Huangqi Zhang

*Invisible Men* Nandini Krishnan, 2018 Female-to-male transgender people, or transmasculine people as they are called, are just beginning to form their networks in India. But their struggles are not visible to a gender-normative society that barely notices, much less acknowledges, them. While transwomen have gained recognition through the extraordinary efforts of activists and feminists, the brotherhood, as the transmasculine network often refers to itself, remains imponderable, diminished even within the transgender community. For all intents and purposes, they do not exist. In a country in which parents wish their daughters were sons, they exile the daughters who do become sons. In this remarkable, intimate book, Nandini Krishnan burrows deep into the prejudices encountered by India's transmen, the complexities of hormonal transitions and sex reassignment surgery, issues of social and family estrangement, and whether socioeconomic privilege makes a difference. With frank, poignant, often idiosyncratic interviews that braid the personal with the political, the informative with the offhand, she makes a powerful case for inclusivity and a non-binary approach to gender. Above all, she asks

the question: what does manhood really mean?

*We are Not the Others* Kalki Subramaniam, 2021

Transmedia and Public Representation Leandra H Hernandez, Magalí Daniela Pérez

Riedel, Amanda R Martinez, 2021 This book investigates how contemporary media represent transgender and gender non-conforming people. Authors in this edited collection analyze the most popular films and television shows of all times and find how much (and how little) media portrayals of trans folks have changed or remained stagnant in the past 20 years.

Refashioning India Maitrayee Chaudhuri, 2017

Trans Narratives Ana Horvat, Orly Lael Netzer, Sarah McRae, 2023-09-25 This book aims to understand through life writing and its theory what trans means when we talk about identities and bodies, and to understand better what the critical terms transmedia and transnational can mean for the field of life writing.

*Religion, Media, and Marginality in Modern Africa* Felicitas Becker, Joel Cabrita, Marie

Rodet,2018-02-02 In recent years, anthropologists, historians, and others have been drawn to study the profuse and creative usages of digital media by religious movements. At the same time, scholars of Christian Africa have long been concerned with the history of textual culture, the politics of Bible translation, and the status of the vernacular in Christianity. Students of Islam in Africa have similarly examined politics of knowledge, the transmission of learning in written form, and the influence of new media. Until now, however, these arenas—Christianity and Islam, digital media and “old” media—have been studied separately. Religion, Media, and Marginality in Modern Africa is one of the first volumes to put new media and old media into significant conversation with one another, and also offers a rare comparison between Christianity and Islam in Africa. The contributors find many previously unacknowledged correspondences among different media and between the two faiths. In the process they challenge the technological determinism—the notion that certain types of media generate particular forms of religious expression—that haunts many studies. In evaluating how media usage and religious commitment intersect in the social, cultural, and political landscapes of modern Africa, this

collection will contribute to the development of new paradigms for media and religious studies.

Contributors: Heike Behrend, Andre Chappatte, Maria Frahm-Arp, David Gordon, Liz Gunner, Bruce S. Hall, Sean Hanretta, Jorg Haustein, Katrien Pype, and Asonzeh Ukah.

Servants of Globalization Rhacel Parreñas, 2015-08-26 *Servants of Globalization* offers a groundbreaking study of migrant Filipino domestic workers who leave their own families behind to do the caretaking work of the global economy. Since its initial publication, the book has informed countless students and scholars and set the research agenda on labor migration and transnational families. With this second edition, Rhacel Salazar Parreñas returns to Rome and Los Angeles to consider how the migrant communities have changed. Children have now joined their parents. Male

domestic workers are present in significantly greater numbers. And, perhaps most troubling, the population has aged, presenting new challenges for the increasingly elderly domestic workers. New chapters discuss these three increasingly important constituencies. The entire book has been revised and updated, and a new introduction offers a global, comparative overview of the citizenship status of migrant domestic workers. *Servants of Globalization* remains the defining work on the international division of reproductive labor.

