Investing in Cultural Diversity and Intercultural Dialogue Unesco,2009-01-01 This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Mindsteps to the Cosmos Gerald S. Hawkins,2002 Mindsteps to the Cosmos shows how modern global civilization depends on giant leaps of understanding that have been made in the past. Science and technology have been inspired and formulated by the sky OCo the cosmos in which we live. Human development could not have taken place on a cloud-shrouded planet. Mathematics was invented to track the movements of the sun, moon and stars even though back then these were thought to be gods. The space program has taken us beyond the earth, and satellite systems are exploring to the ends of the visible universe. This book provides the reader with algorithms to construct personal computer programs for finding the position of the moon and planets, and for calculating dates through historic periods in the Egyptian as well as the old and new style calendars.

Mantegna and Bellini Caroline Campbell,Dagmar Korbacher,Neville Rowley,Sarah Vowles,Andrea De Marchi,Jill Dunkerton,Babette Hartweg,National Gallery (Great Britain),Staatliche Museen zu Berlin Picture Gallery,2018 An innovative study of the relationship between Andrea Mantegna and Giovanni Bellini, two masters of the Italian Renaissance Andrea Mantegna (c. 1431-1506) and Giovanni Bellini (active c. 1459; died 1516) each produced groundbreaking paintings, marked by pictorial and technical innovations, that are among the masterpieces of the Italian Renaissance. Exploring the fruitful dynamic between Mantegna's inventive compositional approach and interest in classical antiquity and Bellini's passion for landscape painting, this fascinating volume examines how these two artists, who were also brothers-in-law, influenced and responded to each other's work. Full of new insights and captivating juxtapositions--including comparisons of each of the artist's depictions of the Agony in the Garden and the Presentation to the Temple--this study reveals that neither Mantegna's nor Bellini's achievements can be fully understood in isolation and that their continuous creative exchanges shaped the work of both. Language Policy, Culture, and Identity in Asian Contexts Amy B.M. Tsui,James W. Tollefson,2017-09-25 Bringing together scholarship on issues relating to language, culture, and identity, with a special focus on Asian countries, this volume makes an important contribution in terms of analyzing and demonstrating how language is closely linked with crucial social, political, and economic forces, particularly the tensions between the demands of globalization and local identity. A particular feature is the inclusion of countries that have been under-represented in the research literature, such as Nepal, Bangladesh, Brunei Darussalam, Pakistan, Cambodia, Vietnam, and Korea. The book is organized in three sections: Globalization and its Impact on Language Policies, Culture, and Identity Language Policy and the Social (Re)construction of National Cultural Identity Language Policy and Language Politics: The Role of English. Unique in its attention to how the domination of English is being addressed in relation to cultural values and identity by non-English speaking countries in a range of sociopolitical contexts, this volume will help readers to understand the impact of globalization on non-English speaking countries, particularly developing countries, which differ significantly from contexts in the West in their cultural orientations and the way identities are being constructed. Language Policy, Culture, and Identity in Asian Contexts will interest scholars and research students in the areas of language policy, education, sociolinguistics, applied linguistics, and critical linguistics. It can be adopted in graduate and advanced undergraduate courses on language policy, language in society, and language education.

Warraparna Kaurna! Rob Amery,2016-02-22 This book tells the story of the renaissance of the Kaurna language, the language of Adelaide and the Adelaide Plains in South Australia, principally over the earliest period up until 2000, but with a summary and brief discussion of developments from 2000 until 2016. It chronicles and analyses the efforts of the Nunga community, and interested others, to reclaim and relearn a linguistic heritage on the basis of mid-nineteenth-century materials. This study is breaking new ground. In the Kaurna case, very little knowledge of the language remained within the Aboriginal community. Yet the Kaurna language has become an important marker of identity and a means by which Kaurna people can further the struggle for recognition, reconciliation and liberation. This work challenges widely held beliefs as to what is possible in language revival and questions notions about the very nature of language and its development.

