Efficient Energy Investment and Fiscal Adjustment in Senegal Salifou Issoufou,Mr.Edward F. Buffie,Mouhamadou Bamba Diop,Kalidou Thiaw,2014-03-12 Senegal's fiscal deficit and public debt have been on the rise in recent years owing partly to an ailing and inefficient oil-based energy sector. In this paper we use a two-sector, open-economy, dynamic general equilibrium model to investigate the effects of varying fiscal policy instruments one at a time and of policy packages that increase public investment in energy and infrastructure in scenarios with varying degrees of debt finance and with different types of supporting fiscal adjustment. Lowering the fiscal deficit by raising taxes and cutting government expenditure has adverse effects on growth, real wages and the supply of public services. Senegal does not need, however, to undertake such difficult fiscal adjustment. A public investment program that coordinates new investment in low-cost hydroelectric, coal or gas-fired power with a phased contraction of the oil-based sector raises the total supply of energy by 70 percent, increases real wages and real GDP, stimulates private investment, and significantly reduces the fiscal deficit in the medium long term. More aggressive investment programs borrow against future fiscal gains to combine new energy investments with either delayed or frontloaded investments in non-energy infrastructure. These programs lead to much higher real wages and real GDP while keeping public debt sustainable and the fiscal deficit low in the medium and long term.

**Intertemporal Macroeconomic Models, Money and Regional Choice** G. Chirichiello,2000-05-23 Intertemporal macroeconomics links microeconomics and growth theory methods. The effects of policies are examined as the dynamic interaction between decisions of agents and policy interventions. The book explores the two basic approaches of models of infinitely-lived agents (Cass-Ramsey-Koopmans approach) and models of overlapping-generations (Allais-Fisher-Samuelson approach). Controversial questions concerning monetary models and monetary policies are also considered in a systematic way. The book also introduces both real models and monetary models of endogenous growth.

Life Savers Eryl Nash,2022-06-07 Spend a day with real-life emergency service heroes . . . and be inspired to make a difference! Have you ever wondered what equipment a firefighter takes into a blazing fire? Or what tools a surgeon uses to perform a life-saving operation? Or what gear a mountain rescuer needs on a 13,000-foot-high peak? Meet real-life emergency service workers from across the world as they share with you a day in their lives. Taking you to the heart of the heroes who help us, from Cecilia the Nurse and Koen the Lifeguard to Tamika the Veterinarian, this uplifting nonfiction picture book showcases the amazing work they do, the incredible skills they have, and the important equipment they need to save a life. A book that opens up opportunities for young readers to talk about interesting careers, diversity, and positive role models, with a foreword by the New York Fire Department's first Black, female deputy chief Tonya Boyd! Illustrated by Little People, Big Dreams series artist Ana Alberro, these charming depictions of everyday heroes show that the future of our world starts here . . . with you!

**Screen Saver** Noel McKeehan,2009-11 Some fairly serious shit has happened in the last sixty years. As fate would have it, I was fairly close to the central point of a lot of that shit - albeit in some cases only briefly; shit it seems, has a fairly long half life. As time has passed I have found it increasingly difficult -impossible really - to turn off a continued remembrance of the events and places and people that inhabited the story boards of all of that shit. They just won't leave me alone. So I have written it, and them, all down.One bookend of the story was my involvement in the war

effort, as we called the Vietnam debacle. The other was the near demise of IBM. Between those bookends there lurk a wide variety of people, experiences and events that always seemed, as they occurred, to be coherently additive to the total story.

Afghanistan Aqib Aslam, Mr. Enrico Berkes, Mr. Martin Fukac, Jeta Menkulasi, Mr. Axel Schimmelpfennig, 2013-05-30 For Afghanistan, the dual prospect of declining donor support and high ongoing security spending over the medium term keeps the government budget tight. This paper uses a general equilibrium model to capture the security-development tradeoff facing the government in its effort to rehabilitate macroeconomic stability and welfare. In particular, it considers strategic policy options for counteracting and minimizing the negative macroeconomic impact of possible aid and revenue shortfalls. We find that the mobilization of domestic revenues through changes in tax policy is the preferred policy response for Afghan central government. Such a response helps to place its finances on a sustainable path and preserve most of the growth potential. Cutting expenditures balances public finances, but causes the economy to permanently shrink. Debt financing helps to preserve much of the economy size but can jeopardize the sustainability of public finances.

Fiscal Deficit and Public Debt in Industrial Countries, 1970-1994 Mr. Vito Tanzi, Mr. Domenico Fanizza, 1995-05-01 This paper assembles a set of relevant fiscal data, for both the individual countries and for the aggregate G-7 and 18 industrial countries, which covers a period long enough to allow an assessment of trends and the conduct of econometric tests. The "world" fiscal deficit has been rising since the 1970s and reached a historic high in 1993-94; the rise of the deficit has been accompanied by a significant decline in world saving. The paper argues that the increase in public debt, which has been the consequence of the accumulation of the fiscal deficits, has pushed up worldwide interest rates. Econometric evidence in support of this relationship is presented on the basis of panel data for the period 1970-93.