*The Global Virtual University* Lalita Rajasingham, John Tiffin, 2003-12-16 This book is about the shift from the modern university of the nation state to the global virtual university of the future. John Tiffin and Lalita Rajasingham launched the idea of virtual universities on the Internet with the publication of 'In Search of the Virtual Class: Education in an Information Society' in 1995. Since then, virtual universities have multiplied worldwide. However, the authors argue that globalisation and the Internet are still in their infancy, and universities have yet to face the challenges of global free trade in broadband telecommunications, artificial intelligence and HyperReality. Based on material gathered

from research in the USA, Japan, Taiwan, Brazil, Malaysia, Australia and New Zealand, this book describes how a global university could function in the future and presents a paradigm from which it might be constructed. This unique, visionary text will be critical reading for academics, postgraduate students and for anyone involved in policymaking and planning within the university community and administration.

Out of the Ordinary Michael Dillon/Lobzang Jivaka, 2016-11-01 Now available for the first time—more than 50 years after it was written—is the memoir of Michael Dillon/Lobzang Jivaka (1915–62), the British doctor and Buddhist monastic novice chiefly known to scholars of sex, gender, and sexuality for his pioneering transition from female to male between 1939 and 1949, and for his groundbreaking 1946 book *Self: A Study in Ethics and Endocrinology*. Here at last is Dillon/Jivaka's extraordinary life story told in his own words. *Out of the Ordinary* captures Dillon/Jivaka's various journeys—to Oxford, into medicine, across the world by ship—within the major narratives of his gender and religious journeys. Moving chronologically, Dillon/Jivaka begins with his childhood in Folkestone,

England, where he was raised by his spinster aunts, and tells of his days at Oxford immersed in theology, classics, and rowing. He recounts his hormonal transition while working as an auto mechanic and fire watcher during World War II and his surgical transition under Sir Harold Gillies while Dillon himself attended medical school. He details his worldwide travel as a ship's surgeon in the British Merchant Navy with extensive commentary on his interactions with colonial and postcolonial subjects, followed by his "outing" by the British press while he was serving aboard The City of Bath. Out of the Ordinary is not only a salient record of an early sex transition but also a unique account of religious conversion in the mid-twentieth century. Dillon/Jivaka chronicles his gradual shift from Anglican Christianity to the esoteric spiritual systems of George Gurdjieff and Peter Ouspensky to Theravada and finally Mahayana Buddhism. He concludes his memoir with the contested circumstances of his Buddhist monastic ordination in India and Tibet. Ultimately, while Dillon/Jivaka died before becoming a monk, his novice ordination was significant: It made him the first white European man to be ordained in the Tibetan Buddhist tradition. Out of the Ordinary is a landmark publication that sets free a distinct

voice from the history of the transgender movement.

**Gender and Genre in the Folklore of Middle India** Joyce Burkhalter Flueckiger, 2018-03-15 In *Gender and Genre in the Folklore of Middle India*, Joyce Burkhalter Flueckiger analyzes six representative Indian folklore genres from a single regional repertoire to show the influence of their intertextual relations on the composition and interpretation of artistic performance. Placing special emphasis on women's rituals, she looks at the relationship between the framework and organization of indigenous genres and the reception of folklore performance. The regional repertoire under examination presents a strikingly female-centered world. Female performers and characters are active, articulate, and frequently challenge or defy expectations of gender. Men also confound traditional gender roles. Flueckiger includes the translations of two full performance texts of narratives sung by female and male storytellers respectively.

