Me and that Extra "N" Nivedita Basu,2016-08-24 What happens when Netra's best friend lays her hands on Netra's chronicles and Netra is taken in for a roller-coaster ride through her past? What happens when the doe-eyed egotist revisits the ravines of lost love, failed relations, teenage highs and the pangs of the green something? What happens when the happy-go-lucky damsel relives the bliss of friendship, her first love and all those prized moments that life gave her? Has she been able to stand the test of time? Will recrudescence to her past leave her high and dry or will she bask in the glory of fulfillment?

The Technical (T)error Rohit Ashok Kothari,2023-10-09 The Technical (T)Error is a book that transports you to the new age of technology we live in. It delves into an era where everything is effortlessly available and easily accessible. The book highlights the comfort that progressive programming and day-to-day tech upgrades have brought into our lives. But, on the flip side, it also emphasizes how our excessive reliance on technology has rendered our minds less productive, our hearts devoid of emotions, and the human connections fading with each passing day. Has this tech-savvy world taken a lot from us as humans? Or is it really the way, as technology suggests, for the betterment of society? Technology has always come with a question mark for me – has it been a curse or a boon to society? The interesting aspect is that, without actively seeking answers, we humans have consistently embraced technological advancements with open arms, often without pondering the potential repercussions. The book makes us think – whether technology has been correctly used as a tool as it is meant to be, or whether we are posing threats to ourselves through over-dependency, ultimately leading to nothing but termination. The addiction to technology, often under the guise of making life simple, reaches a point of no return, and, unfortunately, there is no rehab for it. And that's not all; the additional threats associated with this rapidly evolving technology compel us to reflect on the wisdom of our esteemed predecessors who said, 'Nothing comes easy, and there are no shortcuts to success.' Isn't this contrary to today's lifestyle, largely due to these tech gizmos? To think is our right, and we should know what and how much is right.

Identitti Mithu Sanyal,2022-09-01 THE SELLOUT meets INTERIOR CHINATOWN in this satirical debut about race, sexuality and truth. German-Polish-Indian student Nivedita's world is upended when she discovers that her beloved professor who passed for Indian was born white. Nivedita (a.k.a. Identitti), a doctoral student who blogs about race with the help of Hindu goddess Kali, is in awe of Saraswati, her outrageous superstar post-colonial and race studies tutor. But Nivedita's life and sense of self begin to unravel when it emerges that Saraswati is actually white. Hours before she learns the truth Nivedita praises her tutor in a radio interview, jeopardising her own reputation and igniting an angry backlash among her peers and online community. Dumped by her boyfriend and disowned by her friends in the uproar, Nivedita is drawn to her supervisor in search of answers not only about Saraswati's identity, but also around her own. In her thought-provoking, complex and genre-bending debut, Mithu Sanyal collages commentary from real-life intellectuals, blogs, articles, race theory and academic warfare, combining campus novel and coming-of-age drama. A darkly comedic tour de force astutely translated by Alta L. Price, Identitti showcases the outsized

power of social media in the current debates around identity politics and the power of claiming your own voice.

The Result of Misunderstanding Shirsh Srivastava,2019-12-16 Welcome to The Result of Misunderstanding, a gripping story of two friends Rohit and Nivedita but the beautiful relation died due to the misunderstanding of the society and the name which they gave is Lust. Misunderstanding danced along with ill logical and nonsense stuff on a naked platform and the result was that the beautiful bonding of friendship was turned into an ugly faded relation and due to that even their blood relation shattered. We have to understand that it is not necessary that your life partner will be your best friend and your best friend will be your partner of life, because both relationships are very different and very honest, just like two holy rivers whose stream is different but they meet in the same ocean.

Carbohydrates in Drug Discovery and Development: Synthesis and Applications examines recent and notable developments in the synthesis, biology, therapeutic, and biomedical applications of carbohydrates, which is considered to be a highly promising area of research in the field of medicinal chemistry. Their role in several important biological processes, notably energy storage, transport, modulation of protein function, intercellular adhesion, malignant transformation, signal transduction, viral, and bacterial cell surface recognition formulate the carbohydrate systems to be an exceedingly considerable scaffold for the development of new chemical entities of pharmacological importance. At Crossroads Nivedita Sahoo, 2015-07-28 It is a fragmented tale of Nora and Bee, whose attitude to life is not in conformity with social values and parental wishes. Being adults and financially independent, they live the life of their choice and enjoy their freedom and brook no interference in their privacy. They drink, attend late-night parties, and visit places and face life as it comes to them. Consider them as spoiled brats, reckless and irresponsible; call them by any name and blame their parents for their inability to rein the unrestrained freedom of their children, but they possess unique feminine sensibility and human qualities that make them appear real and one among us. They are the product of a society in transition. They are characters one would love to hate but one could not ignore them. The mixing up of personal and professional life makes the story humorous and interesting.

First Light Sunil Gangopadhyay, 2000-12-01 The sequel to the award-winning and critically-acclaimed *Those Days*, *First Light* is a magnificent novel set at the turn of the twentieth century in a Bengal where the old and young India are jostling for space. Prominent among its many characters are Rabindranath Tagore or Robi, the young, dreamy poet, torn between his art and the love for his beautiful, ethereal sister-in-law, Kadambari Devi, and the handsome, dynamic Naren Datta, later to become Swami Vivekananda, who abandons his Brahmo Samaj leanings and surrenders himself completely to his Guru, Sri Ramakrishna. The story also touches upon the lives of the men and women rising to the call of nationalism; the doctors and scientists determined to pull their land out of the morass of superstition and blind beliefs, and the growing theatre movement of Bengal, with its brilliant actors and actresses who leave behind the squalor of their lives every night to deliver lines breathtaking in their beauty. Through all this runs the story of Bharat and Bhumisuta - one an illegitimate prince, the other a slave who rises to become the finest actress of her age - who cling to their self-respect and love in a society which has little time for people like them. Grand in its scale and crackling with the energy of its prose, *First Light* is a rich and comprehensive portrait of Bengal, from its sleepy, slow-changing villages to the bustling city of Calcutta where the genteel and the grotesque live together. Equally, it is a chronicle of a whole nation waking up to a new, modern sensibility.

The World in a Grain of Sand Nivedita Majumdar,2021-05-25 Radical universalism vs postcolonial theory The World in a Grain of Sand offers a framework for reading literature from the global South that goes against the grain of dominant theories in cultural studies, especially, postcolonial theory. It critiques the valorization of the local in cultural theories typically accompanied by a rejection of universal categories - viewed as Eurocentric projections. But the privileging of the local usually amounts to an exercise in exoticization of the South. The book argues that the rejection of Eurocentric theories can be complemented by embracing another, richer and non-parochial form of universalism. Through readings of texts from India, Sri Lanka, Palestine and Egypt, the book shows that the fine grained engagement with culture, the mapping of ordinary lives not just as objects but subjects of their history, is embedded in much of postcolonial literature in a radical universalism - one that is rooted in local realities, but is able to unearth in them the needs, conflicts and desires that stretch across cultures and time. It is a universalism recognized by Marx and steeped in the spirit of anti-colonialism, but hostile to any whiff of exoticism.
