Apple Confidential 2.0 Owen W. Linzmayer,2004 Chronicles the best and the worst of Apple Computer's remarkable story.

Always Sarah Jio,2017 Torn between two men, Kailey Crane is faced with an impossible choice: embrace the bright future she has with her new fiancé, or dedicate herself to reclaiming a past love that may be gone forever. Set amidst the Seattle music scene of the 90s as well as the present day, *Always* parallels the past and present in a unique love story about a woman who discovers what she's willing to save and what she will sacrifice--

Writing and Literature Tanya Long Bennett,2018-01-10 In the age of Buzzfeeds, hashtags, and Tweets, students are increasingly favoring conversational writing and regarding academic writing as less pertinent in their personal lives, education, and future careers. *Writing and Literature: Composition as Inquiry, Learning, Thinking and Communication* connects students with works and exercises and promotes student learning that is kairotic and constructive. Dr. Tanya Long Bennett, professor of English at the University of North Georgia, poses questions that encourage active rather than passive learning. Furthering ideas presented in *Contribute a Verse: A Guide to First-Year Composition* as a complimentary companion, *Writing and Literature* builds a new conversation covering various genres of literature and writing. Students learn the various writing styles appropriate for analyzing, addressing, and critiquing these genres including poetry, novels, dramas, and research writing. The text and its pairing of helpful visual aids throughout emphasizes the importance of critical reading and analysis in producing a successful composition. *Writing and Literature* is a refreshing textbook that links learning, literature, and life.

Wine and Conversation Adrienne Lehrer,2009-04-08 The vocabulary of wine is large and exceptionally vibrant -- from straightforward descriptive words like sweet and fragrant, colorful metaphors like ostentatious and brash, to the more technical lexicon of biochemistry. The world of wine vocabulary is growing alongside the current popularity of wine itself, particularly as new words are employed by professional wine writers, who not only want to write interesting prose, but avoid repetition and cliché. The question is, what do these words mean? Can they actually reflect the objective characteristics of wine, and can two drinkers really use and understand these words in the same way? In this second edition of *Wine and Conversation*, linguist Adrienne Lehrer explores whether or not wine drinkers (both novices and experts) can in fact understand wine words in the same way. Her conclusion, based on experimental results, is no. Even though experts do somewhat better than novices in some experiments, they tend to do well only on wines on which they are carefully trained and/or with which they are very familiar. Does this mean that the elaborate language we use to describe wine is essentially a charade? Lehrer shows that although scientific wine writing requires a precise and shared use of language, drinking wine and talking about it in casual, informal setting with friends is different, and the conversational goals include social bonding as well as communicating information about the wine. Lehrer also shows how language innovation and language play, clearly seen in the names of new wines and wineries, as well as wine descriptors, is yet another influence on the burgeoning and sometimes whimsical world of wine vocabulary.

The Long Tail Chris Anderson,2006-07-11 What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? *The Long Tail* is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. *The Long Tail* is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Handbook of Eating and Drinking Herbert L. Meiselman,2020-05-22 Eating, including the provision of food and the consumption of food, is the biggest industry in the world, and a major contributor to our health, and to our enjoyment. This book on "Eating" is a unique and novel multi-disciplinary presentation of the whole breadth of research and discussion of the factors that impact eating, and reciprocally the factors that eating impacts. The purpose of this book is to familiarize readers with the areas of eating research and discussion with which they might not be familiar. The multi-disciplinary approach includes the basic and applied sciences (including biology, ecology, nutrition, and food science, as well as important behavioral and social sciences (including history, development, culinary arts, food service, business and marketing). The book ends with a review of current trends and predictions of the future for multiple aspects of eating.

Opus Vino DK,2010-10-18 The techniques and research that have led the world's winemaking revolution have been transported around the globe, pushing boundaries in every region. An expansive new reference is needed to embrace these changes. *Opus Vino* provides greater coverage and a more up-to-date approach to the wine world than any other illustrated wine book. Use it as an encyclopedia to look up wine-producing regions, appellations, wineries, and producers; as an atlas to find places of interest; and as a travel guide to plan winery tours. *Opus Vino* takes a new look at the new world of wine from a new generation of wine writers. It takes wine publishing to new heights, and gives both professionals and amateur enthusiasts a wine reference fit for the 21st century.

