General-Purpose Graphics Processor Architectures Tor M. Aamodt,Wilson Wai Lun Fung,Timothy G. Rogers,2018-05-21 Originally developed to support video games, graphics processor units (GPUs) are now increasingly used for general-purpose (non-graphics) applications ranging from machine learning to mining of cryptographic currencies. GPUs can achieve improved performance and efficiency versus central processing units (CPUs) by dedicating a larger fraction of hardware resources to computation. In addition, their general-purpose programmability makes contemporary GPUs appealing to software developers in comparison to domain-specific accelerators. This book provides an introduction to those interested in studying the architecture of GPUs that support general-purpose computing. It collects together information currently only found among a wide range of disparate sources. The authors led development of the GPGPU-Sim simulator widely used in academic research on GPU architectures. The first chapter of this book describes the basic hardware structure of GPUs and provides a brief overview of their history. Chapter 2 provides a summary of GPU programming models relevant to the rest of the book. Chapter 3 explores the architecture of GPU compute cores. Chapter 4 explores the architecture of the GPU memory system. After describing the architecture of existing systems, Chapters \ref{ch03} and \ref{ch04} provide an overview of related research. Chapter 5 summarizes cross-cutting research impacting both the compute core and memory system. This book should provide a valuable resource for those wishing to understand the architecture of graphics processor units (GPUs) used for acceleration of general-purpose applications and to those who want to obtain an introduction to the rapidly growing body of research exploring how to improve the architecture of these GPUs.

The Man I Met in the Lock Up Kim Sa-ryang ,2014-11-30 In “The man I Met in the Lock Up,” a reporter meets a jovial man named Count Wang in a lock up at a police station in Tokyo. Rumored to be the son of a count, Count Wang one day reveals to the reporter that he is an anarchist. Years later, the reporter happens upon Count Wang in a northbound train filled with people leaving Joseon for Manchuria and refugees fleeing the snowstorm. The drunk Count Wang acts very bizarrely and then lies unconscious on the floor of the train car. When the train pulls into Jeonju station where the reporter must transfer to a different train, the reporter is torn between getting off the train and saving Count Wang from the stampede of passengers piling into the already packed train.

Without You, There Is No Us Suki Kim,2015-10-13 A haunting account of teaching English to the sons of North Korea's ruling class during the last six months of Kim Jong-il's reign Every day, three times a day, the students march in two straight lines, singing praises to Kim Jong-il and North Korea: Without you, there is no motherland. Without you, there is no us. It is a chilling scene, but gradually Suki Kim, too, learns the tune and, without noticing, begins to hum it. It is 2011, and all universities in North Korea have been shut down for an entire year, the students sent to construction fields—except for the 270 students at the all-male Pyongyang University of Science and Technology (PUST), a walled compound where portraits of Kim Il-sung and Kim Jong-il look on impassively from the walls of every room, and where Suki has gone undercover as a missionary and a teacher. Over the next six months, she will eat three meals a day with her young charges and struggle to teach them English, all under the watchful eye of the regime. Life at PUST is lonely and claustrophobic, especially for Suki, whose letters are read by censors and who must hide her notes and photographs not only from her minders but from her colleagues—evangelical Christian missionaries who don't know or choose to ignore that Suki doesn't share their faith. As the weeks pass, she is mystified by how easily her students lie, unnerved by their obedience to the regime. At the same time, they offer Suki

tantalizing glimpses of their private selves—their boyish enthusiasm, their eagerness to please, the flashes of curiosity that have not yet been extinguished. She in turn begins to hint at the existence of a world beyond their own—at such exotic activities as surfing the Internet or traveling freely and, more dangerously, at electoral democracy and other ideas forbidden in a country where defectors risk torture and execution. But when Kim Jong-il dies, and the boys she has come to love appear devastated, she wonders whether the gulf between her world and theirs can ever be bridged. Without You, There Is No Us offers a moving and incalculably rare glimpse of life in the world's most unknowable country, and at the privileged young men she calls soldiers and slaves.

