Online Casinos For Real Money John Kalwin,2014-12-30 Online casinos, also known as virtual casinos or Internet casinos, are online versions of traditional casinos. Online casinos generally offer odds and payback percentages that are comparable to land-based casinos. Some online casinos claim higher payback percentages for slot machine games, and some publish payout percentage audits on their websites. Assuming that the online casino is using an appropriately programmed random number generator, table games like blackjack have an established house edge. The payout percentage for these games are established by the rules of the game. Poker on the Internet Andrew Kinsman,2005 In recent years Internet Poker has been gone from an industry very much in its infancy, enjoyed by a few hundred regular 'play money' players, to a multi-million pound business, in which thousands of players around the world take part in real money games every day. With more than a dozen major sites in fierce competition for the online poker market, and new cardrooms being launched every few months, poker players nowadays face a huge (and potentially bewildering) range of choices. Whether you are a newcomer to online poker or already play regularly, this book provides you with the information you need to survive

in the Internet poker jungle. It addresses the following questions: * How do I choose an online poker room at which to play? * How does online cardroom play differ from 'live' cardroom play? * Is there a risk of being cheated or colluded against? * How can I use the Internet to improve my play?
