Technology and Digital Media in the Early Years Chip Donohue, 2014-08-07 A Co-Publication of Routledge and NAEYC Technology and Digital Media in the Early Years offers early childhood teacher educators, professional development providers, and early childhood educators in pre-service, in-service, and continuing education settings a thought-provoking guide to effective, appropriate, and intentional use of technology with young children. This book provides strategies, theoretical frameworks, links to research evidence, descriptions of best practice, and resources to develop essential digital literacy knowledge, skills and experiences for early childhood educators in the digital age. Technology and Digital Media in the Early Years puts educators right at the intersections of child development, early learning, developmentally appropriate practice, early childhood teaching practices, children's media research, teacher education, and professional development practices. The book is based on current research, promising programs and practices, and a set of best practices for teaching with technology in early childhood education that are based on the NAEYC/FRC Position Statement on Technology and Interactive Media and the Fred Rogers Center Framework for Quality in Children's Digital Media. Pedagogical principles, classroom practices, and teaching strategies are presented in a practical, straightforward way informed by child development theory, developmentally appropriate practice, and research on effective, appropriate, and intentional use of technology in early childhood settings. A companion website (<http://teccenter.erikson.edu/tech-in-the-early-years/>) provides additional resources and links to further illustrate principles and best practices for teaching and learning in the digital age.

The Ocean House Mary-Beth Hughes, 2021-01-12 A stunning story cycle that explores the fractured lives of families in a Jersey Shore beach town from the bestselling, New York Times Notable author. Faith, a mother of two young children, Cece and Connor, is in need of summer childcare. As a member of a staid old beach club in her town and a self-made business consultant, she is appalled when her brother-in-law sends her an unruly, ill-mannered teenager named Lee-Ann who appears more like a wayward child than competent help. What begins as a promising start to a redemptive relationship between the two ends in a tragedy that lands Faith in a treatment facility, leveled by trauma. Years later, Faith and her mother, Irene, visit Cece in college. A fresh-faced student with a shaved head and new boyfriend, Cece has become a force of her own. Meanwhile, her grandmother, Irene, is in the early stages of dementia. She slips in and out of clarity, telling lucid tales of her own troubled youth. Faith dismisses her mother's stories as bids for attention. The three generations of women hover between wishful innocence and a more knowing resilience against the cruelty that hidden secrets of the past propel into the present. Including stories from an array of characters orbiting Faith's family, *The Ocean House* weaves an exquisite world of complicated family tales on the Jersey Shore. In ever-tender and elegant prose, Mary-Beth Hughes masterfully explores the emotional consequences of loss and the saving graces of love. "[The Ocean House] accrues a rich, novelistic sweep and leaves readers with a vertiginous sense of contingency." —The New York Times

The Routledge International Handbook of Children, Adolescents and Media analyses a broad range of complementary areas of study, including children as media consumers, children as active participants in media making, and representations of children in the media. The handbook presents a collection that spans a variety of disciplines including developmental psychology, media studies, public health, education, feminist studies and the sociology of childhood. Essays provide a unique intellectual mapping of current knowledge, exploring the relationship of children and media in local, national, and global contexts. Divided into five parts, each with an introduction explaining the themes and topics covered, the handbook features 57 new contributions from 71 leading academics from 38 countries. Chapters consider vital questions by analyzing texts, audience, and institutions, including: the role of policy and parenting in regulating media for children the relationships between children's on-line and off-line social networks children's strategies of resistance to persuasive messages in advertising media and the construction of gender and ethnic identities The Handbook's interdisciplinary approach and

The Bippolo Seed and Other Lost Stories Dr. Seuss,2013-10-22 What's better than a lost treasure? Seven lost treasures! These rarely seen Dr. Seuss stories were published in magazines in the early 1950s and are finally available in book form. They include "The Bippolo Seed" (in which a scheming feline leads a duck toward a bad decision), "The Rabbit, the Bear, and the Zinniga-Zanniga" (about a rabbit who is saved from a bear by a single eyelash), "Gustav, the Goldfish" (an early rhymed version of the Beginner Book A Fish Out of Water), "Tadd and Todd" (about a twin who is striving to be an individual), "Steak for Supper" (in which fantastic creatures follow a boy home in anticipation of a steak dinner), "The Strange Shirt Spot" (the inspiration for the bathtub-ring scene in The Cat in the Hat Comes Back), and "The Great Henry McBride" (about a boy whose far-flung career fantasies are bested only by those of Dr. Seuss himself). An introduction by Seuss scholar Charles D. Cohen traces the history of the stories, which demonstrate an intentional move toward the writing style we now associate with Dr. Seuss. Cohen also explores the themes that recur in well-known Seuss stories (like the importance of the imagination or the perils of greed). With a color palette enhanced beyond the limitations of the original magazines, this is a collection that no Seuss fan (whether scholar or second grader) will want to miss.

Neverending Stories R. Lyle Skains,2022-12-29 Digital fiction has long been perceived as an experimental niche of electronic literature. Yet born-digital narratives thrive in mainstream culture, as communities of practice create and share digital fiction, filling in the gaps between the media they are given and the stories they seek. Neverending Stories explores the influences of literature and computing on digital fiction and how the practices and cultures of each have impacted who makes and plays digital fiction. Popular creativity emerges from subordinated groups often excluded from producing cultural resources, accepting the materials of capitalism and inverting them for their own carnivalesque uses. Popular digital fiction goes by many different names: webnovels, adventure games, visual novels, Twitter fiction, webcomics, Twine games, walking sims, alternate reality games, virtual reality films, interactive movies, enhanced books, transmedia universes, and many more. The book establishes digital fiction in a foundation of innovation, tracing its emergence in various guises around the world. It examines Infocom, whose commercial success with interactive fiction crumbled, in no small part, because of its failure to consider women as creators or consumers. It takes note of the brief flourish of commercial book apps and literary games. It connects practices of cognitive and conceptual interactivity, and textual multiplicity-dating to the origins of the print novel-to the feminine. It pushes into the technological future of narrative in immersive and mixed realities. It posits the transmedia franchises and the practices of fanfiction as examples of digital fiction that will continue indefinitely, regardless of academic notice or approval.
