Comparative Law for Spanish–English Speaking Lawyers S.I. Strong, Katia Fach Gómez, Laura Carballo Piñeiro, 2016-11-25 Comparative Law for Spanish–English Speaking Lawyers provides practitioners and students of law, in a variety of English- and Spanish- speaking countries, with the information and skills needed to successfully undertake competent comparative legal research and communicate with local counsel and clients in a second language. Written with the purpose of helping lawyers develop the practical skills essential for success in today's increasingly international legal market, this book aims to arm its readers with the tools needed to translate unfamiliar legal terms and contextualize the legal concepts and practices used in foreign legal systems. Comparative Law for Spanish–English Speaking Lawyers / Derecho comparado para abogados anglo- e hispanoparlantes, escrita en inglés y español, persigue potenciar las habilidades lingüísticas y los conocimientos de derecho comparado de sus lectores. Con este propósito, términos y conceptos jurídicos esenciales son explicados al hilo del análisis riguroso y transversal de selectas jurisdicciones hispano- y angloparlantes. El libro pretende con ello que abogados, estudiantes de derecho y traductores puedan trabajar en una segunda lengua con solvencia y consciencia de las diferencias jurídicas y culturales que afectan a las relaciones con abogados y clientes extranjeros. La obra se complementa con ejercicios individuales y en grupo que permiten a los lectores reflexionar sobre estas divergencias.

Iter Italicum Paul Oskar Kristeller, 1963 The *Iter Italicum* serves as a useful reference work for scholars in the history of philosophy, the sciences, classical learning, grammar and rhetoric, Neolatin literature, historiography of the theory of the arts and of music and related subjects. By scanning the volume or through this index, scholars will be able to find source material for individual writers as well as for certain subjects, problems or themes. By indicating for each manuscript its location and shelf-mark, scholars will find it easier to order microfilms or to pursue more detailed studies of some of the manuscripts listed. The volumes should also prove useful for librarians as a reference for the holdings of their own or other libraries.

Iter Vaticanum Franciscanum Etzkorn, 2021-12-06 The Vatican Library's Vaticanus Latinus collection is one of its largest holdings. The majority of the codices between the shelf numbers 3000 and 9000 remain as yet to be cataloged according to modern standards. Professor Girard Etzkorn has cataloged over one hundred of these manuscripts, selecting principally those pertaining to Franciscan authors and Franciscan history between the thirteenth and fifteenth centuries. He has successfully identified the authors of many treatises and sometimes

entire works which were hitherto 'anonymous'. While the Iter Vaticanum Franciscanum focuses principally on manuscripts dealing with philosophy and theology, there are also codices which transmit texts on medieval astronomy, medicine, Canon Law, as well as numerous sermons, many of which have until now been unknown. The format of this catalog comprises three (sometimes four) categories: 1) the description, 2) a list of published editions, 3) annotations of historical, biographical or bibliographical importance noted in the codex and 4) a bibliography of 'post-medieval' books and articles about the codex and/or its contents.

Meaning and Inference in Medieval Philosophy Norman Kretzmann, 2012-12-06 The studies that make up this book were written and brought together to honor the memory of Jan Pinborg. His unexpected death in 1982 at the age of forty-five shocked and saddened students of medieval philosophy everywhere and left them with a keen sense of disappointment. In his fifteen-year career Jan Pinborg had done so much for our field with his more than ninety books, editions, articles, and reviews and had done it all so well that we recognized him as a leader and counted on many more years of his scholarship, his help, and his friendship. To be missed so sorely by his international colleagues in an academic field is a mark of Jan's achievement, but only of one aspect of it, for historians of philosophy are not the only scholars who have reacted in this way to Jan's death. In his decade and a half of intense productivity he also acquired the same sort of special status among historians of linguistics, whose volume of essays in his memory is being G. L. Bursill-Hall almost simultaneously published under the editorship of Sten Ebbesen, Jan's student, colleague, and successor as Director of the Institute of Medieval Greek and Latin Philology at the University of Copenhagen, has earned the gratitude of all of us by memorializing Jan in various biographical sketches, one of which is accompanied by a complete bibliography of his publications.

