<u>The History of Meteoritics and Key Meteorite Collections</u> Gerald Joseph Home McCall,A. J. Bowden,Richard John Howarth,2006 This Special Publication has 24 papers with an international authorship, and is prefaced by an introductory overview which presents highlights in the field. The first section covers the acceptance by science of the reality of the falls of rock and metal from the sky, an account that takes the reader from BCE (before common era) to the nineteenth century. The second section details some of the world's most important collections in museums – their origins and development. The Smithsonian chapter also covers the astonishingly numerous finds in the cold desert of Antarctica by American search parties. There are also contributions covering the finds by Japanese parties in the Yamato mountains and the equally remarkable discoveries in the hot deserts of Australia, North Africa, Oman and the USA. The other seven chapters take the reader through the revolution in scientific research on meteoritics in the later part of the twentieth century, including terrestrial impact cratering and extraordinary showers of glass from the sky; tektites, now known to be Earth-impact-sourced. Finally, the short epilogue looks to the future. The History of Meteoritics and Key Meteorite Collections should appeal to historians of science, meteoriticists, geologists, astronomers, curators and the general reader with an interest in science.

**Caged Innocence** A.P. Ri'Chard,2008-11-04 A teenager, determined to end the reign of his abusive, alcoholic father, ends up accused of a murder he didn't commit. A noted Klansman, Miran Thompson, has been killed, and the prime suspect in his murder case is seventeen-year-old Larry Henderson. Complicating matters, Larry's father, Officer Perry Henderson, is deeply involved in the case. To the casual observer, the evidence against Larry is overwhelming. If convicted, he would surely receive the death penalty. In order to avoid death row, Perry convinces his son to plead guilty. He promises to do all he can to prove Larry innocent. But are Perry's motivations so pure? The father and son's turbulent past has created a deep rift between them, and Perry is afraid of the teen's repeated promises for vengeance. Believing he is being set up for murder, Perry instead aims the evidence at his own son, allowing him to take the fall—but will his scheme succeed, or will Larry be proven innocent?
