**The Old Man and the Sea** Gary Carey,Cliffs Notes, Inc,1973 This is the Nobel Prize-winning author's powerful story of an old man who conquers a magnificent fish, endures its heartbreaking loss, and rises gallantly above his defeat. Though it is a small book, it is a jewel.

*Creativity, Inc. (The Expanded Edition)* Ed Catmull,Amy Wallace,2014-04-08 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Squirrel Inc. Stephen Denning, 2004-05-12 Take a satirical scamper through organizational life in the midst of changing times, brought to you by master storyteller and former World Bank executive Steve Denning. With wisdom and a healthy dose of wit, Denning introduces a cast of furry characters who together learn the fine art of change through storytelling in their quest to overcome obstacles, generate enthusiasm and teamwork, share knowledge, and ultimately lead their company into a new era of success and significance. Through the stories of Squirrel Inc., readers will learn that the ability to tell the right story at the right time can determine the outcome of any major change effort. In each chapter Denning's squirrels learn to use storytelling to address leadership challenges: How to bring about change How to communicate who you are How to transmit values How to foster collaboration How to stop rumors How to share knowledge How to lead your organization into the future
