Brooklyn's Bushwick - Urban Renewal in New York, USA Raymond Charles Rauscher, Salim Momtaz, 2014-05-05 This book offers an extended case study of the urban community of Bushwick, located in the Brooklyn borough of New York City. The authors begin with a broad review of the history of Bushwick and Brooklyn, from before the earliest European settlements of the 1600s, through the 18th and 19th centuries and up to the 1960s. Chapter Two begins by tracing the steep decline of the community, which culminated in catastrophic fires and looting in the wake of New York's electrical blackout of 1977 and goes on to describe the beginnings of urban planning and renewal efforts which launched the recovery of Bushwick in the 1980s to early 2000s. Chapter Three

steps back from the immediacy of the community to discuss urban change from a theoretical perspective. The authors outline advances in 'sustainable urban planning' and describe how these apply to Bushwick and the wider Brooklyn community. Chapter Four offers a detailed examination of the intent and function of New York's community board planning system, known as the Charter 197-a program. In Chapter Five the authors examine the 197-a planning process and its application in the areas of Bushwick, Williamsburg and Greenpoint in Northeast Brooklyn; Brooklyn Downtown and in Southeast Brooklyn including Coney Island. The following chapter examines a number of innovative Bushwick high schools that offer practical experience in urban planning. Drawing the urban planning experiences together, the book concludes with a look at future directions in city renewal. Emphasis here is placed on 'sustainable urban planning' and the lessons to be learned from the experience of Bushwick and Brooklyn. The specifics of urban planning and renewal are illustrated with tables and figures. The details of planning are informed by an overarching sense of history, beginning with the dedication of the book to the memory of six Universalist writers associated with New York: Henry Thoreau, Helena Blavatsky, Henry George, Henry Miller, Arthur Miller and Walt Whitman. A rich trove of historical materials, ranging from family sketches to school rosters to rarely seen photographs, helps to keep the survey and analysis of urban planning grounded in the lives of Bushwick's residents, past, present and future.

Love in Brooklyn, New York. Rica Mae N. Alcantara,2024-01-03 The story revolves around Tom, a charismatic Hollywood actor, and Rain, a humble and ambitious fan who unexpectedly becomes entangled in Tom's life. Their connection deepens as they navigate the glitz and challenges of the entertainment industry, with Tom unknowingly falling for Rain. The narrative unfolds through romantic encounters, unexpected twists, and moments of vulnerability, creating a tapestry of emotions as the characters grapple with love, fame, and the pursuit of dreams. Rain's journey, from facing deportation to finding solace in Tom's presence, adds a layer of complexity to their evolving relationship, making the story a captivating blend of romance and Hollywood intrigue.

Brooklyn Brew Shop's Beer Making Book Erica Shea,Stephen Valand,Jennifer Fiedler,2011-11-01 *Brooklyn Brew Shop's Beer Making Book* takes brewing out of the basement and into the kitchen. Another Brooklyn Jacqueline Woodson,2016-08-09 A Finalist for the 2016 National Book Award New York Times Bestseller A SeattleTimes pick for Summer Reading Roundup 2017 The acclaimed New York Times bestselling and National Book Award-winning author of *Brown Girl Dreaming* delivers her first adult novel in twenty years. Running into a long-ago friend sets memory from the 1970s in motion for August, transporting her to a time and a place where friendship was everything—until it wasn't. For August and her girls, sharing confidences as they ambled through neighborhood streets, Brooklyn was a place where they believed that they were beautiful, talented, brilliant—a part of a future that belonged to them. But beneath the hopeful veneer, there was another Brooklyn, a dangerous place where grown men reached for innocent girls in dark hallways, where ghosts haunted the night, where mothers disappeared. A world where madness was just a sunset away and fathers found hope in religion. Like Louise Meriwether's *Daddy Was a Number Runner* and Dorothy Allison's *Bastard Out of Carolina*, Jacqueline Woodson's *Another Brooklyn* heartbreakingly illuminates the formative time when childhood gives way to adulthood—the promise and peril of growing up—and exquisitely renders a powerful, indelible, and fleeting friendship that united four young lives.

Seven Kinds of People You Find in Bookshops Shaun Bythell, 2020-11-24 From the author of *Confessions of a Bookseller*, a cankerous and darkly funny field guide to bookstore customers. It does take all kinds and through the misanthropic eyes of a very grumpy bookseller, we see them all. There's the Expert (with subspecies from the Bore to the Helpful Person), the Young Family (ranging from the Exhausted to the Aspirational), Occultists (from Conspiracy Theorist to Craft Woman). Then there's the Loiterer (including the Erotica Browser and the Self-Published Author), the Bearded Pensioner (including the Lyrca Clad), the The Not-So-Silent Traveller (the Whistler, Sniffer, Hummer, Farter, and Tutter), and the Family Historian (generally Americans who come to Shaun's shop in Wigtown, Scotland). Don't forget the Person Who Doesn't Know What They Want (But Thinks It Might Have a Blue Cover) and the harried Parents Secretly After Free Childcare. Two bonus sections include Staff and, finally, Perfect Customer—all add up to one of the funniest books about books you'll ever find. Shaun Bythell and his mordantly unique observational eye make this perfect for anyone who loves books and bookshops. Praise for *Seven Kinds of People You Find in Bookshops* "Bythell continues his seriocomic take on his profession . . . he spares no one." —Michael Dirda, *The Washington Post* "Cheers to Shaun Blythell for this delightful taxonomy of bookstore customers and visitors." —Pamela Pescosolido, bookseller, *The Bookloft* "Bythell is having fun and it's

