Retrenchment and Regeneration in Rural

Newfoundland Reginald Byron, 2003-01-01 Set against the background of momentous economic changes over the last decade, *Retrenchment and Regeneration in Rural Newfoundland* examines the economic, political, and social circumstances that have led to the current crisis in rural Newfoundland. In this timely collection, ten social scientists explore how outporters are coping with uncertainty, the choices that they are now confronting, and the consequences of these choices in terms of their capacity to sustain livelihoods into the next generation and beyond. Offering both general overviews and specific case studies drawn from recent research, *Retrenchment and Regeneration in Rural Newfoundland* provides insight into the moral and political economy of Newfoundland, the background to the collapse of the fish stocks, and the effects of the crisis on outporter's occupational choices and migration decisions. Rich in detail and thought-provoking ideas, this collection is the first to examine the interconnected problems and opportunities in rural Newfoundland in light of global economic and social changes.

Newfoundland National Convention, 1946-1948 James Hiller, Michael Harrington, 1995

Newfoundland National Convention, 1946-1948

James K. Hiller, Michael F. Harrington, 1995-04-20 Delegates to the convention examined Newfoundland's economy and society, and debated the merits of returning to responsible government (suspended in 1934) or joining the Canadian confederation. A number of public figures of the 1950s and 1960s came into prominence during the convention, most notably Joseph R. Smallwood, leader of the confederate group. This unique and remarkable

historical document is a must for Commonwealth and Canadian specialists and research libraries.

Newfoundland in the Nineteenth and Twentieth Centuries James Hiller,Peter Neary,1980-12-15 The first comprehensive history of Newfoundland was published in 1793, but a centenary and a half passed before the first university course in the history of the island was offered there. During the past fifteen years there has been growing activity in the subject. This volume is the work of six scholars who have either studied or taught at the Memorial University of Newfoundland. Some have done both. The book has two broad aims. First, to point out the major themes of modern Newfoundland history currently being examined, and to offer a number of new interpretations of economic and political development in the last two centuries. Second, to supplement the standard works that are readily available to students. In some areas it provides additional details; in others, it bridges wide gaps. The themes considered include: an introduction to the writing of Newfoundland history; the transition from the purely maritime economy of the nineteenth century to the mixed oceanic and inland resource economy of the twentieth, and the difficulties this involved; the decline of the traditional cod fishery in the nineteenth century; Newfoundland's rejection of confederation in 1896; the limitations imposed by the fisheries agreements Britain negotiated with France and the United States; the consequences of the decision to reject confederation and diversify the local economy; the growth of the Fisherman's Protective Union; the political atmosphere of the 1920s; the party politics in the post-confederation period; and, finally, the collapse of

Newfoundland's oldest industry, the saltfish trade, and the province's integration into the North American economy. This is a book intended for both regional specialists and general students of Canadian history. It provides a valuable resource about a province of rapidly growing importance.

The Newfoundland Railway, 1898-1969 Les

Harding,2008-01-28 The building of a narrow-gauge trans-island railway in nineteenth century Newfoundland was a

reckless and even desperate experiment. The island was poor, the population small, and the local politics rife with bitter sectarian conflict. Against these unpromising odds, the Newfoundland Railway came into existence on June 29, 1898, and operated successfully for well over half a century. This book offers a comprehensive history of the Newfoundland Railway, focusing especially on the railroad's early years and the important early contributions of railway engineer R.G. Reid. A chronology and glossary are also included, along with several appendices which offer eye-witness accounts of the railway as recorded in period news articles, personal correspondence, poetry, and songs.
