Imaginary Boundaries of Justice Ronnie Lippens, 2005-01-14 It has become increasingly difficult to speak or even think social or legal justice in an age when words have left their moorings. Perhaps images are more stable than words; maybe images and imagery possess a certain viscosity, even a sensory quality, which prevents them from evaporating. This 'maybe' is what this book is about. The contributors to this collection explore the issue of how the Imaginary (images, imagery, imagination) has a role in the production and reproduction of 'visions' of legal and social justice. It argues that 'visions' of justice are inevitably bounded. Boundaries of 'visions' of justice, however, are also 'imaginary'. They emerge within imaginary spaces, and, as they are 'imaginary', they are inherently unstable. The book captures an emerging interest (in the humanities and social sciences) in images and the visual, or the Imaginary more broadly. This collection will appeal to scholars and students of social and legal theory, visual culture, justice and governance studies, media studies, and criminology.

Social Dynamics of Crime and Control Kai Bussmann, Susanne Karstedt, 2000-07-24 This book explores new directions in contemporary theorising about the impact of social and cultural dynamics on crime and social control.

Nick's Story Nicholas Bilotti, 2016-11-09 *Nick's Story* is a bittersweet retelling of family love, personal struggle and deceit, as well as unfortunate and unexpected betrayals in trust. The events take place in a tumultuous nine-year period in the author's life, culminating in a remarkable ending.

Comparative Criminal Justice David Nelken, 2010-05-05 The increasingly important topic of comparative criminal justice is examined from an original and insightful perspective by one of the top scholars in the field. Addressing the need for a globalized criminology, David Nelken looks at why we should study crime and criminal justice in a comparative and international context, and the difficulties we encounter when we do. Evaluating 'global' trends in crime, risk and security, the book draws upon the author's experience of working in a number of settings around the world. A range of case studies are included to illustrate the discussion, covering areas such as white collar crime, juvenile delinquency, and organized crime.

White-Collar Offenders and Desistance from Crime Ben Hunter, 2015-03-24 The MPs' expenses scandal in England and Wales and the international banking crisis have both brought into focus a concern about 'elite' individuals and their treatment by criminal justice systems. This interest intersects with a well-established concern within criminology for the transgressions of such offenders. However, up until now there has been little sustained consideration of what happens to such offenders following conviction and little discussion of how they attempt to avoid reoffending in the wake of their punishment. This study rectifies this omission by drawing upon white-collar offenders' own accounts of their punishment and their attempts to make new lives in the aftermath of it. Detailing the impact of imprisonment on white-collar offenders, their release from prison and efforts to be successful again, this book outlines the particular strategies white-collar offenders used to cope with the difficulties they encountered and also analyses the ways they tried to work out 'who they were' in the post-release worlds they found themselves in. Representing the first sustained qualitative study of white-collar offenders and desistance

from crime, this book will be of interest to academics and students engaged in the study of white-collar crime, desistance from crime and prison. The insights it offers into a particular group of offenders' experience of criminal justice would also make it useful for criminal justice practitioners and anyone who wishes to understand the challenges faced by a group of offenders who are assumed to have many advantages when it comes to desisting from crime.

Mobilized by Injustice Hannah L. Walker, 2020-01-10 Activated by injustice, members of over-policed communities lead the current movement for civil rights in the United States. Responding to decades of abuse by law enforcement and an excessive criminal justice system, activists protested police brutality in Ferguson, organized against stop-and-frisk in New York City, and fueled the rise of Black Lives Matter. Yet, scholars did not anticipate this resistance, instead anticipating the political withdrawal of marginalized citizens. In *Mobilized by Injustice*, Hannah L. Walker excavates the power of criminal justice to inspire political action. Mobilization results from the belief that one's experiences are a consequence of policies that target people like one's self on the basis of group affiliation like race, ethnicity and class. In order to identify how individuals connect their experiences to a collective struggle, Walker centralizes the voices of those most impacted by criminal justice, pairing personal narratives with analysis of several surveys. She finds that the mobilizing power of the criminal justice system is broad, crosses racial boundaries and extends to the loved ones of custodial citizens. *Mobilized by Injustice* offers a compelling account of the criminal justice system as a spark for the formation of a movement with the potential to remake American politics.

