Advanced Materials for Joint Implants Giuseppe Pezzotti,2016-04-19 Based on an interdisciplinary approach that directly bridges orthopedic concepts to surface science, this book details cutting-edge research in bioceramics science, physical chemistry, biomedical optics, and nanomechanics. The book cites some of the more conventional spectroscopic characterization techniques—including Raman and cathodoluminescence spectroscopy. These techniques have been

used to unveil molecular scale phenomena of both chemical and mechanical origin occurring at the sliding surfaces of bioceramic joints. These concepts are of critical importance to researchers as they are relevant to the development of new biomaterials.

The Encounter Petru Popescu, 2016-09-13 THE ENCOUNTER tells the true story of National Geographic photographer Loren McIntyre who became lost in a remote area of Brazil in 1969, leading to a startling encounter that changed his life. The Broadway stage adaptation of THE ENCOUNTER will run from September 20, 2016 through January 8, 2017 at The Golden Theatre:
<http://theencounterbroadway.com/> A mindblower - Deadline Hollywood; Transfixing - Time Out New York; Haunting and enthralling- The Wall Street Journal; An astonishing work of theater - The New York Times. 1969: Loren McIntyre makes contact with the elusive Mayoruna 'cat people' of the Amazon's Javari Valley. He follows them - into the wild depths of the rainforest. When he realizes he is lost, it is already too late. Stranded and helpless, McIntyre must adjust to an alien way of life. Gradually, he finds his perception of the world beginning to change, and a strange relationship starts to develop

with the Mayoruna chief - is McIntyre really able to communicate with the headman in a way that goes beyond words, beyond language? Petru Popescu's gripping account of McIntyre's adventures with the Mayoruna tribe, and his quest to find the source of the Amazon, is reissued here to coincide with Complicite's acclaimed new stage production inspired by McIntyre's incredible story.

Bolivia and the United States Kenneth Duane Lehman,1999 This comprehensive account of U.S.-Bolivian relations presents startling contrasts between the histories, mythologies, and economies of the two countries, debunking the pop-culture myth that Bolivia is a poorer and less modern version of the United States. Kenneth D. Lehman focuses primarily on the countries' relationship during the twentieth century, highlighting periods when Bolivia became important to the United States as a provider of tin during World War II, as a potential source of regional instability during the Cold War, and as a supplier of cocaine to the U.S. market in recent years. While the partnerships forged in these situations have been rooted in mutual self-interest, the United States was--and is--clearly dominant. Repeatedly, the U.S. policy toward Bolivia has moved from assistance to frustration and imposition, and the Bolivian response has intensified from submission to resentment and resistance. *Bolivia and the United States* presents an illuminating discussion of the real as well as mythical bonds that link these most distant and different neighbors, simultaneously providing an abundance of evidence to show how factors of culture and power complicate and limit true partnership.

Interactive Documentary Kathleen M. Ryan, David Staton, 2022-03-17 Interactive documentary is still an emerging field that eludes concise definitions or boundaries. Grounded in practice-based research, this collection seeks to expand the sometimes exclusionary field, giving voice to scholars and practitioners working outside the margins. Editors Kathleen M. Ryan and David Staton have curated a collection of chapters written by a global cohort of scholars to explore the ways that interactive documentary as a field of study reveals an even broader reach and definition of humanistic inquiry itself. The contributors included here highlight how emerging digital technologies, collaborative approaches to storytelling, and conceptualizations of practice as research facilitate a deeper engagement with the humanistic inquiry at the center of documentary storytelling, while at the same time providing agency and voice to groups typically excluded from positions of authority within documentary and practice-based research, as a whole. This collection represents a key contribution to the important, and vocal, debates within the field about how to avoid replicating colonial practices and privileging. This is an important book for practice-based researchers as well as advanced-level media and communication students studying documentary media practices, interactive storytelling, immersive media technologies, and digital methodologies.
