Taking Lives Michael Pye,2007-12-18 Martin Arkenhout found his true calling on a lonely Florida highway -- with a sharp rock to the skull of an injured friend. He didn't just take the boy's life; he went on to live it. When that life became too risky, he found another, and another, changing his name, papers and style at will, until he chose the wrong life -- a scholarly thief on the run from the determined and troubled John Costa. The two men will meet, and there will be murder. But there is something much worse: the sweet seduction of taking another's life to be your own. Chillingly suspenseful, brilliantly executed and truly disturbing, *Taking Lives* is an entertainment to make you think and shiver.

My Year in the No-man's-land Peter Handke,1998 An Austrian writer looks back on his failed relationships, from his tenuous connection to his son to an abortive love affair with a onetime Miss Yugoslavia, struggling to do justice to their complexity in his next novel.

Engraving on Precious Metals A. Brittain,P. Morton,1958 Engraving on Precious Metals is for professionals and others who wish to learn hand engraving as a hobby or trade, and reveals many previously undisclosed practices of the commercial engraver which help to make his skill quite astonishing. All aspects of the craft are covered exhaustively, including the relatively modern innovation of the high-class machine engraver. This machine is particularly useful for repeat monograms and designs which are afterwards filled, because the template that guides the machine can be cut by hand. Illustrated throughout with over 250 drawings, the book gives practical hints for use in the workshop, while artistic matters are covered extensively in chapters on lettering design and layout, monograms, nameplates and ornamentation. A basic knowledge of ancillary crafts can be found in the sections on piercing, polishing, soldering and inlaying, and the use of unusual materials such as ivory, wood or plastic is also discussed. The final chapter contains a wide selection of different styles of lettering which are numbered for easy reference, and can be used by the retailer to indicate styles to customers and engravers

How Europe Underdeveloped Africa Walter Rodney,2018-11-27 The classic work of political, economic, and historical analysis, powerfully introduced by Angela Davis In his short life, the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution, leading movements in North America, South America, the African continent, and the Caribbean. In each locale, Rodney found himself a lightning rod for working class Black Power. His deportation catalyzed 20th century Jamaica's most significant rebellion, the 1968 Rodney riots, and his scholarship trained a generation how to think politics at an international scale. In 1980, shortly after founding of the Working People's Alliance in Guyana, the 38-year-old Rodney would be assassinated. In his magnum opus, *How Europe Underdeveloped Africa*, Rodney incisively argues that grasping the great divergence between the west and the rest can only be explained as the exploitation of the latter by the former. This meticulously researched analysis of the abiding repercussions of European colonialism on the continent of Africa has not only informed decades of scholarship and activism, it remains an indispensable study for grasping global inequality today.

Cosplay in America Ejen Chuang,2017-12-05 *Cosplay in America V2* takes a reader on a visual journey through the culture of cosplay in the United States. Photographer Ejen Chuang spent three years visiting twenty cities to gather images for this book combining portraits of cosplayers taken at fandom conventions with documentary photographers of people making costumes at home and gathering at events. Along the way, cosplayers talk about their experience in cosplay. Featuring essays from Liz Ohanesian and Dr. Andrea Letamendi--Publisher's website.

The Iconoclast's Journal Terry Griggs,2018-06-12 Spooked by some ball lightning on his wedding night, repressed young Catholic Griffith Smolders interprets this as a sign and abandons his conjugal responsibilities by escaping through the window, enduring a series of misadventures along the way involving, among others, con men, murderesses, shipwrecks, and autodidact biologist hermits. Giving chase, his betrothed, Avice Drinkwater, finally runs Grif aground in a tiny island community, and prepares to exact her revenge. Set in the rough-and-tumble late nineteenth century backwoods, *The Iconoclast's Journal* is wildly kinetic, a madcap picaresque and comic anti-romance by one of the most inventive writers at work today.

Brothers in Berets Forrest L. Marion,2018 The Air Force Special Operations Command (AFSOC) special tactics community is a small, tight-knit brotherhood of proficient and committed warriors, consisting of special tactics officers and combat controllers, combat rescue officers and pararescuemen, and officer and enlisted special operations weathermen. These warriors have consistently proven themselves to be an invaluable force multiplier throughout history in conflicts around the world. This is their story.--Provided by publisher.

The God of All Comfort Hannah Whitall Smith,2013-05-01 God isn't angry with you—He longs to give you peace and joy. That's the message of Hannah Whitall Smith's important and powerful book *The God of All Comfort*. Abridged and updated for today's reader, this late nineteenth-century study holds a well-deserved spot among the Christian classics, reminding God's children of His many promises of comfort, help, and love. Addressing God's powerful names, His role as shepherd and dwelling place, and His complete sufficiency for human needs, *The God of All Comfort* will show you that anxiety, fear, and insecurity are unnecessary feelings for Christians.

Wild Jay Griffiths,2008 Jay Griffiths describes an extraordinary odyssey, courageous and sometimes dangerous, to wildernesses of earth and ice, water and fire. It is also a journey into that greatest of uncharted lands - wild mind - as she explores the words and meanings which shape our ideas and our experience of our own wildness.

God Is Enough Melvin E. Dieter,Hallie A Dieter,2003-10 Generation after generation of readers have kept Hannah Whitall Smith's *The Christian's Secret of a Happy Life* in continuous print since its first publication in 1875. Many of them, however, never became well acquainted with similar gems of spiritual devotion that are found not only in her other published writings but also in the thousands of pages of unpublished letters and journals in which she recorded her spiritual journey. In 1982, through the kindness of her great-granddaughter, Barbara Strachey Halpern, the editors were given free access to the family's treasure lode of books, memorabilia, and manuscripts at her home in Oxford, England. The result was *God Is Enough*. The warm response generated by its first printing in 1986 and supported by the thousands who welcomed each additional printing thereafter indicates that the practical spiritual insights of this most widely read spiritual counselor of the nineteenth century still speak to us today.

The Objective Structured Clinical Examination in Anaesthesia Cyprian Mendonca,,Shyam Balasubramanian,2007-09-01 The Objective Structured Clinical Examination (OSCE) is a highly reliable and valid tool for the evaluation of trainees in anaesthesia. It enables examiners and trainers to assess a number of competencies in an organised way. Performance in the OSCE is considered to be a fair reflection of the level of knowledge and skill attained during anaesthesia training. Apart from having a wide and deep knowledge on the subject, trainees are expected to have the capacity to demonstrate their competency in a short period of time allotted for each station. The authors of this book have a rich experience in successfully conducting OSCE courses in the United Kingdom. The sample OSCE sets in the book closely simulate the style and content of the Royal College of Anaesthetists' examination format. The book contains 100 OSCE stations with answers based on key practical procedures, clinical skills, communication skills, data interpretation, anaesthetic equipment and the management of critical incidents on a simulator. This book will also help candidates all over the world to pass highly competitive postgraduate examinations in anaesthesia. It is an invaluable educational resource for all anaesthetists.

Black Holes and Time Warps Kip S Thorne,1994 In this masterfully written and brilliantly informed work, Dr. Rhorne, the Feynman Professor of Theoretical Physics at Caltech, leads readers through an elegant, always human, tapestry of interlocking themes, answering the great question: what principles control our universe and why do physicists think they know what they know? Features an introduction by Stephen Hawking.