Understanding Korean Christianity K. Kale Yu, 2019-10-14 The cultural landscape plays a momentous role in the transmission of Christianity. Consequently, the global expansion of the church has led to the increasing diversification of world Christianity. As a result, scholars are turning more and more to native cultures as the point of focus. This study examines how this new discourse evolved as well as presenting a missional methodology based on the study of the native landscapes of Korea. Kale Yu argues that the process of formulating and communicating Christianity was less consistent than is usually supposed. By immersing the reader in the thought and lived experience of various Korean contexts, Professor Yu recreates the diversity of cultural landscapes experienced by Korean Christians of different periods in history. The result is a new interpretation of cross-cultural missional interactions.

Miss Kim Knows and Other Stories Cho Nam-Joo, 2023-08-03 FROM THE AUTHOR OF KIM JIYOUNG, BORN 1982 'There is laughter and joy to be found in these pages, along with the kind of laughter that sets two women over 50 rolling in the snow with tears streaming down their frozen cheeks and the aurora borealis dancing above them.' The Observer 'A thought-provoking, nuanced read' Sarah Manning, Red 'Dazzling prose' Elle Eight women. Eight stories. One reality. A woman is born. A woman is filmed in public without consent. A woman suffers domestic violence. A woman is gaslit. A woman is discriminated against at work. A woman grows old. A woman becomes famous. A woman is hated, and loved, and then hated again. Written in Cho Nam-Joo's masterful, razor-sharp prose, Miss Kim Knows brings together the lives of eight Korean women, aged 10 to 80. Contained in each of these biographies is a microcosm of contemporary Korea, and the challenges and injustices that women face from childhood to old age. As with Kim Jiyoun, Born 1982, the fates of these eight women are the fates of women the world over. And under Cho Nam-Joo's precise, unveiled gaze, nothing and nobody escapes scrutiny--not even herself.

The Tunnel of Destiny Kim Hyung-cha,2019-01-03 Astonishing Experiences of a Family from 1870s to the 1960s, the Most Tragic Moments in Modern Korean History Twin brothers believe they were born into an inseparable destiny, only to be betrayed by fate. Kim Hyung-cha is conscripted to serve as a student soldier during the Japanese occupation under conditions of severe cruelty, while his older twin, Kim Hyung-tae, who remained in the North after liberation, goes missing in the turbulence of the Korean War. Kim Hyungcha joins the allied forces and advances to the Yalu River with the war, where he miraculously finds his brother's family and manages to evacuate them to the South. Beyond stripping Korean contemporary history bare, this book forces an introspective look into the common yet esoteric concept of human destiny. Through a most peculiar interlacing of events and encounters that confront the family, leading towards an uncanny untangling of ties, readers will walk the "tunnel of destiny," where mere coincidences are proven to be indisputable fate.

Kim Ki-duk Hye Seung Chung,2012-02-15 This study investigates the controversial motion pictures written and directed by the independent filmmaker Kim Ki-duk, one of the most acclaimed Korean auteurs in the English-speaking world. Propelled by underdog protagonists who can only communicate through shared corporeal pain and extreme violence, Kim's graphic films have been classified by Western audiences as belonging to sensationalist East Asian extreme cinema, and Kim has been labeled a psychopath and misogynist in South Korea. Drawing upon both Korean-language and English-language sources, Hye Seung Chung challenges these misunderstandings, recuperating Kim's oeuvre as a therapeutic, yet brutal cinema of Nietzschean resentment (political anger and resentment deriving from subordination and oppression). Chung argues that the power of Kim's cinema lies precisely in its ability to capture, channel, and convey the raw emotions of protagonists who live on the bottom rungs of Korean society. She provides historical and postcolonial readings of victimization and violence in Kim's cinema, which tackles such socially relevant topics as national division in *Wild Animals* and *The Coast Guard* and U.S. military occupation in *Address Unknown*. She also explores the religious and spiritual themes in Kim's most recent works, which suggest possibilities of reconciliation and transcendence.