Vanishing Voices Daniel Nettle,Suzanne Romaine,2000-07-27 Few people know that nearly one hundred native languages once spoken in what is now California are near extinction, or that most of Australia's 250 aboriginal languages have vanished. In fact, at least half of the world's languages may die out in the next century. Daniel Nettle and Suzanne Romaine assert that this trend is far more than simply disturbing. Making explicit the link between language survival and environmental issues, they argue that the extinction of languages is part of the larger picture of near-total collapse of the worldwide ecosystem. Indeed, the authors contend that the struggle to preserve precious environmental resources-such as the rainforest-cannot be separated from the struggle to maintain diverse cultures, and that the causes of language death, like that of ecological destruction, lie at the intersection of ecology and politics. In addition to defending the world's endangered languages, the authors also pay homage to the last speakers of dying tongues, such as Red Thundercloud, a Native American in South Carolina; Ned Mandrell, with whom the Manx language passed away in 1974; and Arthur Bennett, an Australian who was the last person to know more than a few words of Mbabaram. In our languages lies the accumulated knowledge of humanity. Indeed, each language is a unique window on experience. Vanishing Voices is a call to preserve this resource, before it is too late.

Globalization Thomas Hylland Eriksen,2014-02-13 For the first time in human history, the vast majority of the world's population is connected through trade, travel, production, media and politics. Ours is an era of ubiquitous mobile communication, economic outsourcing, mass migration and imported consumer goods. At the same time, people everywhere are concerned to keep their identities rooted and sense of place in the face of momentous change. This new edition of Thomas Hylland Eriksen's concise and engaging landmark textbook outlines the main debates and controversies around globalization, and develops a unique perspective to show how globalization is an inherently double process, taking place both from above and below. Each chapter is supported by boxed case studies and bullet points summarizing the core information, suggestions for further reading, and essay and discussion questions, making this the ideal guide for both the classroom and independent study. Focusing on key concepts of globalization and drawing on international examples, this book is essential for anyone wishing to understand the fundamental processes underlying the contemporary world and the consequences these have for all of us.

Culture and Public Action Vijayendra Rao,Michael Walton,2004 Led by Amartya Sen, Mary Douglas, and Arjun Appadurai, the distinguished anthropologists and economists in this book forcefully argue that culture is central to development, and present a framework for incorporating culture into development discourse. Creolization of Language and Culture Robert Chaudenson,2002-11 This is an accessible book which makes an important contribution to the study of Pidgin and Creole language varieties, as well as to the development of contemporary European languages outside Europe.

A Pepper-pot of Cultures Gordon Collier,Ulrich Fleischmann,2003 The terms 'creole' and 'creolization' have witnessed a number of significant semantic changes in the course of their history. Originating in the vocabulary associated with colonial expansion in the Americas it had been successively narrowed down to the field of black American culture or of particular linguistic phenomena. Recently 'creole' has expanded again to cover the broad area of cultural contact and transformation characterizing the processes of globalization initiated by the colonial migrations of past centuries. The present volume is intended to illustrate these various stages either by historical and/or theoretical discussion of the concept or through selected case studies. The authors are established scholars from the areas of literature, linguistics and cultural studies; they all share a lively and committed interest in the Caribbean area - certainly not the only or even oldest realm in which processes of creolization have shaped human societies, but one that offers, by virtue of its history of colonialization and cross-cultural contact, its most pertinent example. The collection, beyond its theoretical interest, thus also constitutes an important survey of Caribbean studies in Europe and the Americas. As well as searching overview essays, there are - sociolinguistic contributions on the linguistic geography of 'criollo' in Spanish America, the Limonese creole speakers of Costa Rica, 'creole' language and identity in the Netherlands Antilles and the affinities between Papiamentu and Chinese in Curaçao - ethnohistorical examinations of such topics as creole transgression in the Dominican/Haitian borderland, the Haitian Mandingo and African fundamentalism, creolization and identity in West-Central Jamaica, Afro-Nicaraguans and national identity, and the Creole heritage of Haiti - studies of religion and folk culture, including voodoo and creolization in New York City, the creolization of the Mami Wata water spirit, and signifyin(g) processes in New World Anancy tales - a group of essays focusing on the thought of Édouard Glissant, Maryse Condé, and the Créolité writers and case-studies of artistic expression, including creole identities in Caribbean women's writing, Port-au-Prince in the Haitian novel, Cynthia McLeod and Astrid Roemer and Surinamese fiction, Afro-Cuban artistic expression, and metacreolization in the fiction of Robert Antoni and Nalo Hopkinson.

The Future of Values Jérôme Bindé,2004-09 This volume brings together about 50 scientists and researchers from the four corners of the world to redefine and anticipate tomorrow's values, and reflect on the direction these values may lead humanity.--Publisher's description.