*Congressional Record* United States. Congress, 2009 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

**The New Rules of Retirement Saving** Neil Wilding, Becky Swansburg, Martin H Ruby, 2020-06-18 For any saver who's ever wondered Am I doing this right?, this book will give you the guidance and confidence to answer Yes. Too many savers are operating under an old set of rules - rules that were created and tested decades ago for market conditions that no longer exist today. And while most of us would never call someone on a rotary phone, or drive a car without airbags, we still save with outdated strategies. The New Rules of Retirement Saving is your guidebook to the risks you face as a saver today ... and the new rules you can use to overcome them. Martin H. Ruby, FSA, has made his career helping people like you save smarter. As founder and CEO of Stonewood Financial Solutions, he helps savers achieve both greater financial wealth and greater financial security. What makes his approach so successful? Martin is an actuary, a mathematics specialist focused on identifying, evaluating and eliminating risk. In founding Stonewood Financial Solutions, Martin realized his vision of delivering actuarial expertise to clients rather than financial institutions. He uses his insider knowledge of how insurance and financial products work to structure strategies that maximize benefits for savers. Now, Martin has used his insights and expertise to develop The New Rules of Retirement Saving. Reading this book will give you the knowledge of today's biggest savings risks, and teach you to overcome them as you save for your future.

*Inclusion in the American Dream* Michael Sherraden, 2005-07-21 Inclusion in the American Dream brings together leading scholars and policy experts on the topic of asset building, particularly as this relates to public policy. The typical American household accumulates most of its assets in home equity and retirement accounts, both of which are subsidized through the tax system. But the poor, for the most part, do not participate in

these asset accumulation policies. The challenge is to expand the asset-based policy structure so that everyone is included.

**Irish Tax Reports 2017** Mark Tottenham, 2018-03-30 Irish Tax Reports is the only comprehensive set of reports of Irish tax cases published. This unique set brings together all the important tax cases in Ireland since the foundation of the State. This book is updated to contained the 2017 tax cases and, as with previous editions of this book, it also serves as a cumulative tables and index volume for the six volumes of Irish Tax Reports. A chronological list of the cases, from 1922-2017, is provided along with key words relating to each case and the references indicating where the case was previously reported. Many previously unreported judgments are included, as are many of the cases stated. Each spring, all new cases from the previous year are published in a bound paperback volume along with a case summary, updated cumulative tables and an index. These annual volumes are merged and republished in hardback form, every four to five years, allowing users to maintain and expand their hardback sets. Volumes may also be purchased separately. The tables and this index should ensure that the required cases are easily and quickly located.

**Overlapping Structures as a Model of Money** Bruno Schönfelder, 2012-12-06 The list of those to whom I am indebted is a long one. Prof. Neil

Wallace (University of Minnesota) stimulated my interest in the kind of models with which the book deals. I am grateful for a large number of conversations with him. I learned a lot from him and will always be proud that I have been one of his student. I hope that he is not disappointed with the outcome. I am deeply indebted to Prof. Dr. Hans-Werner Sinn (University of Munich). His observations and critical remarks were instrumental for a great number of changes and improvements which I was able to introduce while revising the manuscript again and again, and rethinking the basic arguments. I also want to thank Prof. Dr. Uta Gruber (University of Munich) for her helpful comments and for her support. I am very much obliged to Prof. Dr. h. c. Hans Moller (University of Munich). For many years I have had the honour of a nearly continuous dialogue with him. I am also grateful to Prof. Dr. Werner Gumpel (University). The stimulating atmosphere and the research opportunities which were provided by his seminar contributed a lot to my work. Finally I want to thank my wife Sigrid for looking through the English draft of this book and correcting numerous linguistic flaws. The remaining errors are of course mine. CONTENTS Page v Preface 1. **The Ararat Fiscal Strategy Model: A Structural Framework for Fiscal Policy Analysis in Armenia** Victoria Babajanyan, Daniel Baksa, Mr. Martin Fukac, Eduard Hakobyan, Arshaluys Harutyunyan, Narek Karapetyan, Babken Pashinyan, Garik Petrosyan, Luis-Felipe Zanna, 2022-06-10 This paper presents an overview of the Ararat Fiscal Strategy Model (AFSM), which is a structural, New-Keynesian, DSGE, small open economy model with a rich fiscal block that includes several expenditure and revenue instruments, and types of debt. The AFSM is now a formal part of the Ministry of Finance analytical toolkit to do macroeconomic fiscal policy scenario analysis, which feeds into policy discussions, budget planning, and the Medium-Term Expenditure Framework. The model was applied to assess the macroeconomic impact of the “first wave” of the Covid-19 pandemic on the Armenian economy, including the mitigating effects of policy responses. AFSM simulations revealed a potential severe impact in 2020, with declines in GDP and consumption of 12.9 and 11.7 percent, respectively, and a cumulative loss of GDP of 38 percent for the period 2020-2023. They also highlighted a significant fiscal outlook deterioration that would increase public debt-to-GDP ratios by 18.8 percentage points over 2020-23. The package of counter-cyclical fiscal measures of 3.6 percent of GDP, however, was estimated to cushion the 2020 GDP decline by almost 2 percentage points, as well as protect jobs. A second AFSM application related to the 2018 public investment under-execution showed the importance of improving the efficiency of public investment to have positive macroeconomic and fiscal effects.

**Anesthesia for Spine Surgery** Ehab Farag, 2012-05-17 A comprehensive guide to anesthesia specifically for spine surgery, explaining procedures from the point of view of both anesthesiologists and surgeons.

Balancing Financial Stability and Housing Affordability: The Case of Canada Mr. Troy D Matheson, 2019-08-02 Housing market imbalances are a key source of systemic risk and can adversely affect housing affordability. This paper utilizes a stylized model of the Canadian economy that includes policymakers with differing objectives—macroeconomic stability, financial stability, and housing affordability. Not surprisingly, when faced with multiple objectives, deploying more policy instruments can lead to better outcomes. The results show that macroprudential policy can be more effective than policies based on adjusting property transfer taxes because property-tax policy entails excessive volatility in tax rates. They also show that if property-transfer taxes are used as a policy instrument, taxes targeted at a broader-set of homebuyers can be more effective than measures targeted at a smaller subset of homebuyers, such as nonresident homebuyers.