**The Politics of Climate Change and Uncertainty in India** Lyla Mehta, Hans Nicolai Adam, Shilpi Srivastava, 2021-12-24 This book brings together diverse perspectives concerning uncertainty and

climate change in India. Uncertainty is a key factor shaping climate and environmental policy at international, national and local levels. Climate change and events such as cyclones, floods, droughts and changing rainfall patterns create uncertainties that planners, resource managers and local populations are regularly confronted with. In this context, uncertainty has emerged as a wicked problem for scientists and policymakers, resulting in highly debated and disputed decision-making. The book focuses on India, one of the most climatically vulnerable countries in the world, where there are stark socio-economic inequalities in addition to diverse geographic and climatic settings. Based on empirical research, it covers case studies from coastal Mumbai to dryland Kutch and the Sundarbans delta in West Bengal. These localities offer ecological contrasts, rural–urban diversity, varied exposure to different climate events, and diverse state and official responses. The book unpacks the diverse discourses, practices and politics of uncertainty and demonstrates profound differences through which the above, middle and below understand and experience climate change and uncertainty. It also makes a case for bringing together diverse knowledges and approaches to understand and embrace

climate-related uncertainties in order to facilitate transformative change. Appealing to a broad professional and student audience, the book draws on wide-ranging theoretical and conceptual approaches from climate science, historical analysis, science, technology and society studies, development studies and environmental studies. By looking at the intersection between local and diverse understandings of climate change and uncertainty with politics, culture, history and ecology, the book argues for plural and socially just ways to tackle climate change in India and beyond. Qur'an and Woman Amina Wadud, 1999-06-10 Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qu'ran written almost entirely by men. Now, with Qur'an and Woman, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qu'ran and brings it out of the shadows. Muslim progressives have

long argued that it is not the religion but patriarchal interpretation and implementation of the Qu'ran that have kept women oppressed. For many, the way to reform is the reexamination and reinterpretation of religious texts. Qu'ran and Woman contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qu'ranic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qu'ranic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qu'ran confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qu'ran does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qu'ran holds greater possibilities for guiding human society to a more fulfilling

and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

**Corcoran Gallery of Art** Corcoran Gallery of Art, Sarah Cash, Emily Dana Shapiro, Jennifer Carson, 2011 This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

**The 2030 Spike** Colin Mason, 2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on

a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

**Introducing Intercultural Communication** Shuang Liu,Zala Volcic,Cindy Gallois,2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new

topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including:

- theory corners with concise, boxed-out digests of key theoretical concepts
- case illustrations putting the main points of each chapter into context
- learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion
- a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes.

This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

**The Global Victimization of Children** Clayton A. Hartjen, S. Priyadarsini, 2012-01-02 This book

describes the concept of child victimization in all its facets. Millions of young people throughout the world face violence, sexual, physical, and emotional abuse and exploitation on a daily basis. The worldwide victimization of young people can be prevented, or, at least, its incidence can be greatly reduced, if purposeful action is taken to do so. This volume researches and documents some of the ways in which young people throughout the world are victimized, and suggests strategies for preventing various forms of child victimization. Eight distinct forms of victimization are identified and analyzed in detail. Included are discussions on child prostitution and pornography, economic exploitation through child labor and trafficking, physical and other abuse inflicted on young people in schools and other institutions, the use of children as armed combatants, and the denial of the basic needs and rights of children to such things as home and to education. In each chapter the authors discuss the nature of the victimization, its global dimensions and prevalence, and the measures governments and/or others are taking, or failing to take, to combat the harm based on the concept that youth victimization is a form of government crime.

**New Rules for the New Economy** Kevin Kelly, 1999 The classic book on business strategy in the new networked economy— from the author of the New York Times bestseller *The Inevitable* Forget supply and demand. Forget computers. The old rules are broken. Today, communication, not computation, drives change. We are rushing into a world where connectivity is everything, and where old business know-how means nothing. In this new economic order, success flows primarily from understanding networks, and networks have their own rules. In *New Rules for the New Economy*, Kelly presents ten fundamental principles of the connected economy that invert the traditional wisdom of the industrial world. Succinct and memorable, *New Rules* explains why these powerful laws are already hardwired into the new economy, and how they play out in all kinds of business—both low and high tech— all over the world. More than an overview of new economic principles, it prescribes clear and specific strategies for success in the network economy. For any worker, CEO, or middle manager, *New Rules* is the survival kit for the new economy.