infectious.” –The Scotsman (UK) “Virtuosic venting . . . pantomime misanthropy is tempered with bursts of sweetness in the secondhand bookseller’s latest dispatches from Wigtown [Scotland].” –The Guardian “Seven Kinds of People You Find in Bookshops (a parody of the sort of self-help titles Bythell absolutely loathes), is a series of Orwellian-incisive character sketches.” –The Critic (UK) “Bythell distills the essence of his experience into a warm, witty and quirky taxonomy of the book-loving public.” –The Week (UK)

Frank Einstein and the Antimatter Motor (Frank Einstein series #1) Jon Scieszka, 2014-08-19 New York Times Bestseller I never thought science could be funny . . . until I read Frank Einstein. It will have kids laughing. –Jeff Kinney, *Diary of a Wimpy Kid* Huge laughs and great science—the kind of smart, funny stuff that makes Jon Scieszka a legend. –Mac Barnett, author of *Battle Bunny* and *The Terrible Two* Clever science experiments, funny jokes, and robot hijinks await readers in the first of six books in the New York Times bestselling Frank Einstein chapter book series from the mad scientist team of Jon Scieszka and Brian Biggs. The perfect combination to engage and entertain readers, the series features real science facts with adventure and humor, making these books ideal for STEM education. This first installment examines the science of “matter.” Kid-genius and inventor Frank Einstein loves figuring out how the world works by creating household contraptions that are part science, part imagination, and definitely unusual. In the series opener,

an uneventful experiment in his garage-lab, a lightning storm, and a flash of electricity bring Frank's inventions—the robots Klink and Klank—to life! Not exactly the ideal lab partners, the wisecracking Klink and the overly expressive Klank nonetheless help Frank attempt to perfect his inventions... . until Frank's archnemesis, T. Edison, steals Klink and Klank for his evil doomsday plan! Integrating real science facts with wacky humor, a silly cast of characters, and science fiction, this uniquely engaging series is an irresistible chemical reaction for middle-grade readers. With easy-to-read language and graphic illustrations on almost every page, this chapter book series is a must for reluctant readers. The Frank Einstein series encourages middle-grade readers to question the way things work and to discover how they, too, can experiment with science. In a starred review, Kirkus Reviews raves, "This buoyant, tongue-in-cheek celebration of the impulse to 'keep asking questions and finding your own answers' fires on all cylinders," while Publishers Weekly says that the series "proves that science can be as fun as it is important and useful." Read all the books in the New York Times bestselling Frank Einstein series: Frank Einstein and the Antimatter Motor (Book 1), Frank Einstein and the Electro-Finger (Book 2), Frank Einstein and the BrainTurbo (Book 3), and Frank Einstein and the EvoBlaster Belt (Book 4). Visit frankeinsteinbooks.com for more information. STARRED REVIEW In the final analysis, this buoyant, tongue-in-cheek celebration of the impulse to 'keep asking questions and finding your own answers' fires on all cylinders.

--Booklist, starred review Scieszka mixes science and silliness again to great effect. --Kirkus Reviews In refusing to take itself too seriously, it proves that science can be as fun as it is important and useful. --Publishers Weekly With humor, straightforward writing, tons of illustrations, and a touch of action at the end, this book is accessible and easy to read, making it an appealing choice for reluctant readers. A solid start to the series. --School Library Journal Kids will love Frank Einstein because even though he is a new character he will be instantly recognizable to the readers...Jon Scieszka is one of the best writers around, and I can't wait to see what he does with these fun and exciting characters. --Eoin Colfer, Artemis Fowl Jon Scieszka's new series has the winning ingredients that link his clever brilliance in story telling with his knowledge of real science, while at the same time the content combination of fiction and non fiction appeals to the full range of the market. --Jack Gantos, Dead End in Norvelt

Bricklin on Technology Dan Bricklin,2009-04-15 In a world that divides us, technology creates connection. Cell phones, e-mail, digital cameras, personal Web sites—they all join us, however tenuously, to what we value. Is connectivity what we're willing to pay for? Should technology be our servant or a tool that helps us do other things? What can we really learn from

Napster? What would intelligent standards for touch-screen user interface look like? How does technology evolve, and what drives that evolution? For Dan Bricklin, technology cannot exist independently of the lives and needs of those who use it. For more than a decade he has shared his thoughts on this essential interdependence in blogs, podcasts, and essays. This volume compiles those observations, putting together case histories and new reflections for a fascinating study of how people and technology affect one another. Whether you're a software developer or a student of human nature, you'll find yourself drawn into this most intriguing discourse—because you are its subject.
