Digital Bridges: Developing Countries in the Knowledge Economy Afele, John,2002-07-01 Globalization and global equity are built on the premise of peace. The causes of many divisions and tensions in human communities lie in the imagined or real gain of financial or material assets of some elements of the community to be at the expense of others. The global community however lacks clear definitions and methods of stability, whether political, economic, or social. Digital Bridges: Developing Countries in the Knowledge Economy provides insight into the methods and theories behind the globalization of information technologies.

Islamic Perspectives on Science and Technology Mohammad Hashim Kamali,Osman Bakar,Daud Abdul-Fattah Batchelor,Rugayah Hashim,2016-04-25 This book presents 25 selected papers from the International Conference on “Developing Synergies between Islam & Science and Technology for Mankind’s Benefit” held at the International Institute for Advanced Islamic Studies Malaysia, Kuala Lumpur, in October 2014. The papers cover a broad range of issues reflecting the main conference themes: Cosmology and the Universe, Philosophy of Science and the Emergence of Biological Systems, Principles and Applications of Tawhidic Science, Medical Applications of Tawhidic Science and Bioethics, and the History and Teaching of Science from an Islamic Perspective. Highlighting the relationships between the Islamic religious worldview and the physical sciences, the book challenges secularist paradigms on the study of Science and Technology. Integrating metaphysical perspectives of Science, topics include Islamic approaches to S&T such as an Islamic epistemology of the philosophy of science, a new quantum theory, environmental care, avoiding wasteful consumption using Islamic teachings, and emotional-blasting psychological therapy. Eminent contributing scholars include Osman Bakar, Mohammad Hashim Kamali, Mehdi Golshani, Mohd. Kamal Hassan, Adi Setia and Malik Badri. The book is essential reading for a broad group of academics and practitioners, from Islamic scholars and social scientists to (physical) scientists and engineers.

A Critical Impulse to e-Governance in the Asia Pacific AMITA SINGH,2013-11-26 This book presents a comparative study of the vision, ability and dynamism on the part of governments in selected Asian Pacific countries as they engage in the distribution of e-governance. Consequently, it creates a platform for mutual learning and offers a dispassionate evaluation of mega e-projects. It is an interdisciplinary study of information and communication technology within mainstream social science research and attempts to bridge the gap in empirical research between the nature of technology and the manner in which it is governed. The analysis shows that

hegemonic and panoptic structures of surveillance and control may derail efforts to establish sustainable e-governance, while a liberal futuristic framework with open socio-technology networks on Big Data analytics, IPv6 and Cloud Computing may strengthen the trend towards democratizing institutions. Further, the book highlights the extraordinary energy being generated in the emerging new world through their use of the internet and suggests how governments could translate this into a new wealth of economic opportunities, social inclusion and equitable development, in addition to achieving the MDGs (Millennium Development Goals). Lastly, it emphasizes the importance of a visionary approach, which, wherever present, has been able to sustain e-governance by meaningfully linking the micro to the macro and heritage to the horizon.

The Poetician ?? Pathak (Lov Pathak),2021-07-11 I am you; you are me. We both are in this book. If you hold a bachelor degree in common sense and satire is your first language, you will enjoy the read. The Poetician is a cheeky, colloquial, social, in the face satire about the lives we live in contemporary times. Every poetry is a story; unification of past with present and amalgamation of a skeptical future. The title ‘Practical vs Theory’ makes you realize what a fool this education system had made out of you. ‘Cheekhta-Chillata Shehar’ is a blunt satire on an un-environmentally friendly city. ‘Foodie-Mere ped ki dastaan’ will leave you with a humorous aftertaste. ‘Maryadapurshottam Mard’ is a satirical take on the lives of the eldest sons in the Indian family. ‘Hindi medium ka chatra’ is a satire on the colonial language. ‘Manto’ and ‘Munshi ji’ are odes to the legends. ‘Best friends forever’ deals with the dark world of teenage issues and friendship. ‘Jahaalat’ translates the crassness of modern young society. ‘Parchaiyan’ is my arrogant, angry battle with life. ‘Bachche Zinda hain’ is a raw, compelling, naked truth about how we treat the young citizens of this country. I would say just read and then decide if you found yourself or not.
