Reading Time in Music Sarah Cash, 2023-04-15 This book examines the intersection of music and temporality in British literature of the long nineteenth century, arguing the temporal multiplicity of music as the most dynamic way to subvert mimetic bias. Temporally vexed sound spaces rupture the narrative, transgressing the hegemonic structures to which it is subject.

But when sales becomes your life, it can sometimes shift from an enjoyable living to one filled with anxiety and pressure. The Sales Burnout Survival Guide is designed to help you feel good about selling again. So much of life is work, and very few people understand what makes work rewarding. Dan has taken wisdom he has gained in the last twenty years of his sales experience and condensed it into an easy-to-ready manual. Sales knowledge is essential in all professions in today's ever-changing world, but it can be fun and rewarding as well. Dan can teach you the skills you need for sales in this new social environment. Digital Literature and Critical Theory Annika Elstermann, 2022-12-27 The aim at the core of this book is a synthesis of increasingly popular and culturally significant forms of digital literature on the one hand, and established literary and critical theory on the other: reading digital texts through the lens of canonical theory, but also reading this more traditional theory through the lens of digital texts and related media. In a field which has often regarded the digital as apart from traditional literature and theory, this book highlights continuities in order to analyse digital literature as part of a longer literary tradition. Using examples from social media to video games and works particularly by postmodern and poststructuralist theorists, *Digital Literature and Critical Theory* contextualises digital forms among their analogue precursors and traces ongoing social developments which find expression in these cultural phenomena, including power dynamics between authors and readers, the individual in (post-)modernity, consumerism, and the potential for intersubjective exchange. Front Page Economics Gerald D. Suttles, Mark D. Jacobs, 2011-02-15 In an age when pundits constantly decry overt political bias in the media, we have naturally become skeptical of the news. But the bluntness of such critiques masks the highly sophisticated ways in which the media frame important stories. In *Front Page Economics*, Gerald Suttles delves deep into the archives to examine coverage of two major economic crashes—in 1929 and 1987—in order to systematically break down the way newspapers normalize crises. Poring over the articles generated by the crashes—as well as the people in them, the writers who wrote them, and the cartoons that ran alongside them—Suttles uncovers dramatic changes between the ways the first and second crashes were reported. In the intervening half-century, an entire new economic language had arisen and the practice of business journalism had been completely altered. Both of these transformations, Suttles demonstrates, allowed journalists to describe the 1987 crash in a vocabulary that was normal and familiar to readers, rendering it routine. A subtle and probing look at how ideologies are packaged and transmitted to the casual newspaper reader, *Front Page Economics* brims with important insights that shed light on our own economically tumultuous times.

Scouting ,1988-11 Published by the Boy Scouts of America for all BSA registered adult volunteers and professionals, *Scouting* magazine offers editorial content that is a mixture of information, instruction, and inspiration, designed to strengthen readers' abilities to better perform their leadership roles in Scouting and also to assist them as parents in strengthening families.

Marketing Identities David A. Brenner, 2018-02-05 *Marketing Identities* analyzes how Ost und West (East and West), the first Jewish magazine (1901-1923) published in Berlin by westernized Jews originally from Eastern Europe, promoted ethnic identity to Jewish audiences in Germany and throughout the world. Using sophisticated techniques of modern marketing, such as stereotyping, the editors of this highly successful journal attempted to forge a minority consciousness. *Marketing Identities* is thus about the beginnings of ethnicity as we know it in the late twentieth century. An interdisciplinary study, *Marketing Identities* illuminates present-day discussions in Europe and the Americas regarding the experience and self-understanding of minority groups and combines media and cultural studies with German and Jewish history.
