### **Encyclopedia of Library and Information Sciences** John D. McDonald, Michael

### **Choro Maranhense** Peter Ninaus, 2022-08-16 The term choro is a complex

expression of a genre, a style and a cast. This diversity is complemented by regionality and forms a special appearance with the choro tradition in the Brazilian state of Maranhão. This work represents the first attempt to systematically explore this choro and to open it as a contribution to the basic research about the music in Maranhão. This Choro Maranhense is a living tradition that is very receptive to neighboring styles of music and sets itself apart from other choro styles in Brazil in its musical practice. The practice of this music of the Northeast has a long history and was influential for the entire music of the country. Notwithstanding the dispute of domination between the centers of Rio de Janeiro and São Paulo in the southeast and the centers of the northeast, such as São Luís and Maranhão, the studies show that this choro has many variations and imitations of the folklore of Maranhão, such as Bumba-meu-Boi or Lelê, which give this choro tradition a completely different picture in comparison to the classical models of Pixinguinha. This work is intended as a basis for further research and as a contribution to the study of music in northeastern Brazil.

### **Artifacts from Medieval Europe** James B. Tschen-Emmons, 2015-02-10 Using

artifacts as primary sources, this book enables students to comprehensively assess and analyze historic evidence in the context of the medieval period. This new addition to the Daily Life through Artifacts series provides not only the full benefit of a reference work with its comprehensive explanations and primary sources, but also supplies images of the objects, bringing a particular aspect of the medieval world to life. Each entry in Artifacts from Medieval Europe explains and expands upon the cultural significance of the

artifact depicted. Artifacts are divided into such thematic categories as domestic life, religion, and transportation. Considered collectively, the various artifacts provide a composite look at daily life in the Middle Ages. Unlike medieval history encyclopedias that feature brief reference entries, this book uses artifacts to examine major aspects of daily life. Each artifact entry features an introduction, a description, an examination of its contextual significance, and a list of further resources. This approach trains students how to best analyze primary sources. General readers with an interest in history will also benefit from this approach to learning that enables a more complete appreciation of past events and circumstances.

**The Story Of Naxos** Nicolas Soames,2012-05-03 In 1987, a budget classical record label was started in Hong Kong by Klaus Heymann, a German businessman who loved classical music. Swiftly, it gained a world wide reputation for reliable new digital recordings of the classics at a remarkably low price. Despite opposition from the classical record establishment, it grew at a remarkable pace, and soon expanded into opera, early music, contemporary music and specialist repertoire so that it became appreciated by specialist collectors as well as the general music lover. It is now the leading provider of classical music and as an innovator in digital delivery. At the heart of Naxos is one man: Klaus Heymann. The combination of his broad knowledge of classical music and his acute business acumen has enabled him to build the most varied classical music label in the world, but also the most effective distribution network to ensure that his recordings are available everywhere. This fascinating story explains how it happened, how a one-time tennis coach in Frankfurt became a classical recording mogul in Hong Kong and how, at the age of 75, he still holds the reins as firmly as ever.

*Intersections of Race, Class, Gender, and Nation in Fin-de-siècle Spanish Literature and Culture* Jennifer Smith,Lisa Nalbone,2016-09-01 This volume focuses on intersections of race, class, gender, and nation in the formation of the fin-de-siècle Spanish and Spanish colonial subject. Despite the wealth of research produced on gender, social class, race, and national identity few studies have focused on how these categories interacted, frequently operating simultaneously to reveal contexts in which dominated groups were dominating and vice versa. Such revelations call into question metanarratives about the exploitation of one group by another and bring to light interlocking systems of identity formation, and consequently oppression, that are difficult to disentangle. The authors included here study this dynamic in a variety of

genres and venues, namely the essay, the novel, the short story, theater, and zarzuelas. These essays cover canonical authors such as Benito Pérez Galdós and Emilia Pardo Bazán, and understudied female authors such as Rosario de Acuña and Belén Sárraga. The authors included here study this dynamic in a variety of genres and venues, namely the essay, the novel, the short story, theater, and zarzuelas. The volume builds on recent scholarship on race, class, gender, and nation by focusing specifically on the intersections of these categories, and by studying this dynamic in popular culture, visual culture, and in the works of both canonical and lesser-known authors.

**A Companion to the Archaeology of Early Greece and the Mediterranean, 2 Volume Set** Irene S. Lemos,Antonis Kotsonas,2020-01-09 A Companion that examines together two pivotal periods of Greek archaeology and offers a rich analysis of early Greek culture A Companion to the Archaeology of Early Greece and the Mediterranean offers an original and inclusive review of two key periods of Greek archaeology, which are typically treated separately—the Late Bronze Age and the Early Iron Age. It presents an in-depth exploration of the society and material culture of Greece and the Mediterranean, from the 14th to the early 7th centuries BC. The two-volume companion sets Aegean developments within their broader geographic and cultural context, and presents the wide-ranging interactions with the Mediterranean. The companion bridges the gap that typically exists between Prehistoric and Classical Archaeology and examines material culture and social practice across Greece and the Mediterranean. A number of specialists examine the environment and demography, and analyze a range of textual and archaeological evidence to shed light on socio-political and cultural developments. The companion also emphasizes regionalism in the archaeology of early Greece and examines the responses of different regions to major phenomena such as state formation, literacy, migration and colonization. Comprehensive in scope, this important companion: Outlines major developments in the two key phases of early Greece, the Late Bronze Age and the Early Iron Age Includes studies of the geography, chronology and demography of early Greece Explores the development of early Greek state and society and examines economy, religion, art and material culture Sets Aegean developments within their Mediterranean context Written for students, and scholars interested in the material culture of the era, ACompanion to the Archaeology of Early Greece and the Mediterranean offers a comprehensive and authoritative guide that bridges the gap between the Late Bronze Age and the Early Iron Age. 2020 CHOICE Outstanding Academic Title Winner!

*African Pianism* Nketia, J.H. Kwabena, 2019-03-21 African Pianism refers to a style of piano music which derives its characteristic idiom from the procedures of African percussion music as exemplified in bell patterns, drumming, xylophone and mbira music. It may use simple or extended rhythmic motifs or the lyricism of traditional songs and even those of African popular music as the basis of its rhythmic phrases. It is open ended as far as the use of tonal materials is concerned expect that it may draw on the modal and cadential characteristics of traditional music. It's harmonic idiom may be tonal, atonal, consonant or dissonant in whole, in part, depending on the preferences of the composer, the mood or impressions he wishes to create or how he chooses to reinforce, heighten or soften the jaggedness of successive percussive attacks. In this respect the African composer does not have to tie himself down to any particular school of writing if his primary aim is to explore the potential of African rhythmic and tonal usages. The pieces in this book were written to give the African piano student something with African rhythmic and tonal flavour that may enrich the experience, shape orientation, sense of timing and coordination of rhythmic and tonal events.