The Oxford Handbook of Organized Crime Letizia Paoli, 2014-09-26 While the success of national and international law enforcement cooperation to suppress organized crime means that stable, large-scale criminal organizations like the Cosa Nostra or the Japanese Yakuza have seen their power reduced, organized crime remains a concern for many governments. Economic globalization and the easing of restrictions on exchanges across borders now provide ample opportunity for money-making activities in illegal markets. Policies designed to stop illegal market flows often shift these activities to new places or create new problems, as the U.S.- led war on drugs spread production and trafficking to a number South and Central American countries. The *Oxford Handbook of Organized Crime* provides informed, authoritative, and comprehensive overviews of these issues and other principal forms of organized crime, as well as the type and effectiveness of efforts to prevent and control them. Leading scholars from criminology,

law, sociology, history, and political science discuss the key concepts, history, and methods of organized crime; the major actors and interactions involved in it; the markets and activities frequently associated with organized crime; and the policies designed to combat it. Individual chapters on criminal organizations and specific activities or markets comprise the heart of the volume. The chapters on actors provide the history, analyze the structure and activities, and assess the strength and future prospects of each organization. Articles on particular markets address the patterns of activity, identify the most affected regions, and where possible provide estimated revenues, discuss factors promoting the activity, and disclose information on the victims and harms caused. The Oxford Handbook of Organized Crime delivers a systematic, high-quality, and truly global approach to the topic and with it a more complete understanding of organized crime in its many forms for researchers, government officials, and policymakers.

The Oxford Handbook of Crime and Public Policy Michael H. Tonry, 2011 This handbook offers a comprehensive examination of crimes as public policy subjects to provide an authoritative overview of current knowledge about the nature, scale, and effects of diverse forms of criminal behaviour and of efforts to prevent and control them.

C. Wright Mills and the Criminological Imagination Jon Frauley, 2016-03-03 In spite of its widespread use within criminology, the term 'criminological imagination', as derived from C. Wright Mills' classic *The Sociological Imagination*, has yet to be fully developed and clarified as an analytic concept capable of guiding theorizing or empirical enquiry. This volume, with a preface by Elliot Currie, engages with and reflects on this concept, exploring C. Wright Mills' work for criminological enquiry. Bringing together the latest work of leading scholars in the fields of criminology and sociology from around the world, *C. Wright Mills and the Criminological Imagination* investigates the emergence and lineage of a criminological concept indebted to Mills' thought, adapting and applying it to a specifically criminological context. With attention to theoretical concerns and, as well as the application of the criminological imagination in concrete empirical research, this volume sheds new light on the methodological and analytical aspects of the criminological imagination as a multifaceted concept and explores the possibilities that it offers for the emergence of an imaginative criminological practice. As such, it will appeal to scholars across the social sciences with interests in sociology and social theory, criminology, criminal justice studies, law and research methods.

Global Criminology and Criminal Justice Nick Larsen, Russell Smandych, 2007-12 *Global Criminology and Criminal Justice* brings together 22 articles that constitute some of the most important recent literature in the field.

Emotions in Late Modernity Roger Patulny, Alberto Bellocchi, Rebecca E. Olson, Sukhmani Khorana, Jordan McKenzie, Michelle Peterie, 2019-01-31 This international collection discusses how the individualised, reflexive, late modern era has changed the way we experience and act on our emotions. Divided into four sections that include studies ranging across multiple continents and centuries, *Emotions in Late Modernity* does the following: Demonstrates an increased awareness and experience of emotional complexity in late modernity by challenging the

legal emotional/rational divide; positive/negative concepts of emotional valence; sociological/philosophical/psychological divisions around emotion, morality and gender; and traditional understandings of love and loneliness. Reveals tension between collectivised and individualised-privatised emotions in investigating 'emotional sharing' and individualised responsibility for anger crimes in courtrooms; and the generation of emotional energy and achievement emotions in classrooms. Debates the increasing mediation of emotions by contrasting their historical mediation (through texts and bodies) with contemporary digital mediation of emotions in classroom teaching, collective mobilisations (e.g. riots) and film and documentary representations. Demonstrates reflexive micro and macro management of emotions, with examinations of the 'politics of fear' around asylum seeking and religious subjects, and collective commitment to climate change mitigation. The first collection to investigate the changing nature of emotional experience in contemporary times, *Emotions in Late Modernity* will appeal to students and researchers interested in fields such as sociology of emotions, cultural studies, political science and psychology.
