**Apps en neurorrehabilitación** Cano de la Cuerda, Roberto, Collado Vázquez, Susana, Sánchez Rodríguez, María Teresa, Martín Casas, Patricia, 2016 En los últimos años se han venido desarrollando tecnologías para proporcionar al paciente neurológico los elementos clave de un adecuado programa de neurorrehabilitación, y se han constituido como posibles medidas coadyuvantes del tratamiento. En este contexto, el sector sanitario tiene la posibilidad de transformarse para ofrecer servicios más individualizados, participativos y preventivos, mediante las posibilidades terapéuticas de dispositivos y tecnologías de bajo coste y fácil empleo, como son las aplicaciones móviles. El término app es una abreviatura de la palabra en inglés “application”. Se trata de un programa, con unas características especiales, que se instala en un dispositivo móvil, ya sea tableta digital o teléfono inteligente, y que suele tener un tamaño reducido, para adaptarse a las limitaciones de potencia y almacenamiento de dichos dispositivos. El objetivo de una app es facilitar la consecución de una tarea determinada o asistir en operaciones y gestiones diarias, siendo el tacto el modo de interacción entre el usuario y la aplicación. El fenómeno de las aplicaciones móviles resulta muy prometedor, y aporta una nueva visión de la concepción del cuidado de la salud, tanto para el profesional como para el paciente. Es por ello que en el presente libro se expondrán aplicaciones móviles de interés en el campo de la neurorrehabilitación, aportando información de interés para profesionales sanitarios, pacientes, cuidadores y gestores en salud. *Sports around the World [4 volumes]* John

Nauright, 2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. Sports Around the World: History, Culture, and Practice provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the

Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie Rocky to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume Sports Around the World spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

Red Star Airacobra Evgeniy Mariinskiy, 2006

Evgeniy Mariinskiy, a Soviet fighter ace and Hero of the Soviet Union, shot down 20 enemy planes in aerial combat over the Eastern Front between 1943 and 1945. He frequently engaged enemy fighters and bombers, shot down many but was himself shot down several times. This is his extraordinary story. His vivid inside view of the ruthless war in the air on the Eastern Front gives a rare insight into the reality of fighting and tactics of the Red Army Air Force. In his own words, and with a remarkable clarity of recall, Evgeniy Mariinskiy describes what combat was like in the air, face to face with a skilled, deadly and increasingly desperate enemy. The reader can follow his career from an unskilled novice who has just arrived at his regiment through to him becoming an ace, and Hero of the Soviet Union, under the leadership of experienced commanders. The terrifying moments of action, engagements with enemy fighters, forced landings, nervous strain before attacks, loss of comrades and everyday life of pilots - all these aspects of a Soviet fighter pilot's experience during the Great Patriotic War are brought dramatically to life in his memoirs. In his memoirs Mariinskiy describes tactics which enabled him to have an upper hand in dogfights against experienced German pilots. The grand strategy of the campaigns across the Eastern Front is less important here than the sequence of engagements that were the firsthand experience of the author. It is this close-up view of combat that makes Evgeniy Mariinskiy's reminiscences of such value. Key sales points: A gripping and superbly readable memoir of the war in the air over the Eastern Front 1943-45, penned by a Hero of the Soviet Union and air ace credited with 20 victories / Covers the author's full aviation career including

training and his initial experiences over the front, as well as his increasingly successful combat with a skilled enemy / Evgeniy Mariinskiy served with the 129th Guards Fighter Regiment 1943-45, undertaking 210 sorties, participating in 60 air-to-air engagements and shooting down 20 enemy aircraft. In 1945 he was awarded the Gold Star of Hero of the Soviet Union.

*Chess Results, 1975–1977* Gino Di Felice, 2014-09-11 This continuation of a series of comprehensive chronological reference works lists the results of men's chess competitions all over the world—individual and team matches. The present volume covers 1975 through 1977. Entries record location and, when available, the group that sponsored the event. First and last names of players are included whenever possible and are standardized for easy reference. Compiled from contemporary sources such as newspapers, periodicals, tournament records and match books, this work contains 872 tournament cross tables and 147 match scores, and is indexed by events and by players.

**An Anthology of Jewish-Russian Literature** Maxim D. Shrayer, 2015-03-26 This definitive anthology gathers stories, essays, memoirs, excerpts from novels, and poems by more than 130 Jewish writers of the past two centuries who worked in the Russian language. It features writers of the tsarist, Soviet, and post-Soviet periods, both in Russia and in the great emigrations, representing styles and artistic movements from Romantic to Postmodern. The authors include figures who are not widely known today, as well as writers of world renown. Most of the works appear here for

the first time in English or in new translations. The editor of the anthology, Maxim D. Shrayer of Boston College, is a leading authority on Jewish-Russian literature. The selections were chosen not simply on the basis of the author's background, but because each work illuminates questions of Jewish history, status, and identity. Each author is profiled in an essay describing the personal, cultural, and historical circumstances in which the writer worked, and individual works or groups of works are headnoted to provide further context. The anthology not only showcases a wide selection of individual works but also offers an encyclopedic history of Jewish-Russian culture. This handsome two-volume set is organized chronologically. The first volume spans the nineteenth century and the first part of the twentieth century, and includes the editor's extensive introduction to the Jewish-Russian literary canon. The second volume covers the period from the death of Stalin to the present, and each volume includes a corresponding survey of Jewish-Russian history by John D. Klier of University College, London, as well as detailed bibliographies of historical and literary sources.

Multicomponent Phase Diagrams: Applications for Commercial Aluminum Alloys Nikolay A. Belov, Dmitry G. Eskin, Andrey A. Aksenov, 2005-07-01 Despite decades of extensive research and application, commercial aluminum alloys are still poorly understood in terms of the phase composition and phase transformations occurring during solidification, cooling, and heating.

Multicomponent Phase Diagrams: Applications for Commercial Aluminum Alloys aims to apply multi-component phase diagrams to commercial aluminum alloys, and give a comprehensive coverage of available and assessed phase diagrams for aluminum-based alloy systems of different dimensionality. Features data on non-equilibrium

phase diagrams, which can rarely be obtained from other publications. Extensive coverage of all groups of commercially important alloys and materials.
