Nobel Prizes and Notable Discoveries Erling Norrby, 2016-09-06 This is the third book in a series presenting Nobel Prizes in the life sciences using the remarkably rich archives of nominations and reviews which are kept secret for 50 years after the awards have been made. The two previous books are Nobel Prizes and Life Sciences (2010) and Nobel Prizes and Nature's Surprises (2013). The present book discusses the prizes in physiology or medicine 1963–65. The 1963 prize recognized milestone discoveries in the field of neurosciences, the way electrical impulses are generated and spread in nerves. The impressive developments of insights into tantalizing brain functions, like consciousness and memory, is discussed in the perspective of prizes both before and after the 1963 prize. The prize in 1964 marked the advanced biochemical venture that led to a full understanding of the synthesis of cholesterol, a central molecule for providing flexibility of the membranes of the trillions of cell in our body. The importance of this molecule for the appearance of cardiovascular diseases and the possibilities to prevent them is presented in the light of other prizes earlier and later in this field. The 1965 prize recognized three impressive French intellectuals, Lwoff, Monod and Jacob. Their contributions allowed the full maturation of the initial phase of the emerging field of molecular biology. The comprehension of the information flow from DNA via RNA to proteins was the source of a revolution of life sciences and of medicine.

Intellectual Capital Tom Karier, 2010-08-30 There is arguably no award more recognized in the academic and professional worlds than the Nobel Prize. The public pays attention to the prizes in the fields of economics, literature, and peace because their recipients are identified with particular ideas, concepts, or actions that often resonate with or sometimes surprise a global audience. The Nobel Prize in Economic Science established by the Bank of Sweden in 1969 has been granted to 64 individuals. Thomas Karier explores the core ideas of the economic theorists whose work led to their being awarded the Nobel in its first forty years. He also discusses the assumptions and values that underlie their economic theories, revealing different and controversial features of the content and methods of the discipline. The Nobelists include Keynesians, monetarists, financial economists, behaviorists, historians, statisticians, mathematicians, game theorists, and other innovators.

My Dog Ate My Nobel Prize Jeff Martin, 2009-08-18 Jeff Martin was born in 1980. Jeff Martin made millions on the stock market. Jeff Martin lost millions on the stock market. Jeff Martin stopped a Chinese tank at Tiananmen Square. Jeff Martin managed Michael Dukakis's 1988 presidential campaign. Jeff Martin co-wrote Aliens 2: More Aliens with James Cameron. Jeff Martin had a torrid and brief creative relationship with Disney's animation department. Jeff Martin disguised himself as a midget, joined NASA, and became the first-ever child in space, all in tribute to the Challenger space shuttle tragedy. Such is only a sample of the amazing life of Jeff Martin, a modern-day renaissance man/child, adept at everything, and uniquely attuned to the goings-on of our evolving planet. He is equal parts Doogie Howser and Forest Gump — as likely to break an age barrier as to coincidentally find himself in the trenches of history. Get ready for a groundbreaking memoir overflowing with action, history, social commentary, and unchecked facts. Along the way, there will be love, loss, cool drawings from Truth Serum cartoonist Jon Adams, and some more unchecked facts. And as a free promotion, we're offering a money-back guarantee that this book will not disgrace Oprah.

3 Books To Know Nobel Prize in Literature Paul Heyse, Rudyard Kipling, Anatole France, August Nemo, 2020-05-02 Welcome to the 3 Books To Know series, our idea is to help readers learn about fascinating topics through three essential and relevant books. These carefully selected works can be

fiction, non-fiction, historical documents or even biographies. We will always select for you three great works to instigate your mind, this time the topic is: Nobel Prize in Literature. - *The Children of the World* by Paul Heyse. - *Kim* by Rudyard Kipling. - *Thais* by Anatole France. Paul Heyse was a distinguished German writer and translator. He was awarded the Nobel Prize for Literature in 1910 as a tribute to the consummate artistry, permeated with idealism, which he has demonstrated during his long productive career as a lyric poet, dramatist, novelist and writer of world-renowned short stories. Rudyard Kipling was an English journalist, short-story writer, poet, and novelist. Kipling in the late 19th and early 20th centuries was among the United Kingdom's most popular writers. Henry James said, Kipling strikes me personally as the most complete man of genius, as distinct from fine intelligence, that I have ever known. In 1907, he was awarded the Nobel Prize in Literature, as the first English-language writer to receive the prize, and at 41, its youngest recipient to date. Anatole France was a French poet, journalist, and novelist with several best-sellers. Ironic and skeptical, he was considered in his day the ideal French man of letters. He was a member of the Académie française, and won the 1921 Nobel Prize in Literature in recognition of his brilliant literary achievements, characterized as they are by a nobility of style, a profound human sympathy, grace, and a true Gallic temperament. This is one of many books in the series 3 Books To Know. If you liked this book, look for the other titles in the series, we are sure you will like some of the topics.

