Kamal Saleem stepped out of the shadows and revealed his true identity. Today, he is a different kind of warrior. He now stands on the wall and shouts to America, Open your eyes and fight the danger that lives among you. As the terrible fruit of Kamal's early life in jihad screams from today's headlines, he courageously puts his life on the line to defend America, the country he now calls home.

Mobilizing Islam Carrie Rosefsky Wickham, 2002-10-17 *Mobilizing Islam* explores how and why Islamic groups succeeded in galvanizing educated youth into politics under the shadow of Egypt's authoritarian state, offering important and surprising answers to a series of pressing questions. Under what conditions does mobilization by opposition groups become possible in authoritarian settings? Why did Islamist groups have more success attracting recruits and overcoming governmental restraints than their secular rivals? And finally, how can Islamist mobilization

contribute to broader and more enduring forms of political change throughout the Muslim world? Moving beyond the simplistic accounts of Islamic fundamentalism offered by much of the Western media, *Mobilizing Islam* offers a balanced and persuasive explanation of the Islamic movement's dramatic growth in the world's largest Arab state.

Wounded Tiger Peter Osborne,2015-04-09 THE WISDEN BOOK OF THE YEAR and THE CROSS SPORTS BOOK AWARDS CRICKET BOOK OF THE YEAR. 'The most complete, best researched, roses-and-thorns history of cricket in Pakistan' Independent 'As good as it's likely to get' Guardian The nation of Pakistan was born out of the trauma of Partition from India in 1947. Its cricket team evolved in the chaotic aftermath. Initially unrecognised, underfunded and weak, Pakistan's team grew to become a major force in world cricket. Since the early days of the Raj, cricket has been entwined with national identity and Pakistan's successes helped to define its status in the world. Defiant in defence, irresistible in attack, players such as A.H.Kardar, Fazal Mahmood, Wasim Akram and Imran Khan awed their contemporaries and inspired their successors. The story of Pakistan cricket is filled with triumph and tragedy. In recent years, it has been threatened by the same problems affecting Pakistan itself: fallout from the 'war on terror', sectarian violence, corruption, crises in health and education, and a shortage of effective leaders. For twenty years, Pakistan cricket has been stained by the scandalous behaviour of the players involved in match-fixing. After 2009, the fear of violence drove Pakistan's international cricket into exile. But Peter Osborne's narrative is also full of hope. For all its troubles, cricket gives all Pakistanis a chance to excel and express themselves, a sense of identity and a cause for pride in their country. Packed with first-hand recollections, and digging deep into political, social and cultural history, *Wounded Tiger* is a major study of sport and nationhood.

Understanding the Public Sector in Egyptian Cinema: A State Venture Tamara Chahine Maatouk,2019-11-04 In 1957 the public sector in Egyptian cinema was established, followed shortly by the emergence of public-sector film production in 1960, only to end eleven years later, in 1971. Assailed with negativity since its demise, if not earlier, this state adventure in film production was dismissed as a complete failure, financially, administratively and, most importantly, artistically. Although some scholars have sporadically commented on the role played by this sector, it has not been the object of serious academic research aimed at providing a balanced, nuanced general assessment of its overall impact. This issue of *Cairo Papers* hopes to address this gap in the literature on Egyptian cinema. After discussion of the role played by the public sector in trying to alleviate the financial crisis that threatened the film industry, this study investigates whether there was a real change in the general perception of the cinema, and the government's attitude toward it, following the June 1967 Arab-Israeli war.

Realizing Islam Zachary Valentine Wright,2021-07-01 The Tijaniyya is the largest Sufi order in West and North Africa. In this unprecedented analysis of the Tijaniyya's origins and development in the late eighteenth century, Zachary Valentine Wright situates the order within the broader intellectual history of Islam in the early modern period. Introducing the group's founder, Ahmad al-Tijani (1737-1815), Wright focuses on the wider network in which al-Tijani traveled, revealing it to be a veritable global Islamic revival whose scholars commanded large followings, shared key ideas, and produced literature read widely throughout the Muslim world. They were linked through chains of knowledge transmission from which emerged vibrant discourses of renewal in the face of perceived social and political corruption. Wright argues that this constellation of remarkable Muslim

intellectuals, despite the uncertainty of the age, promoted personal verification in religious learning. With distinctive concern for the notions of human actualization and a universal human condition, the Tijaniyya emphasized the importance of the realization of Muslim identity. Since its beginnings in North Africa in the eighteenth century, the Tijaniyya has quietly expanded its influence beyond Africa, with significant populations in the Middle East, Southeast Asia, and North America. We are proud to offer this book in our usual print and ebook formats, plus as an open-access edition available through the Sustainable History Monograph Project.

Why They Died Peter Bouckaert, Human Rights Watch (Organization), 2007 The conflict between Israel and Hezbollah in July 2006 had a devastating effect on civilians in Lebanon. Israeli attacks killed at least 1,109 Lebanese, the vast majority of them civilians. The strikes also injured 4,399 people and displaced an estimated one million. This report presents the most extensive investigation to date that anyone has conducted into the circumstances surrounding these civilian deaths. Human Rights Watch visited more than 50 Lebanese villages, interviewed over 355 witnesses, and investigated 94 separate incidents of Israeli attacks. These attacks claimed the lives of 510 civilians, as well as 51 Hezbollah combatants--almost half of the Lebanese death in the conflict.