The Making of the English Middle Class Peter Earle,1989-01-01 This is the first major study of a neglected yet extremely

significant subject: the London middle classes in the period between 1660 and 1730, a period in which they created a society and economy that can be seen with hindsight to have ushered in the modern world. Using a wealth of material from contemporary sources--including wills, business papers, inventories, marriage contracts, divorce hearings, and the writings of Daniel Defoe and Samuel Pepys--Peter Earle presents a fully rounded picture of the middling sort of people, getting to the hearts of their lives as men and women struggling for success in the biggest, richest, and most middle-class city in contemporary Europe. He examines in fascinating and convincing detail the business life of Londoners, from apprenticeship through the problems and potential rewards of different occupational groups, going on to look at middle-class family, social, political and material life--from relationships with spouses, children, servants, and neighbors, to food and clothes and furniture, to sickness, death, and burial. Stimulating, scholarly, and constantly illuminating, this book is an important and impressive contribution to English social history.

Beggar of Love Lee Lynch,2009-10-01 Jefferson is the lover every woman wants to beÑor to have. Magnetically attractive, athletic, alcoholic, Jefferson is an anchorless innocent wandering through a world of women who can resist her no more than she can resist them. Never lacking a lover, Jefferson knows little of love; brought up on the right side of the tracks, she's drawn to the wild side. Every lesbian has known JeffersonÑor is Jefferson. Not since The Well of Loneliness has there been a lesbian novel of this scope. But much has changed since thenÑ

Digital Humanities and Digital Media Roberto Simanowski,2016 There is no doubt that we live in exciting times: Ours is the age of many?silent revolutions? triggered by startups and research labs of big IT companies; revolutions that quietly and profoundly alter the world we live in. Another ten or five years, and self-tracking will be as normal and inevitable as having a Facebook account or a mobile phone. Our bodies, hooked to wearable devices sitting directly at or beneath the skin, will constantly transmit data to the big aggregation in the cloud. Permanent recording and automatic sharing will provide unabridged memory, both shareable and analyzable. The digitization of everything will allow for comprehensive quantification; predictive analytics and algorithmic regulation will prove themselves effective and indispensable ways to govern modern mass society. Given such prospects, it is neither too early to speculate on the possible futures of digital media nor too soon to remember how we expected it to develop ten, or twenty years ago. The observations shared in this book take the form of conversations about digital media and culture centered around four distinct thematic fields: politics and government, algorithm and censorship, art and aesthetics, as well as media literacy and education. Among the keywords discussed are: data mining, algorithmic regulation, sharing culture, filter bubble, distant reading, power browsing, deep attention, transparent reader, interactive art, participatory culture. The interviewees (mostly from the US, but also from France, Brazil, and Denmark) were given a set of common questions as well specific inquiries tailored to their individual areas of interest and expertise. As a result, the book both identifies different takes on the same issues and enables a diversity of perspectives when it comes to the interviewees? particular concerns. Among the questions offered to everybody were: What is your favored neologism of digital media culture? If you could go back in history of new media and digital culture in order to prevent something from happening or somebody from doing something, what or who would it be? If you were a minister of education, what would you do about media literacy? What is the economic and political force of personalization and transparency in digital media and what is its personal and cultural cost? Other recurrent questions address the relationship between cyberspace and government, the Googlization, quantification and customization of everything, and the culture of sharing and transparency. The section on art and aesthetics evaluates the former hopes for hypertext and hyperfiction, the political facet of digital art, the transition from the?passive? to?active? and from?social? to?transparent reading?; the section on media literacy discusses the loss of deep reading, the prospect of?distant reading? and?algorithmic criticism? as well as the response of the university to the upheaval of new media and the expectations or misgivings towards the rise of the Digital Humanities.
