MY INTERACTIVE BOOK OF POEMS Patsy Dunstan, 2022-06-13 This book “My Interactive Book of Poems” is unique, practical, useful and universal in its presentation and content. The book is divided into 9 sections with over 50 original poems of varying lengths and level of difficulty, all written by the author. It introduces children to six types of poems; Shape, Haiku, Acrostic, Rhyming, Free Verse and Narrative. Children are encouraged to read the poem aloud at least three times. As they listen to the words, the poem comes alive. It is important to note that children may not like all the poems. They may begin in any section, with any poem. There are no restrictions. The activities which follow will further test children’s understanding of the poem. The 8th section contains additional activities. Answers to all questions are in the 9th section. This book is compact, will hold in your child’s bag, and easy to read. Your child needs nothing more than a pencil or pen, crayons and a willingness to embark on a very pleasant journey with a friend, parent/adult, teacher, older sibling or alone. “My interactive Book of Poems” will soon become your child’s companion on a plane, a train, a road trip, the car or bus and at home. The possibilities are endless. Parents then, can rest at ease, knowing that “My Interactive Book of Poems” will be a positive, rewarding learning experience.

Unencumbered Human Movement in Interactive Immersive Environments Garth Paine, 2009 This book outlines six interactive installation works that form a body of research concerned with the development of interactive, responsive installation works that use the gestures of the unencumbered

human body as their central activation and control mechanism. They are therefore an exploration of interactivity, interface technologies and approaches to mapping the sensed data derived from movement in the installation space, onto sound and vision generation schemes. I have conditioned this exploration with a desire to produce art installations; three-dimensional environments that occupy an entire gallery space. The installations were intended to be immersive, and to engage the 'inhabitant' in a direct, visceral and dynamic way. It was intended that the visitor to the installation would require no prior knowledge of the system and, additionally, would require no knowledge of musical practice or the visual arts.

Interactive Justice Emanuela Ceva,2016-05-12 Contemporary societies are riddled with moral disputes caused by conflicts between value claims competing for the regulation of matters of public concern. This familiar state of affairs is relevant for one of the most important debates within liberal political thought: should institutions seek to realize justice or peace? Justice-driven philosophers characterize the normative conditions for the resolution of value conflicts through the establishment of a moral consensus on an order of priority between competing value claims. Peace-driven philosophers have concentrated, perhaps more modestly, on the characterization of the ways in which competing value claims should be balanced, with a view to establishing a *modus vivendi* aimed at containing the conflict. *Interactive Justice* addresses an important question related to this debate: on what terms should the parties interact during their conflict for their interaction to be morally acceptable to them? Although largely unexplored by political philosophers, this is a main area of concern in conflict management. Building on a proceduralist interpretation of relational concerns of justice, the author develops a liberal normative theory of interactive justice for the

management of value conflict in politics grounded in the fundamental values of fair hearing and procedural equality. This book innovatively builds a bridge between works in political philosophy and peace studies to propose a fresh lens through which to view the normative responses liberal institutions ought to give to value conflict in politics, and moves beyond the apparent dichotomy between pursuing end-state justice through conflict resolution or peace through conflict containment.
