Korea's Platform Empire Seongcheol Kim, Dal Yong Jin, 2024-06-07 *Korea's Platform Empire* explores the evolution of digital platforms in South Korea's media sphere, and their global political, economic, cultural, and technological influence. With a focus on Korea in the context of the global platform revolution, the book takes a methodical look at the broader social implications and the impact on cultural production. The authors explore various facets of the media and cultural industries—looking beyond social media to news broadcasting and the music industry—and look at the policy and regulations behind this shifting technological advancement. This book will appeal to students and scholars working on media industries, digital media, platform studies, information and technology studies, Korean and East Asian media studies, and the creative and cultural industries.

South Korea's Webtooniverse and the Digital Comic Revolution Brian Yecies, Ae-Gyung Shim, 2021-04-09 This book investigates the meteoric rise of mobile webtoons – also known as webcomics – and the dynamic relationships between serialised content, artists, agencies, platforms and applications, as well as the global readership associated with them. It offers an engaging discussion of webtoons themselves, and what makes this new media form so compelling and attractive to millions upon millions of readers. Why have webtoons taken off, and how do users interact with them? Each of the case studies we explore raises interesting questions for both general readers and scholars of new media about how webtoons have become a modern form of popular culture. The book also addresses larger questions about East Asia's contributions to global popular culture and Asian society in general, as well as South Korea's rapid social and cultural transformation since the 1990s. This is a significant – and understudied – aspect of the new screen ecologies and their role in a new wave of media globalisation as we approach the end of the second decade of the 21st century.

Discovering Hidden Gems in Foreign Languages M.D. Miller, 2023-04-27 This book offers a practical approach to conducting research in foreign languages on topics with a global nexus. It introduces the problem researchers face when getting started with a research problem, such as setting up the research environment and establishing goals for the research. The researcher then needs to prepare and to conduct foreign-language research by generating key terms and searching the right places where the information they seek is most likely to be stored. Using the appropriate advanced search operators, the researcher narrows down the search results to the desired sources, thereby eliminating the irrelevant sources. Specialized knowledge of country-specific domains advances the specificity and relevance of the researcher's efforts. The methods and tools demonstrated in this book are applicable to a variety of academic and practical fields. A doctor may ask "what are other experts in my field saying about ABC disease?" A sommelier may ask "where else in the world are XYZ grape varieties grown?" A businessman may ask "who are my global competitors in my market?" A doctoral student may ask "have any other students at universities abroad ever written a dissertation about my topic, too?" With the tools and techniques demonstrated in this book, all of these questions are answerable. This book concludes with chapters on translation and citation methods, and includes three case studies that demonstrate the practical use of the methods discussed above. This book targets academic researchers as well as students and faculty. This book will also be a good fit as an assigned reading for a college course on thesis/dissertation research.

Exploring Global FinTech Advancement and Applications Taherdoost, Hamed, Le, Nam, Madanchian, Mitra, Farhaoui, Yousef, 2024-02-07 In the world of FinTech, scholars face an overwhelming dilemma; it is challenging to access comprehensive and up-to-date information across various regions with regards to timeliness. The transformative power of FinTech, driven by innovations such as blockchain, AI analytics, and mobile payment systems, has reshaped financial transactions, influenced economic growth, and spurred competition among traditional financial institutions. However, the lack of a comprehensive, scholarly resource hinders the ability of academics, policymakers, and industry professionals to navigate and comprehend these intricate developments. The need for a centralized repository of knowledge has become increasingly urgent, hindering the collective understanding of the complex dynamics of FinTech on a global scale. *Exploring Global FinTech Advancement and Applications* stands as a groundbreaking solution to the academic community's pressing need for a comprehensive understanding of this global financial landscape. Through meticulous assessments of countries across each global region, each chapter delves into market size, FinTech adoption rates, services offered, key players, investments, infrastructure, government policies, economic impacts, security concerns, academic research synthesis, and future trends. By consolidating this wealth of information, the book becomes an indispensable reference guide for scholars, researchers, policymakers, investors, and industry professionals seeking to navigate the intricate dynamics of FinTech on a global scale.