Business Torts Daller, 2015-12-21 There is a great wealth of diversity in the business tort laws of all fifty states and the District of Columbia. In addition to the very significant differences in the statutes of limitation, other significant differences include: Some states have not recognized a cause of action for negligent interference with an economic advantage. Negligent misrepresentation in one state is limited to claims against persons in the business of supplying information to others. One state recognizes a cause of action for "strict responsibility misrepresentation." Another state recognizes claims of "prima facie tort" for wrongs that do not fit into traditional tort categories. And these are only a few examples of the more significant differences. The new 2016 Edition of Business Torts: A Fifty-State Guide helps you quickly assess the merits and pitfalls of litigation in any given jurisdiction allowing you to make the best decisions for your clients.

Business Torts MORTON F. DALLER, Nicholas Daller, 2021-12-16 *Business Torts: A Fifty State Guide, 2022 Edition* provides the most recent statutory and case law developments on business torts laws for each of the fifty states and the District of Columbia. Practitioner-oriented, and written by leading state experts, each chapter summarizes the variants and developments particular to a specific state jurisdiction. You will find detailed coverage of each state's standards regarding: misappropriation of trade secrets; tortious interference with contracts; fraud and misrepresentation; trade libel and commercial disparagement; breach of fiduciary duty; officers and directors liability; conversion; unfair competition, fraudulent transfer; economic loss; and statutes of limitation. The 2022 Edition incorporates recent changes in the law of the various states, including: The South Carolina Supreme Court held that plaintiffs are no longer required to plead special damages for civil conspiracy claims. The Maine Legislature passed a new law restricting an Employer's use of non-compete agreements and subjecting violations of this new law to a \$5,000 fine. The Iowa Supreme Court refused to recognize that a pastor owes a fiduciary duty to a plaintiff, as the Court would have to refer to church doctrines and practices in making that assessment, which the Court held was beyond their authority. The 6th Circuit Court of Appeals held that the Uniform Voidable Transactions Act, as adopted in part by Michigan, allows a creditor to void a fraudulent disposal of property belonging to a person who is liable on a claim. State Laws Included: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

De Proportionibus Johannes Ciconia, 1993-01-01 Johannes Ciconia (ca. 1370?1412) is well known today as a composer both of sacred and secular music, but his theoretical works, probably written in Padua during the first decade of the fifteenth century, have until now been available only in manuscript form. This is the first complete edition of both of Ciconia's theoretical works: the *Nova musica*, with its attendant *De tribus generibus melorum*, and the shorter *De proportionibus*, itself a revision of the third book of the *Nova musica*. The *Nova musica* is unique as the only large-scale speculative work of the period known to have been written by an accomplished composer. The purpose of the work, clearly stated by Ciconia in the prologue, is to return to the writings of earlier authors (through the eleventh century) and, with their material as a basis, to redefine the scope of the discipline of music so that it may be classified and may function as one of the literary arts, in addition to its usual standing as a mathematical discipline. The first three books consist largely of quotations from earlier authors, covering the topics of consonance (intervals and the scale), species (modes), and proportions. Much of this material parallels large sections of the famous *Lucidarium* of Marchetto of Padua. In the fourth and final book, Ciconia demonstrated how, by means of the material already presented, chants can be classified and declined or parsed according to the principles of grammar. This new view of music can be regarded as a clear indication of the new humanistic approach to the arts. Two plates and more than one hundred figures illustrate the edition. The plates provide representative and contrasting examples of the handwriting and format of the illustrations in two of the principal sources.

Humanism and Education in Medieval and Renaissance Italy Robert Black, 2001-09-20 Based on the study of over 500 surviving manuscript school books, this comprehensive 2001 study of the curriculum of school education in medieval and Renaissance Italy contains some surprising conclusions. Robert Black's analysis finds that continuity and conservatism, not innovation, characterize medieval and Renaissance teaching. The study of classical texts in medieval Italian schools reached its height in the twelfth century; this was followed by a collapse in the thirteenth century, an effect on school teaching of the growth of university education. This collapse was only gradually reversed in the two centuries that followed: it was not until the later 1400s that humanists began to have a significant impact on education. Scholars of European history, of Renaissance studies, and of the history of education will find that this deeply researched and broad-ranging book challenges much inherited wisdom about education, humanism and the history of ideas.

Quantifying Aristotle ,2022-06-08 This book offers an entirely new perspective on the alleged incompatibility between Aristotelian philosophy and the mathematical methods and principles that form the basis of modern science. It surveys the tradition of the Oxford Calculators from its beginnings in the fourteenth century until Leibniz and the philosophy of the seventeenth century and explores how their various techniques of quantification expanded the conceptual and methodological limits of Aristotelianism.
