The Medium, the Mystic, and the Physicist Lawrence LeShan, 2003-05-01 First published in 1974, this groundbreaking volume relates field theory of altered states of consciousness and compares the surprisingly similar views of mediums, mystics, and physicists. When renowned psychologist Lawrence LeShan first explored clairvoyance and precognition it shook his belief in everyday reality. As a result, it led him to postulate other states of consciousness, which he calls “Clairvoyant Reality” and “Transpsychic Reality.” Although LeShan was trained in the traditional scientific method, he discovered that these altered realities—including the knowledge of future events, the ability to heal from great distances, and other paranormal phenomena—operated according to their own laws. Filled with mesmerizing case examples, quotations, and observations from LeShan’s own personal experience, *The Medium, the Mystic, and the Physicist* includes LeShan’s essay, “Human Survival on Biological Death,” where he brings a fresh perspective to the theory of the afterlife. A classic guide for the study of parapsychology, readers will be intrigued by this collection of unique ideas. • A classic in the field, often thought of as the author’s best work • Author is renowned as a psychologist and a leader in the modern study of mind-body interaction Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Summary of Mystic Dylan's The Witch's Guide to Manifestation Everest Media, 2022-07-24T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Witchcraft is the use of magic to achieve a desired outcome. Magic is a neutral force, and witchcraft is a neutral practice. While there is no bloodline you must be a part of, witches and magic practitioners draw their energies from nature. #2 The modern belief and practice of magic in Western culture stems from Kemetic Greco-Roman, Celtic, and Judeo-Christian beliefs and religion. The root word for magic is Greek, and it comes from the ancient Greek word magoi, which referred to a Median tribe in Persia and their religion, Zoroastrianism. #3 Witchcraft is the intentional use of magic while upholding tradition and folklore. Tradition and folklore are different for every individual because they can

be based on location, lived experience, and ancestry. The practice of magic involves offering yourself a natural focal point to engage with your surroundings and an intentional vision of your life. #4 The mundane is unavoidable, and because of that, manifestation is more than just a mystic practice. It has roots in reality, in the way we live. Gardening is an example of literal manifestaion. Whatever you'd like to manifest requires intent and care, like plants in a garden.

Cry Baby Mystic Daniel Tiffany,2021-01-01 Bobbing alongside Margery Kempe—an illiterate medieval mystic who dictated the first autobiography in English—the ragged voice of *Cry Baby Mystic* finds itself drawn into strange predicaments that are not its own and ferried into abandoned spaces by the gearing of stardom and shame. The revolving sentences overheard by the reader—a muffled chorus of Brechtian aftershocks—survive only as traces of sorrow now craved by all who have known it: sound gossiping the unsound, the excess of the pilgrim. A person climbs out and never comes home.
