Doing Business 2015 World Bank, 2014-10-24 Twelfth in a series of annual reports comparing business regulation in 189 economies, Doing Business 2015 measures regulations affecting 10 areas of everyday business activity: Starting a business Dealing with construction permits Getting electricity Registering property Getting credit Protecting minority investors Paying taxes Trading across borders Enforcing contracts Resolving insolvency Labor market regulations This year's report will present data for a second city for the 11 economies with more than 100 million inhabitants. These are Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation, and the United States. Three of the 10 topics covered have been expanded, with further plans to expand on five additional indicators in next year's report. Additionally, the Doing Business rankings are now based on the distance to the frontier measure where each economy is evaluated based on how close their business regulations are to the best global practices. This provides a more precise view of each economy's performance and its improvement over time. The report updates all indicators as of June 1, 2014, ranks economies on their overall 'ease of doing business,' and analyzes reforms to business regulation identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank and IFC that garners worldwide attention on regulatory barriers to entrepreneurship. More than 60 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,000 articles in peer-reviewed academic journals since its inception.

Creative Economy in a Postsocialist Transitional Context Nikola Jocić, 2019-05-21

Entrepreneurship in Central and Eastern Europe Tõnis Mets, Arnis Sauka, Danica Purg, 2018-03-14 The process of the transition to a market-oriented economy for countries from Central and Eastern Europe (CEE) and the Commonwealth of Independent States (CIS) started some 25 years ago. A new technology base triggered the fast growth of new investments into intangible assets by global economic leaders at the beginning of the 1990s, providing the basis for a move towards a knowledge economy. During the past 25 years, entrepreneurs in CEE and the CIS have reshaped traditional industries and created new industries, combining innovative ideas with traditional competencies. Yet we still do not know very much about how and why companies led by entrepreneurs develop, how they expand globally and what the role of new knowledge and innovation is in the internationalization process. Understanding the pathways of entrepreneurial development, especially growth through internationalization, is important for the overall development of countries in transition and beyond. *Entrepreneurship in Central and Eastern Europe: Development through Internationalization* provides an overview of entrepreneurship in a range of important emerging markets. This book aims to fill the gap in the literature by providing up-to-date data and case-based evidence. With coverage of a range of national firms from countries including Belarus, Estonia, Hungary, Poland, Latvia, Lithuania, Serbia, Slovakia, Slovenia and Ukraine, this book will be vital supplementary reading around international entrepreneurship and essential reading for those studying the business environment in this vital emerging market.

Circle of Stars Dermot Hodson, 2023-11-07 A compelling new history of the EU and the people who sought to shape and challenge it—from Maastricht to today The European Union is the most ambitious, and one of the most contentious, international organizations ever created. Decisions made in Brussels shape the lives of over 500 million Europeans, and its laws and policies resonate around the world. But how has the EU endured over three turbulent decades marred by crises at home and abroad? In this major account, Dermot Hodson traces the development of the EU from its establishment in 1993 through to Brexit, Covid-19, and the invasion of Ukraine. Hodson shows how the union has been held together not by faceless technocrats but national leaders who stood together in times of turmoil despite a fierce backlash from a new generation of right-wing populists. Circle of Stars offers a rich appraisal of Europe's troubled past and turbulent present—focusing on the people who built the EU as we know it today.
