Towards a new Nordic textile commitment David Palm,Maria Elander,David Watson,Nikola Kiørboe,Kari-Anne Lyng,Stefán Gíslason,2014 This report is the primary outcome from Part I of the project “Towards a new Nordic textile commitment - Collection, sorting, reuse and recycling” initiated by the Nordic Waste Group (NAG). The report for Part 2 will be published in December 2014. This report summarizes the work carried out in 2013. The four subreports will be the basis for the work to be performed in 2014 with the aim of creating a Voluntary Commitment and a Code of Conduct. The reports for 2013 are: • Mapping of current actors in the collection, sorting, reuse and recycling of used textiles and the management of textile wastes • Literature review of the traceability of global textile flows. • Definition and documentation of operational and best practice standards in the collection, sorting, reuse and recycling of used textiles and management of textile wastes. • Comparison with waste management of other waste streams. The report is part of the Nordic Prime Ministers’ overall green growth initiative: “The Nordic Region – leading in green growth.” Read more in the web magazine “Green Growth the Nordic Way” at www.nordicway.org or at www.norden.org/greengrowth

Department of Health Great Britain: Parliament: House of Commons: Committee of Public Accounts,2007-04-17 The National Programme for IT in the NHS (the Programme) was set up to utilise information technology to help provide high quality services to patients, using centrally managed procurement to provide impetus to the uptake of IT and to secure economies of scale. Expenditure on the Programme is expected to be £12.4 billion over ten years to 2013-14. Following a National Audit Office report (HC 1173, session 2005-06, ISBN 9780102938289), the Committee examined progress made by the Department of Health in implementing the Programme, particularly the current status of the shared electronic patient clinical record; the costs of the Programme; the local management and implementation of the systems within the NHS; the extent to which clinicians were involved in developing the systems; the management of suppliers; and patient confidentiality. Four overall conclusions are drawn: (1) the piloting and deployment of the shared electronic patient clinical record is already running two years behind schedule and no firm implementation date exists; (2) the suppliers to the Programme are clearly struggling to deliver (one of the largest, Accenture, has now withdrawn), and the Department is unlikely to complete the Programme anywhere near its original schedule; (3) the Department has much still to do to win hearts and minds in the NHS, especially among clinicians, and needs to show that it can deliver on its promises, supply solutions that are fit for purpose, learn from its mistakes, and respond constructively to feedback from users in the NHS; (4) there is still much uncertainty about the costs of the Programme for the local NHS and the value of the benefits it should achieve.

Brave PAs Angela Garry,2015-03-12 The common image of the secretary or personal assistant is that of a quiet Miss Jones type - not usually expected to have the courage (or the right) to speak out on something they are passionate about. However, PAs have a vital role to play in an education environment - a role that requires real bravery. Written by the former PA to the principal of an innovative new academy in the UK, who now delivers training courses for secretaries and PAs in schools globally, this book offers tips, hints, anecdotes, time-saving advice, knowledge and expertise for PAs, secretaries and administrators to follow throughout the year. Each individual bravery-themed section is packed with advice and insights to assist with your continuing professional development, enable you to perform at your best and cope with the inevitable challenging situations you face, one week at a time. PAs, secretaries and administrators in schools, colleges and universities, this book is for you. Make this a brave year!

Pharmacovigilance for Herbal and Traditional Medicines Joanne Barnes,2022-08-11 This remarkable new book is the first text dedicated to the topic of pharmacovigilance for herbal and traditional medicines. Taking a truly global perspective, this volume draws together contributions from a diverse group of experts, writing on current knowledge and practices in pharmacovigilance for herbal and traditional medicines, and on advances and innovation in monitoring the safety of this unique and complex category of products and preparations. In part one, the book discusses the current status of pharmacovigilance for herbal and traditional medicines, including the importance of natural products chemistry to harms, and its relevance in considering how pharmacovigilance for these products could be undertaken. Several other chapters discuss methodological approaches and ongoing challenges in pharmacovigilance for herbal and traditional medicines, including issues relating to nomenclature, coding and classification, and the nuances involved in causality assessment. Part two of the book focusses on pharmacovigilance for herbal and traditional medicines around the world, with chapters from authors in several different countries representing diverse historical, ethnic, cultural, social and political contexts. These chapters provide deeper insights and perspectives into spontaneous reporting for herbal and traditional medicines in those countries, and in the context of the local use, practice and regulatory landscape for these products. Part two also provides an overview and new analysis of international case safety reports for herbal medicines held in VigiBase (the World Health Organization's global database of individual case safety reports, maintained by the Uppsala Monitoring Centre). This book is aimed at pharmacists, doctors, nurses and other health professionals, herbal-medicine practitioners and organisations, herbal medicine and pharmaceutical industry personnel, pharmacovigilance specialists, medicines’ regulators, health and social science researchers and academics, pharmacovigilance and health professional students, and students of herbal and traditional medicine, throughout the world. It is an extremely valuable resource for all individuals whose work touches the intersection between herbal medicines and pharmacovigilance, and it provides both an introduction to the topic and a deeper, comprehensive, contemporary account of the topic.

Gerontology and Geriatrics for NPs and PAs - E-Book Jill R. Beavers-Kirby,Freddi I. Segal-Gidan,2023-03-23 Written by NPs and PAs who have a wealth of experience in the care of older adults across all practice

settings, Gerontology and Geriatrics for NPs and PAs takes an evidence-based approach to both gerontology and geriatrics, incorporating the latest national and international guidelines and standards of care. This first-of-its-kind text takes an interprofessional, teamwork-based approach that reflects Interprofessional Education Collaborative (IPEC) core competencies, as well as the unique perspectives that NPs and PAs each bring to the collaborative care of older adults. Covers both primary care and acute care of older adults and fully addresses both graduate-level and practitioner core competencies necessary for optimal care of older adults. Places a strong emphasis on wellness (including nutrition and the Healthy People 2020 targets), normal aging, common syndromes of aging, disease management, patient safety (particularly in acute care settings), and a patient-centered care approach. Features vibrant, full-color illustrations, a full-color design for ease of navigation, and graduate-level learning features that include Key Points at the end of each chapter for quick reference and exam preparation. Addresses a wide range of topics specifically focused on the common medical problems of older adults, with chapters logically organized for efficient study and quick clinical reference.