Special attention is given to new perspectives on Shakespearean criticism, theories of the novel and models of the literary canon. The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools. Unlike most guides to modern literary theory, its focus is firmly on developments within the English speaking world.

The Noble Hustle Colson Whitehead, 2015-03-03 From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys* • “Whitehead proves a brilliant sociologist of the poker world.” —The Boston Globe In 2011, *Grantland* magazine gave bestselling novelist Colson Whitehead \$10,000 to play at the World Series of Poker in Las Vegas. It was the assignment of a lifetime, except for one hitch—he’d never played in a casino tournament before. With just six weeks to train, our humble narrator took the Greyhound to Atlantic City to learn the ways of high-stakes Texas Hold’em. Poker culture, he discovered, is marked by joy, heartbreak, and grizzled veterans playing against teenage hotshots weaned on Internet gambling. Not to mention the not-to-be overlooked issue of coordinating Port Authority bus schedules with your kid’s drop-off and pickup at school. Finally arriving in Vegas for the multimillion-dollar tournament, Whitehead brilliantly details his progress, both literal and existential, through the event’s antes and turns, through its gritty moments of calculation, hope, and spectacle. Entertaining, ironic, and strangely profound, this epic search

for meaning at the World Series of Poker is a sure bet. Look for Colson Whitehead's bestselling new novel, *Harlem Shuffle*!

As governments try to cope with fiscal pressures, legalized casinos offer a possible source of additional tax revenue. But casino gambling is often controversial, as some people have moral objections to gambling. In addition, a small percentage of the population may become pathological gamblers who may create significant social costs. *The Economics of Casino Gambling* is a comprehensive discussion of the social and economic costs and benefits of legalized gambling. It is the first comprehensive discussion of these issues available on the market.

The Nobel Peace Prize Emil Bobi, 2015-10-10 For more than a hundred years, the Nobel Prizes have been the world's most well-respected awards. The announcement of the winners of the Nobel Peace Prize regularly causes astonished or even disapproving reactions. How can people become laureates who are not publicly perceived as peacekeepers or -builders, but rather as war criminals? Journalist Emil Bobi investigates the truth behind the imperial setting of the Nobel Foundation and asks inconvenient questions about the handling of Alfred Nobel's money and last will. What lies beneath the selection of winners? There's a massive scandal going on right beneath the award's shiny surface. Corrupt practices and accusations about

the abuse of the foundation's money are threatening the future of the renowned award. A million-dollar-lawsuit is under way and the powerful Nobel Foundation is nervously working all angles to prevent investigations and ban them by law. Authorities and the government are trying their best to avoid dealing with the case. It's time to scrutinize and reconsider a national treasure. Emil Bobi has travelled to Stockholm and Oslo to talk to awardees, members of the foundation, politicians, members of authorities, advocates and opponents. The result is a shocking story of politics and crime.

Readers will come away with a better-informed opinion on the merits of these arguments for and against public policies that would expand casino gambling.

Winner Takes All Christina Binkley, 2018-11-06 From Pulitzer Prize-winning journalist and culture critic Christina Binkley comes an updated edition of her New York Times bestselling account of sex, drugs, and the rise of Las Vegas. With a new prologue on the rise and fall of Steve Wynn. The Strip. Home to some of the world's grandest, flashiest, and most lucrative casino resorts, Las Vegas, with its multitude of attractions, draws millions of tourists from around the world every year. But Sin City hasn't always been booming: modern Vegas exists largely thanks to the extraordinary vision, and remarkable hubris, of three competing business moguls: Kirk Kerkorian, Dr. Gary Loveman, and Steve Wynn. And in the wake of #MeToo revelations, not all empires survive. Having had personal access to all three tycoons, Binkley explains how their audacious efforts to reach the top-and to top one another-shaped the city as it stands. She takes us inside their grandest schemes, their riskiest deals, and the personalities that drove them to their greatest successes, and their most painful defeats. In this updated edition, she reveals the inside story of how Steve Wynn, the winner who took all, ultimately lost everything-twice. Sharp, insightful, and revealing, *Winner Takes All* is the gripping story of how billions of dollars and the unparalleled drive for power turned dreams into larger-than-life reality. It's a great drama on the greatest stage. . . Wynn, Kerkorian, and Loveman represent three opposing business personalities, three styles of achieving success. On the Vegas Strip, they're pitted against one another like gladiators, and we've got front-row seats. Kapow! - bestselling author Po Bronson
