Review of Some Text to Speech Converters, Voice Changers, Video Editors, Animators, Speaking Avatar Makers and Live Streamers Dr. Hidaia Mahmood Alassouli,2020-12-26 As videos are so much important today, I believe that everyone must have some knowledge on creating and editing videos for common tasks required by his personal or business use. This book has mainly an objective to evaluate some text to speech converters, voice changers, video editors, cartoon animators and video recording and live streaming programs. As I am Arabic, I gave special importance to look for the best tools that can convert Arabic text to voice with good quality because of the lack of these tools. And I also gave special importance to look for the best tools that can change the voice tune as a lot of people don't like to make videos with their voice for special reasons. Then I gave quick guide on how to use the two important video editors, VSDC Free Video Editor and Camtasia Studio. Then I gave quick guide on how to use two websites that enable people to create cartoon animation videos in a simple way, <https://www.animaker.com/> website and <https://www.powtoon.com> website. Then I gave quick guide on how to use one of the best animator programs, which is Reallusion Cartoon Animator 4. I explained also how it is possible to make face mockup through Cartoon Animator 4 Motion Live 2D Plugin. Then I introduced Adobe Character Animator as alternative program to make face mockup. Finally I explained about one of the video recording and live streaming programs, which is OBS Studio. I mentioned briefly how to setup OBS studio to create livestream video on Youtube and Facebook. At the end, I showed how to use Voki website to create customizable speaking avatars. This work is divided into the following sections. 1. Some tools to reshape the Arabic letters so they can be converted to voice in other tools. 2. Some tools to convert English text to speech TTS. 3. Some tools to convert Arabic text to speech TTS. 4. 102 Ways to Apply Career Training in Family History/Genealogy Anne Hart,2006-09-12 Here are 102+ ways to use training in family history and genealogy when applied to real-world careers in education, business, or government, including creative entrepreneurial start-ups. With the future marriage of genealogy to smart cards, online databases, or similar authentication technology for family history, population registration (census), and library research, it may be easier to research family lines, not only by DNA matches through DNA testing for deep ancestry, but also with smart, electronic cards designed for electronic identity. It's also a way to track military records as another way to trace family history. Careers and research may focus on various state libraries or historical associations. History and family studies are part of an interdisciplinary liberal arts program that emphasizes research and writing. Journalism courses help round out your ability to express in plain language the results of your reading, explorations, and interpretations. Obtaining a degree or even taking one course or self-study in Family, Public, or Social History can lead to broad, interdisciplinary careers. Graduate work in library science, law, journalism, public history, or genetics counseling (with a double major in the life sciences and social work) also lead to careers in which an historical education may be used.

How to Start, Teach, & Franchise a Creative Genealogy Writing Class or Club Anne Hart,2008-06-12 It's easy to start, teach, and franchise a creative genealogy writing club, class, or publication. Start by looking at the descriptions of each business and outline a plan for how your group operates. Flesh out each category with your additional research pertaining to your local area and your resources. Your goal always is to solve problems and get measurable results or find accurate records and resources. Or research personal history and DNA-driven genealogy interpretation reporting. You can make keepsake albums/scrapbooks, put video online or on disc, and create multimedia text and image with sound productions or work with researching records in archives, oral history, or living legacies and time capsules. A living legacy is a celebration of life as it is now. A time capsule contains projects and products, items, records, and research you want given to future generations such as genograms of medical record family history, family newsletters, or genealogy documents, diaries, photos, and video transcribed as text or oral history for future generations without current technology to play the video discs. Or start and plan a family and/or school reunion project or franchise, business or event. Another alternative is the genealogy-related play or skit, life story, or memoir.

How to Open a Business Writing and Publishing Memoirs, Gift Books, Or Success Stories for Clients Anne Hart,2005-12 Learn what questions to ask and how to interview people for the significant moments in their life stories, and then write, publish, and bind by hand exquisitely-crafted personal gift books, memoirs, or business success stories. Words in memoirs or life success story gift books have a life of their own. The purpose of a hand-made, finely bound memoirs or business success-story gift book is to show how two or more people bring out the best in one another. You'd be surprised how many people are satisfied to pay up to \$10,000 (or more depending upon the publisher) to have only one copy of a hand-bound hardcover book published about their event or life story. What does it take to create and publish a memoirs gift book commemorating a Bar Mitzvah, confirmation, wedding, or true experience? What quality of personal book do you want to make from scratch-writing, printing, and binding? As far as printing and binding, you can make one finished book at a cost to you of only \$1.50-\$4.50. What you charge a client depends on what it costs you. If you create and publish a custom gift book, you'd publish only one copy of a hand bound, hard-cover book. The tome would contain anywhere from 60 to 100 photos. Text material based on phone or live interviews running at least two hours for one person (or more if needed and about two hours spent per each interview) would be about 80 to 120 published pages-slightly more, but only if necessary. Look at yourself as a designer, writer, interviewer, and book binder. Learn how to make your own pop-up books for all ages.

Writing 7-Minute Inspirational Life Experience Vignettes Anne Hart,2004-06-09 Put direct experience in a small package and launch it worldwide. Write your life story in short vignettes of 1,500 to 1,800 words. Write eulogies and anecdotes or vignettes of life stories and personal histories for mini-biographies and autobiographies. Then condense or contract the life stories or personal histories into PowerPoint presentations and similar slide shows on disks using lots of photos and one-page of life story. Finally, collect lots of vignettes and flesh-out the vignettes, linking them together into first-person diary-style novels and books, plays, skits, or other larger works. Write memoirs or eulogies for people or ghostwrite biographies and autobiographies for others. The vignette can be read in ten minutes. So fill magazine space with a direct experience vignette. Magazine space needs only 1,500 words. When you link many vignettes together, each forms a book chapter or can be adapted to a play or script. Included are a full-length diary-format first person novel and a three-act play, including a monologue for performances. There's a demand for direct life experiences written or produced as vignettes and presented in small packages. Save those vignettes electronically. Later, they can be placed together as chapters in a book or adapted as a play or script, turned into magazine feature, specialty, or news columns, or offered separately as easy-to-read packages.

There are numerous texts on the teaching of social studies, an equal number on teaching students with disabilities. Blending best practice in social studies and special education instruction, this book provides both pre - and in-service educators simple, practical strategies that support the creation of engaging, relevant, and appropriate social studies opportunities for all students. Though the strategies presented are useful for all students, they are particularly beneficial for students with disabilities. From Universal Design for Learning, mnemonics, graphic organizers, and big ideas, to co-teaching, screen readers and the Virtual History Museum, this book offers hands-on, practical ideas general educators can use when teaching K-12 social studies in inclusive classrooms.

Is it possible to seamlessly integrate a Christian message in a crackling good yarn?
