Getting Started Deborah Morley,1999 Over the last few years, Internet and World Wide Web use has skyrocketed and, consequently, many are interested in developing a Web site for personal or business use. Though, creating a Web site has in the past been very complicated and primarily left to computer professionals, the introduction of Web publishing programs such as Microsoft FrontPage 98 has made Web site creation a possibility for almost anyone. While many computer books are enormous and difficult to read, Getting Started: Web Page Design with Microsoft FrontPage 98 is concise and readable. It begins with the essential information a Web page designer needs to become familiar with the World Wide Web and basic Web page design fundamentals, and then covers how to create complete Web sites -- all in six concise chapters.

Getting Started with Computers Deborah Morley,1999 Over the past fifteen or twenty years, personal computers have evolved from do-it-yourself kits that people built as a hobby to an indispensable part of our society. Today, knowing how to use a computer is not an option -- it is essential. From using an ATM machine to using the electronic card catalog at the library to surfing the Internet, computers have become an integral part of our everyday life and are here to stay.

Living Dead Girl Tod Goldberg,2012-10-16 Los Angeles Times Book Prize finalist: This novel of psychological suspense is “full of seductive prose [and] sharply focused characters” (Library Journal). Paul Luden has been haunted by a memory he can’t recall. Whatever happened to his marriage, to his two-year-old daughter, is too traumatic to remember, so his subconscious has chosen to block out key details. But when he receives a phone call from the small lake town where they’d once lived, telling him that no one had seen or heard from his wife in ten days, he knows what he has to do. He and his nineteen-year-old girlfriend drive from LA to Washington State, where he’s forced to confront his past. And as he pieces together his buried memories, Paul unravels mentally, falls into self-destructive trances—and ultimately discovers the truth about his wife. From the New York Times–bestselling coauthor of The House of Secrets, this is “both a page-turner and a complex study of human relationships . . . Fans of psychological thrillers will find a lot to like here” (Booklist).

Fake Liar Cheat Tod Goldberg,2000-07 Lonnie is drawn by Claire from his ordinary life of theft and blackmail into the world of L.A.'s ritzy nightlife. Along the way, he becomes an underground legend.

Frankweiler. What if playing video games was prepping you to solve an incredible real-world puzzle and locate a priceless treasure? Twelve-year-old Ted Gerson has spent most of his summer playing video games. So when his great-uncle dies and bequeaths him the all so-called treasure in his overstuffed junk shop of an apartment, Ted explores it like it’s another level to beat. And to his shock, he finds that eccentric Great-Uncle Ted actually has set the place up like a real-life escape-the-room game! Using his specially honed skills, Ted sets off to win the greatest game he’s ever played, with help from his friends Caleb and Isabel. Together they discover that Uncle Ted’s “treasure” might be exactly that—real gold and jewels found by a Japanese American unit that served in World War II. With each puzzle Ted and his friends solve, they get closer to unraveling the mystery—but someone dangerous is hot on their heels, and he’s not about to let them get away with the fortune. Such Good Neighbours Margaret Bingley,2019-05-06 Newly-married husband Mike could not understand why his pretty young wife Kirsten preferred the less habitable house of the two adjacent homes that the estate agent offered them. But Kirsten was afraid of the other house in spite of the excellent condition it was in, so Mike, very much in love, pandered to her inexplicable whim. Kirsten’s fears were not groundless, although by the time she and Mike realised the extent of the difficulties they found themselves in it was too late for both of them. The house next door was bought by another couple, Justin and Alexandra Blair. At first they seemed an ordinary pair, although Mike thought that Alexandra was quite the most beautiful woman he had ever seen. But as Kirsten got to know them better, she realised that they were not the same as other people and that they were capable of achieving feats of extraordinary power. When Justin offered to change Kirsten’s life by helping her to conceive the child she thought she would never be able to have, she seized the opportunity gratefully and tried to ignore the fact that she was entering into a contract with the devil...

Prime Time Animation Carol Stabile,2013-09-13 In September 1960 a television show emerged from the mists of prehistoric time to take its place as the mother of all animated sitcoms. The Flintstones spawned dozens of imitations, just as, two decades later, The Simpsons sparked a renaissance of primetime animation. This fascinating book explores the landscape of television animation, from Bedrock to Springfield, and beyond. The contributors critically examine the key issues and questions, including: How do we explain the animation explosion of the 1960s? Why did it take nearly twenty years following the cancellation of The Flintstones for animation to find its feet again as primetime fare? In addressing these questions, as well as many others, essays examine the relation between earlier, made-for-cinema animated production (such as the Warner Looney Toons shorts) and television-based animation; the role of animation in the economies of broadcast and cable television; and the links between animation production and brand image. Contributors also examine specific programmes like The Powerpuff Girls, Daria, Ren and Stimpy and South Park from the perspective of fans, exploring fan cybercommunities, investigating how ideas of 'class' and 'taste' apply to recent TV animation, and addressing themes such as irony, alienation, and representations of the family.

Television and American Culture Jason Mittell,2010 Television and American Culture: An Overview introduces students to the study of television by looking at American television from a cultural perspective. The book is written for intermediate undergraduate and beginning graduate students for a range of television studies courses. Specifically, Mittell discusses television within the following contexts: the economics of the television industry, television's role within American democracy, the formal attributes of a variety of television genres, television as a site of gender and racial identity formation, television's role in everyday life, and the medium's technological and social impacts. The topical arrangement and comprehensive scope of the book differs from other television textbooks, arguing that we must incorporate a range of economic, political, aesthetic, and sociological perspectives to fully comprehend the medium of television.

If I Were God Forough Farokhzad,2008-08 Forough Farokhzad (1935-1967) is a legendary and controversial figure whose poetry has been repeatedly banned in Iran. Farokhzad was both celebrated and condemned for writing candidly about love, sex, politics, organized religion and the plight of the individual. Her death in an automobile accident at the age of thirty-two cut short a brilliant and tempestuous life, eloquently portrayed in the poems, interviews, and letters collected here. A foreword by Andre Dubus and a trio of insightful essays by translator Meetra A. Sofia provide the historical and cultural context for understanding the revolutionary nature of Farokhzad’s life and work, which continues to inspire generation after generation to memorize her poetry and to regard Farokhzad as an iconic symbol of personal freedom.