Handbook for Asian Studies Specialists Noriko Asato, 2013-10-08 An indispensable tool for librarians who do reference or collection management, this work is a pioneering offering of expertly selected print and electronic reference tools for East Asian Studies (Chinese, Japanese, and Korean). Handbook for Asian Studies Specialists: A Guide to Research Materials and Collection Building Tools is the first work to cover reference works for the main Asian area languages of China, Japan, and Korea. Several leading Asian Studies librarians have contributed their many decades of experience to create a resource that gathers major reference titles—both print and online—that would be useful to today's Asian Studies librarian. Organized by language group, it offers useful information on the many subscription-based and open-source electronic tools relevant to Asian Studies. This book will serve as an essential resource for reference collections at academic

libraries. Previously published bibliographies on materials deal with China or Japan or Korea, but none have coalesced information on all three countries into one work, or are written in English. And unlike the other resources available, this work provides the insight needed for librarians to make informed collection management decisions and reference selections.

The papers presented focus on practical and real-world studies of machine learning, knowledge discovery, data mining; innovative prototype implementations or mature systems that use machine learning techniques and knowledge discovery processes in a real setting; recent advances at the frontier of machine learning and data mining with other disciplines. Part I and Part II of the proceedings contain the full papers of the contributions presented in the scientific track and abstracts of the scientific plenary talks. Part III contains the full papers of the contributions presented in the industrial track, short papers describing demonstration, the nectar papers, and the abstracts of the industrial plenary talks.

Backing The Bold: A Primer On Early-stage Venture Capital In Southeast Asia Paulo Joquino, 2022-09-20 *Backing the Bold* is a primer on the venture capital industry, business, and profession in Southeast Asia. The goal of the book's thirteen chapters has initially been to guide students of the Insignia Ventures Academy – Asia's first experiential venture capital accelerator – in their exploration of the venture capital industry and profession, specifically in the context of Southeast Asia's startup ecosystem and from the perspective of Insignia Ventures and its portfolio founders. Rather than being a book in the traditional sense of the word, such an origin and context for *Backing the Bold* has inevitably made this book a dynamic piece of literature, continuously growing and improving thanks to every new group of people who become part of the VC accelerator – as organizers, mentors, or participants. Now in print and in distribution, this first edition is available for all as a snapshot of *Backing the Bold*'s progress as a continuously evolving repository of insights, best practices, and frameworks. It is for readers of any background or motivation to gain a better understanding of the venture capital investment process, portfolio management, and profession in the context of Southeast Asia's fast-growing

technology markets.

Metaverse Fatih Sinan Esen, Hasan Tinmaz, Madhusudan Singh, 2023-11-13 This book has a multidisciplinary approach to Metaverse studies and the relevance of Metaverse with the current and popular topics that concern society and how it will change them in the future. In addition, academic texts are included since not much scientific content is available in this field. In short, there are sections in the book that everyone will find useful. Most importantly, the topics are grouped under four main parts. The first is the Introduction, where the main issues are explained. In the second section-Technical Topics, the technological infrastructure of the subject is explained, followed by section three where the social and human dimensions of Metaverse are explained. The fourth and final section is on Industrial Applications.

Design and Covid-19 Rachel Cooper, Louise Mullagh, 2024-01-11 Presenting key examples and case studies of how design has responded to the pandemic, Design and Covid-19 offers lessons and approaches to design for future resilience. Design has a key role to play in not only creating products to ensure safety from the pandemic, but also in the creation of complex systems, new technologies and physical environments that enable us to carry out our lives and protect populations in the future. Design and Covid-19 identifies four key phases of the pandemic to examine how designers developed systems, services, communications and products as part of our response to the crisis, whether at an international, national or community level. Contributors report from a range of international contexts, including countries in Europe, Asia, Africa and Australasia, detailing how countries responded to the pandemic, introduced social distancing and lockdowns, developed test, track and trace systems, implemented new laws and how design and designers responded to the urgent new challenges that the pandemic created. They explore the adaptation of designs as communities searched for new ways of connecting and working through restrictions and social distancing measures, establishing local mutual aid groups and using social media to support each other through the pandemic, and go on to focus on recovery and resilience, analysing the deeper, systemic design response as industries emerge from lockdown. They explore the need to reflect on and investigate key issues in order to understand what we can learn personally, socially, economically and globally from this unprecedented crisis. Drawing upon the expertise of scholars from across the globe, Design and Covid-19 explores a wide range of design disciplines to address the complex societal and global issues highlighted throughout the pandemic, and to inform new ways of building human and planetary wellbeing.
